

DCC-Q REPORT

October 1, 2020 – June 30, 2021

- In October of 2020, the Executive Office of Health and Human Services (EOHHS) implemented the Direct Care Cost Quotient (DCC-Q) as a regulatory requirement to hold facilities financially accountable for prioritizing the support of direct care staff through revenue spent. The requirement applies to all nursing facilities participating in the Massachusetts Medicaid (“MassHealth”) program. The DCC-Q requirement was a component of the [Nursing Facility Accountability and Supports Package 2.0](#), a larger package of long-term reforms to promote a higher standard of care and improved infection control.
- The DCC-Q requires facilities to spend at least 75% of total facility revenue on direct care. For every 1% below the 75% DCC-Q threshold, a 0.5% downward adjustment—up to a maximum of 5%—will be applied to the nursing and operating components of the facility’s per diem rate effective the following rate year.
- In the most recent reporting period, October 1, 2020 – June 30, 2021, nursing facility expenses and revenues were *atypical* as a result of the COVID-19 pandemic. This was primarily due to significant fluctuations in facilities’ expenses and revenues resulting primarily from, DPH-imposed and self-imposed admission freezes, a shortage of certain direct care staff, large scale discharges of facility residents and other factors. In addition, facilities received revenue from federal and state sources to support nursing facility residents and staff. Not all of the revenue was anticipated at the time DCC-Q requirements were drafted, and not all of the revenue had been fully spent by facilities by the time they had to submit the DCC-Q data to EOHHS. Given these multiple, atypical factors related to the COVID-19 pandemic, MassHealth has delayed the implementation of the downward adjustment penalties until Rate Year 2023 (October 1, 2022 – September 30, 2023). Such penalties will reflect nursing facilities’ DCC-Q calculations for Rate Year 2022 (October 1, 2021 – September 30, 2022).
- The following report reflects this amendment, with “unadjusted” referring to DCC-Q calculations inclusive of all revenue, including federal and state COVID-19 relief funds as well as standard revenue sources (e.g., Medicaid), and “adjusted” referring to DCC-Q calculations with federal and state COVID-19 relief funds removed.

Number of Facilities Below, At, or Above DCC-Q Threshold

DCC-Q (%)	Unadjusted		Adjusted	
Above 100	28	8%	60	17%
75-100	206	58%	245	69%
Below 75	123	34%	52	15%
