

Dear Friends,

Dear Friends,
On the evenings of Wednesday, October 14, and Thursday, October 15, the Department of Conservation and Recreation (DCR) held virtual public meetings to present, and obtain public input on, a proposal to expand the use of parking collections to include curbside meters along certain parkways and parking areas in the Metropolitan Boston area.

Links to the presentation and to the recordings of both meetings can be found on DCR's website at <https://www.mass.gov/event/massachusetts-department-of-conservation-and-recreation-curbside-parking-meter-proposal-2020> . As we did at the meetings, DCR encourages the public to share feedback on the curbside parking meter proposal either online at www.mass.gov/dcr/public-comment, or by emailing Jennifer.norwood@mass.gov. Please note that the content of comments you submit to DCR, along with your name, town, and zip code, will be posted on DCR's website. Providing additional contact information when commenting, notably email address, is optional, and will only be used for outreach on future updates on the subject project or property.

A number of questions were raised during the virtual public meetings that DCR will be addressing through a "Frequently Asked Questions" document, to be posted in the next few days under the presentation made at the meetings found through the link cited above.

If you have agency-related questions or concerns or would like to be added to an email list to receive DCR general or project-specific announcements, please email Mass.Parks@mass.gov or call 617-626-4973.

We appreciate your interest and input.

DCR Updates
