(b) This Renewal License is subject to the terms and conditions contained in Chapter 166A of the laws of Massachusetts, as amended; the Cable Act, the regulations of the FCC; and all State and Federal statutes and regulations and all Town by-laws of general application and all lawful Town regulations, as all may be amended.

In exercising rights pursuant to this Renewal License, the Licensee shall not endanger the lives of Persons, or unreasonably interfere with any installations of the Town, any public utility serving the Town or any other Persons permitted to use Public Ways and places.

(d) Grant of this Renewal License does not establish priority for use over other present or future permit holders or the Town's own use of Public Ways and places. Disputes between the Licensee and other parties regarding use of Public Ways and places shall be resolved in accordance with any applicable regulations of the Town and any special state laws or lawful Town by-laws and/or regulations enacted hereafter.

Section 2.2 - TERM OF RENEWAL LICENSE

The term of this Renewal License shall commence on April 8, 2005, and shall expire on April 7, 2015, unless sooner terminated as provided herein or surrendered.

Section 2.3 - NON-EXCLUSIVITY OF RENEWAL LICENSE

(a) This Renewal License shall not affect the right of the Issuing Authority to grant to any other Person a license or right to occupy or use the Public Ways or streets, or portions thereof, for the construction, upgrade, installation, operation or maintenance of a Cable Television System within the Town of Deerfield; or the right of the Issuing Authority to permit the use of the Public Ways and places of the Town for any purpose(s) whatsoever. The Licensee hereby acknowledges the Issuing Authority's right to make such grants and permit such uses.

(b) The grant of any additional cable television license(s) shall not be on terms more favorable or less burdensome than those contained in this Renewal License. The grant of any additional cable television license(s) shall be at the sole discretion of the Issuing Authority.

(i) In the event that the Licensee believes that any additional cable television license(s) have been granted on terms and conditions more favorable or less burdensome than those contained in this Renewal License, the Licensee may request, in writing, that the Issuing Authority convene a public hearing on that issue. Along with said written request, the Licensee shall provide the Issuing Authority with written reasons for its belief. At the public hearing, the Issuing Authority shall afford the Licensee an opportunity to demonstrate that any such additional cable television license(s) are on terms more favorable or less burdensome than those contained in this Renewal License. The Licensee shall provide the Issuing Authority with such financial or other relevant information as is requested.

(c) The issuance of additional license(s) shall be subject to applicable federal law(s), and M.G.L. Chapter 166A and applicable regulations promulgated thereunder.

Section 2.4 - POLICE AND REGULATORY POWERS

(a) By executing this Renewal License, the Licensee acknowledges that its rights are subject to the powers of the Town to adopt and enforce general by-laws necessary to the safety and welfare of the public. The Licensee shall comply with all applicable Department of Public Works regulations, and any lawful by-laws and/or regulations enacted and/or amended by the Town. Any conflict between the terms of this Renewal License and any present or future lawful exercise of the Town's police and regulatory powers shall be resolved in a court of appropriate jurisdiction.

(b) The Issuing Authority shall notify the Licensee of any proposed changes in by-laws and/or regulations pertaining to any material aspect of the Cable System operation hereunder, and shall provide copies of such proposed by-laws to the Licensee upon the Licensee's written request.

Section 2.5 - REMOVAL OR ABANDONMENT

Upon termination of the Renewal License, or of any renewal thereof by passage of time or otherwise, unless: (1) the Licensee has its license renewed for another term or (2) the ownership of the Cable Television System is transferred to another Person with written approval by the Issuing Authority pursuant to applicable law, the Licensee shall remove all of its supporting structures, poles, transmission and distribution systems, and other appurtenances from the Public Ways and shall restore the areas to their original condition as is reasonably possible as soon as practicable. If such removal is not complete within six (6) months of such termination, the Issuing Authority may deem any property not removed as having been abandoned.

