DCR Recreational Advisory: Charlesbank Playground

WHAT: On Tuesday, December 3, 2024, the Department of Conservation and Recreation (DCR) will close the Charlesbank Playground on the Esplanade in the City of Boston. DCR will replace the existing playground with the new Gronk Playground which is expected to open in summer 2025. The Gronk Playground is a partnership between the Gronk Nation Youth Foundation, the Esplanade Association and DCR to create an accessible play space featuring new and exciting elements for children of all ages. While the playground is under construction visitors can use nearby Paul Revere Park Playground on North Washington Street and the Charles River Esplanade Playground as alternatives.

WHERE: Charlesbank Playground on the Esplanade in the City of Boston

WHEN: Tuesday, December 3, 2024 – summer 2025
