

Dear Friends,

As you know, on the evenings of Wednesday, October 14, and Thursday, October 15, the Department of Conservation and Recreation recently held public meetings to present, and obtain public input on, a proposal to expand the use of parking collections to include curbside meters along certain parkways and parking areas in the Metropolitan Boston area.

A number of questions were raised at the meetings, which we have addressed through a "Frequently Asked Questions" document, posted on DCR's website, along with the presentation shared, at <https://www.mass.gov/event/massachusetts-department-of-conservation-and-recreation-curbside-parking-meter-proposal-2020> . In addition, as requested, the Harvard Kennedy School revenue study has been posted, as well.

DCR encourages the public to share comments on the parking meter proposal either online at <http://www.mass.gov/dcr/public-comment>, or by emailing Jennifer.Norwood@mass.gov. **The deadline for receipt of comments has been extended to Monday, November 2.** Please note that the content of comments you submit to DCR, along with your name, town, and zip code, will be posted on DCR's website. Providing additional contact information, notably email address, is optional, and will only be used for outreach on future updates on the subject project or property.

We hope that the information in these documents will be helpful to you. If you have agency-related questions or concerns or would like to be added to a email list in order to receive DCR general or project-specific announcements, please email Mass.Parks@mass.gov or call 617-626-74973. Thank you.

DCR Updates