Section 2.6 - TRANSFER OF THE RENEWAL LICENSE

(a) Subject to applicable law, neither the Renewal License, nor control thereof, shall be transferred, assigned or disposed of in any manner, voluntarily or involuntarily, directly or indirectly, or by transfer of control of any Person, company and/or other entity holding such Renewal License to any other Person, company and/or other entity, without the prior written consent of the Issuing Authority, which consent shall not be arbitrarily or unreasonably withheld or delayed. Such consent shall be given only after a public hearing upon a written application therefore on forms as may be prescribed by the Cable Division and/or the FCC. An application for consent to a transfer or assignment, if required, shall be signed by the Licensee and by the proposed transferee or assignee or by their representatives, evidence of whose authority shall be submitted with the application.

(b) Pursuant to 207 CMR 4.04, as it may be amended, and applicable federal law in considering a request to transfer control of the Renewal License, the Issuing Authority shall consider such factors as the transferee's financial capability, management experience, technical expertise, legal ability to operate the Cable System under the existing license and may consider any other criteria allowable under federal and state law and regulation.

(c) The consent or approval of the Issuing Authority to any assignment or transfer of the Renewal License granted to the Licensee shall not constitute a waiver or release of the rights of the Town in and to the streets and Public Ways or any other rights of the Town under the Renewal License, and any such transfer shall, by its terms, be expressly subordinate to the terms and conditions of the Renewal License.

(d) Subject to applicable law, the Licensee shall submit to the Issuing Authority an original and one (1) copy, unless otherwise required, of the application and FCC Form 394 requesting such transfer or assignment consent.

(e) The consent of the Issuing Authority shall be given only after a public hearing to consider the written application for transfer. Unless otherwise allowed by applicable law(s), the Issuing Authority shall make a decision on said written application within one hundred twenty (120) days of receipt of said application. After 120 days, the application shall be deemed approved, unless said 120 day period is extended pursuant to applicable law.

(b) If the Issuing Authority denies its consent to any such action and a transfer has nevertheless been effected, the Issuing Authority may revoke and terminate the Renewal License, unless such transfer is otherwise allowable by applicable law.

(c) The grant or waiver of any one or more of such consents shall not render unnecessary any subsequent consent or consents, nor shall the grant of any such consent constitute a waiver of any other rights of the Town.

ARTICLE 3

CABLE SYSTEM DESIGN

Section 3.1 – SUBSCRIBER NETWORK

(a) The Licensee shall continue to own, operate, maintain and make available to all residents of the Town, subject to Sections 4.1 and 4.2 of this Renewal License, a Subscriber Network of at least 750 MHZ. Said Cable System shall be fully capable of carrying a minimum of seventy-eight (78) video channels in the downstream direction.

(b) The Licensee shall install and maintain, throughout the term of the Renewal License, standby power at its Headend. Such standby power shall provide continuous capability, contingent upon the availability of fuel necessary to operate the standby generators and shall become automatically activated upon the failure of the Licensee's normal power supply.

(c) The Licensee shall transmit all of its Signals to Deerfield Subscribers in stereo, provided that such Signals are furnished to the Licensee in stereo.

Section 3.2 - PARENTAL CONTROL CAPABILITY

The Licensee shall comply with all requirements of federal law(s) governing Subscribers' capability to control the reception of any channels being received on their television sets.

Section 3.3 - EMERGENCY ALERT OVERRIDE CAPACITY

The Subscriber Network shall comply with the FCC's Emergency Alert System ("EAS") regulations.

Section 3.4 - SYSTEM TECHNICAL SPECIFICATIONS

The Cable Television System shall conform to the FCC technical specifications.

Section 3.5 - CONVERTER BOX/REMOTE

Pursuant to applicable law, upon availability, and if economically feasible, the Licensee shall make available two-way capable converter boxes to those Subscribers purchasing interactive services. The Licensee shall allow Subscribers to purchase remote control devices which are compatible with the converter installed by the Licensee and allow use of remotes. The Licensee takes no responsibility for changes in its equipment that might make inoperable the remote control devices acquired by Subscribers.

