**Subject:** **BLS Occupational Employment Statistics Data – Webinar**

---

**Purpose:** To notify MassHire Workforce Boards, MassHire Career Center Operators and other local workforce partners of the [BLS Occupational Employment Statistics Data – New Employment and Wage Data](#) webinar offered through WorkforceGPS scheduled for Friday, April 24<sup>th</sup> from 11:00 – 12:30.

**Background:** The annual Occupational Employment Statistics (OES) are scheduled to be published March 31, 2020. These data reflect employment and wage data as of May 2019. The OES program produces employment and wage estimates annually for over 800 occupations. These estimates are available for the nation as a whole, for individual states, and for metropolitan and non-metropolitan areas; national occupational estimates for specific industries are also available.

This webinar will provide information regarding the development of these estimates, explanation of the data products created by OES, highlights from the newly released data, and examples of data from state and local areas. There will be time available for questions.
