

MassHealth Office of Long-Term Services and Supports
Nursing Facility Direct Care Cost Quotient (DCC-Q)
Fiscal Year 2024 Reporting Period

- In October of 2020, the Executive Office of Health and Human Services (EOHHS) implemented the Direct Care Cost Quotient (DCC-Q) as a regulatory requirement to hold facilities financially accountable for prioritizing the support of direct care staff through revenue spent. The requirement applies to all nursing facilities participating in the Massachusetts Medicaid (“MassHealth”) program.
- In accordance with 101 CMR 206.12, the DCC-Q requires facilities to spend at least 75% of total facility revenue on direct care. For every 1% below the 75% DCC-Q threshold, a 0.5% downward adjustment—up to a maximum of 5%—will be applied to the nursing and operating components of the facility’s per diem rate effective the following rate year.
- The following report presents two DCC-Q values:
 - **“Unadjusted”** is calculated by dividing direct care workforce expenses, such as nursing, dietary, restorative therapy, or social worker staff expenses, by the facility’s total revenue, excluding the revenue for non-nursing facility lines of business. User Fee Assessments, certain federal and state payments, certain prescription drug expenses, and certain other ancillary costs related to services provided to Medicare residents were also excluded from the revenue definition.
 - **“Adjusted”** is calculated as Unadjusted, except that it excludes any reported capital grants, other forgivable loans received, or any state/federal relief funds provided to a facility during the reporting period.

Table 1: Summary of Results¹
Reporting Period Fiscal Year 2024
(July 1, 2023 – June 30, 2024)

Facility Group	Unadjusted Count	Unadjusted Percent	Adjusted Count	Adjusted Percent
100% or higher ²	15	4%	15	4%
Less than 100% and equal to, or above, 75%	237	71%	246	74%
Below 75%	83	25%	74	22%
Total	335	335	335	335

¹ Counts in Table 1 are determined by unrounded DCC-Q results, while Table 2 presents DCC-Q values as rounded whole numbers.

² DCC-Q scores over 100% may reflect cost and revenue fluctuations during a particular period.