ARTICLE 4

CABLE SYSTEM LOCATION AND OPERATIONAL STANDARDS

Section 4.1 – AREA TO BE SERVED

(a) The Licensee shall make its Cable Service available to all residents of the Town, within fifteen (15) days of a request therefor, subject to paragraphs (b) and (c), and Section 4.2 and Section 4.3 below and provided that the Licensee is able to obtain any necessary easements and/or permits.

(b) Installation charges shall be non-discriminatory. A standard aerial installation charge shall be established by the Licensee which shall apply to any residence located not more than two hundred feet (200') from the existing aerial Trunk and Distribution System and additions thereto. The Licensee may charge residents located more than two hundred (200) aerial feet from the existing aerial Trunk and Distribution System, and additions thereto, time and materials charges plus a reasonable return on investment in addition to the Standard Installation charge.

(c) Underground installation shall be considered standard and therefore subject to standard underground installation rates within two hundred feet (200') of the existing Cable System plant, provided no Trunk and Distribution System construction is required and sub-surface is dirt or similar soft surface. Underground installations within two hundred feet (200') of the existing Cable System plant requiring Trunk and Distribution System construction or involving hard surface or requiring boring through rock or under sidewalks, streets, or flower bedding are considered non-standard installations and shall be provided at a rate based upon actual costs and a reasonable return on investment in addition to the standard installation charge.

Section 4.2 - LINE EXTENSION POLICY

(a) Consistent with Section 4.1(b) above, the Cable Television System shall be extended automatically, at the Licensee's sole cost and expense, to any and all areas of the Town's Public Ways containing fifteen (15) dwelling units or more per aerial mile or thirty-five (35) dwelling units or more per underground mile both measured from the Licensee's Trunk and Distribution System or fractional proportion thereof. The Licensee shall promptly apply for all necessary permits. Said service shall be made available and fully activated to requesting dwelling units no later than sixty (60) days after all necessary permits are obtained, subject to Force Majeure (including the performance of make ready).

(b) In new subdivisions where the utilities are underground, the density is twenty (20) homes per mile or greater, and is contiguous to the Licensee's Trunk and Distribution System, the Licensee shall construct its cable lines at no additional cost to Subscribers provided that the Licensee has at least ninety (90) days prior notice concerning the opening of trenching or the installation of conduit

for the location of utilities, and provided further that said trenching or installation of conduit is done at the cost of the developer or another third party other than the Licensee. In the event that said trenching and the installation of conduit is at the cost of the Licensee, or that the Licensee receives insufficient notice, the density requirement shall revert to the density for underground areas described in Section 4.2(a) above.

(c) The Cable Television System shall be further extended to all areas in the Town that do not meet the requirements of Section 4.2(a) or (b) above upon the request of dwelling unit owners in such areas and based upon the following cost calculation: The cost of wiring such areas shall be calculated by taking the capital cost of extending such service divided by the number of dwelling units in such area minus the costs of extending service to dwelling units in an area along the Public Ways that meets the required number of dwelling units per aerial or underground mile of cable plant and/or fractional proportion thereof density requirement specified in subsection (a) above. The resulting cost shall equal the per dwelling unit contribution relating to line extension of cable service in that particular area of the Town, or

$$\frac{C}{LE} - \frac{CA}{P} = SC$$

- * C equals the cost of construction of new plant from existing Cable System plant;
- * LE equals the number of dwelling units requesting service in the line extension area and who subsequently pay a contribution in aid;
- * CA equals the average cost of construction per mile in the primary service area;
- * P equals the required number of dwelling units per mile; and
- * SC equals the per dwelling unit contribution in aid of construction in the line extension area.

(d) The Issuing Authority shall make its best efforts to provide the Licensee with written notice of the issuance of building permits for planned housing developments in the Town requiring the undergrounding of Cable System plant.

