**Background:** The Ticket to Work program provides individuals with disabilities receiving disability benefits opportunities to return to work, stay employed and increase earnings. As a result, beneficiaries with disabilities may reduce their dependency on public benefits and become more economically self-sufficient. This webinar focuses on how Ticket to Work operates and the different partnership models now available consistent with the goals of the Workforce Innovation and Opportunity Act (WIOA).

This webinar will provide participants both a basic understanding and insights about new developments regarding the streamlined processes between public workforce entities and the Ticket to Work program.
