DISCUSSION TOPICS:

Update on Status of State Actions

Yashira reviewed the performance sections of the PowerPoint that were revised based on feedback from the Governor's staff. The group was assured that appropriate caveats had been conveyed during the presentations and that a final recommendation had not been made by the workgroup for non-Federal measures. It was clear that the expectation was for the group to propose state measures. A presentation on WIOA implementation was scheduled with the Governor for December 8.

Legislation for the State Workforce Board was signed by the Governor on December 2, 2015.

Deliverables and Timelines

A chart presenting a broad timeline for development of Integrated Workforce Reporting was presented and discussed. The group will continue to refine timelines related to performance reporting.

Proposed State Performance Metrics

The group discussed at length a table presenting proposed state measures for job seekers that could be derived from data developed for the quarterly federal reports. These measures would provide outcomes on specific populations. The group tabled discussion of business measures until members from the business focused workgroups could participate in late December or January.

Status on Benchmark Data

MRC – data exchange underway
MCB – waiting on completion of MOU
ACLS – MOU not started
