Subject: **MOSES Version 40.1 will be released on Wednesday, June 22, 2022**

Purpose: To notify Local MassHire Workforce Boards, MassHire Career Center Operators and other local workforce partners that MOSES 40.1 is scheduled for release to the desktops on Wednesday, June 22, 2022.

Background: MOSES will be shut down at 4:00 p.m. on Tuesday, June 21, 2022, for the updates and the maintenance of the MOSES software and MOSES Applications (JobQuest / TrainingPro).

This will **NOT** interrupt other IT services or functions to the offices, only MOSES will be taken off-line. Email, unemployment assistance systems and internet services will still be available.

Please plan on completing and saving your MOSES data entry by 4:00 p.m. on Tuesday, June 21, 2022, and then log off MOSES. This will ensure that when you log into MOSES on your next workday, you will have the new version of MOSES available, and any work done prior will be saved.

The standard procedure to access the new MOSES build will be followed for those staff that log on to Amazon WorkSpaces (AWS) for their MOSES access. You must open WorkDocs Drive before opening MOSES.

The build is planned to be **released Wednesday, June 22, 2022** to desktops.

Action

Requested: Local MassHire Workforce Boards, MassHire Career Center Operators, and workforce partners should ensure that their staff are aware of the MOSES shutdown on Tuesday, June 21, 2022, and that Career Centers and other MOSES users plan their workloads accordingly in preparation for MOSES to shut down at 4:00 p.m.

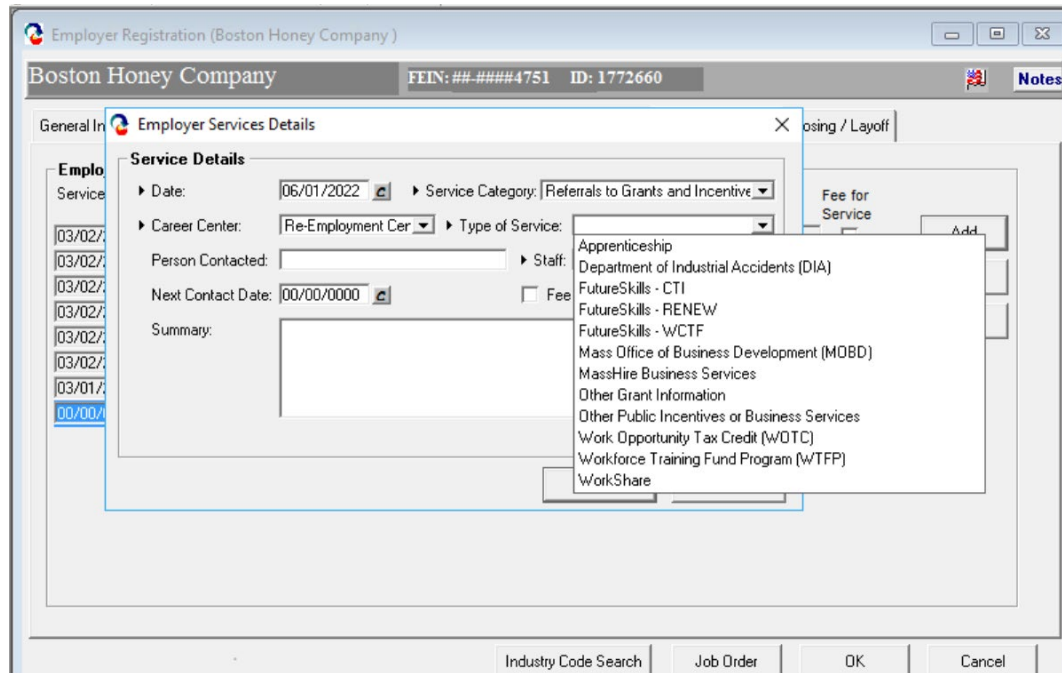

In addition, MassHire Local Workforce Boards, MassHire Career Center Operators, and workforce partners should ensure that Amazon Workspace staff on Wednesday, June 22, 2022, into their Work Docs account before logging into MOSES.
