

Project Advisory

Bridge Replacement and Widening Bowker Overpass over I-90/ MBTA/ Ipswich Street

Abutter Advisory: Concrete Demolition Continues

What is Happening?

Over the next three weeks, concrete demolition is scheduled to continue below the overpass from I-90 and at the Boylston Street intersection. No operations will take place Thursday, December 25 and Thursday, January 1. Weather and unexpected circumstances make all construction subject to change, but we will do our best to keep you updated.

How will you be impacted?

Demolition operations will take place from 7:00 a.m. to 3:30 p.m. each day. Abutters can expect noise and vibration impacts as work takes place. Monitoring systems and preventative measures are in place throughout construction for noise, vibration, and dust. Monitoring systems notify the Contractor if thresholds are exceeded due to construction activities.

How can I find more information?

Stay up-to-date and informed by following the [@MassDOT](#) X, formerly known as Twitter, and [Mass 511](#) for real-time updates, visiting the project website, or emailing us with any questions.
