DCMS Tip Sheet

Greetings from DCAMM Contractor Certification!

This Tip Sheet addresses license requirements for DCAMM Contractor Certification.

Licenses

There are eight (8) Categories of Work that require licenses in order to qualify for DCAMM Contractor Certification:

- Alarm Systems (S-License)
- **Electrical**
- **Plumbing**
- Asbestos Removal
- Electronic Security Systems (S-License)
- Fire Protection Sprinkler Systems
- Deleading
- **Elevators**

Three of these eight (8) Categories require two types of licenses for corporations seeking certification. Electrical, Plumbing and Elevators require a business license (Electrical Corp, Plumbing Corp, Elevator Corp) as well as an individual license for someone on staff doing the work in the field. For sole proprietors, a business license is not required. Sole proprietors seeking certification in either Electrical or Plumbing must possess a current Master Electrician license or a current Master Plumber license. Sole proprietors seeking certification in the Category of Elevators must have a current Elevator Mechanic license.

If you have any questions do not hesitate to contact Certification at 857-204-1305 or certification.DCAMM@mass.gov.
