
DCMS Tip Sheet

Volume 1 Edition 2

Greetings from DCAMM Contractor Certification!

There are more questions being asked regarding our new online application and we will use this platform to share information about the system and the Certification Office.

In the application what is the difference between a Mandatory Document and a Required Document?

A Mandatory Document must be provided by all applicants for every application. A Required Document is only necessary for some applicants. Required Documents include things like licenses for the Categories of Work where a license is required.

In the Required Document section, what is the General Performance and Compliance Supplement Documentation?

The General Performance and Compliance Supplement Documentation is required for those contractors who typed in "See attached" to any of the legal/general performance questions. This is for contractors who elected to upload a prepared document rather than type the response directly into the application.

Stay tuned for the next installment...

If you have any questions do not hesitate to contact Certification at 857-204-1305 or certification.DCAMM@mass.gov.