(e) Subscribers on Pine Street shall receive all Deerfield PEG Access Channels to the extent said PEG Access Channels are available to Whately subscribers.

Section 4.3 - LINE EXTENSION PROCEDURES

Any dwelling unit owner located in an area of the Town without Cable Television Service may request such service from the Licensee. In areas meeting the requirements of Section 4.2 (a) and (b) above, the Licensee shall extend service to the area promptly, but in no case later than sixty (60) days after all necessary permits are obtained, subject to Force Majeure (including the performance of make ready). The Licensee shall apply to the Board of Selectmen for permits, if necessary, promptly. In those areas with less than the required number of dwelling units per mile as provided in Sections 4.2(a) and 4.2(b) above, the Licensee shall, within thirty (30) days following a request for service, conduct a survey to determine the number of homes in the immediate area and shall inform each participating dwelling unit of the contribution in aid of construction (see Section 4.2 (c) above) that will be charged. The Licensee shall apply for pole attachment agreements within sixty (60) days

of receiving the contribution in aid of construction from all subscribing dwelling units. Cable Television Service(s) shall be made available and fully activated to all requesting dwelling units who made a contribution in aid of construction within sixty (60) days of receipt of pole attachment agreements by the Licensee, subject to Force Majeure (including the performance of make ready).

Section 4.4 - LOCATION OF THE CABLE TELEVISION SYSTEM

The Licensee shall own, install, operate and maintain the Cable Television System within the Town of Deerfield. The erection and location of all poles, towers and other obstructions shall be in accordance with all applicable and legally enforceable state and local laws and regulations.

Section 4.5 - UNDERGROUND FACILITIES

(a) In the areas of the Town having telephone lines and electric utility lines underground, whether required by law or not, all of the Licensee's lines, cables and wires shall be underground. At such time as these facilities are placed underground by the telephone and electric utility companies at their sole cost and expense or are required to be placed underground by the Town at the sole cost and expense of such telephone and electric utility companies, the Licensee shall likewise place its facilities underground at its sole cost and expense.

(b) Underground cable lines shall be placed beneath the pavement subgrade in compliance with applicable Town by-laws, rules, regulations and/or standards. It is the policy of the Town that existing poles for electric and communication purposes be utilized wherever possible and that underground installation is preferable to the placement of additional poles.

(c) The Town shall make best efforts to notify the Licensee of any underground grant-of-location requests submitted to the Town by a utility.

Section 4.6 - TREE TRIMMING

In installing, operating and maintaining equipment, cable and wires, the Licensee shall avoid all unnecessary damage and injury to trees, structures, and improvements in and along Public Ways. The Licensee shall be subject to M.G.L. Chapter 87 and shall comply with all rules established by the Issuing Authority and/or its designee(s) during the term of this Renewal License. All tree and/or root trimming and/or pruning provided for herein shall be done pursuant to regulations of the Town.

Whenever the Licensee takes up or disturbs any pavement, sidewalk or other improvement of any Public Way or public place, the same shall be replaced and the surface restored in as good condition as before entry as soon as practicable. If the Licensee fails to make such restoration within a reasonable time, the Issuing Authority may fix a reasonable time for such restoration and repairs and shall notify the Licensee in writing of the restoration and repairs required and the time fixed for performance thereof. Upon failure of the Licensee to comply with the specified time period, the Issuing Authority may cause proper restoration and repairs to be made and the reasonable expense of such work shall be paid by the Licensee upon demand by the Issuing Authority.

Section 4.8 - TEMPORARY RELOCATION

The Licensee shall temporarily raise or lower its wires or other equipment upon the reasonable request of any Person holding a building moving permit issued by the Town. The expense of such raising or lowering shall be paid by the Licensee, unless otherwise required or permitted by applicable law. The Licensee shall be given reasonable notice necessary to maintain continuity of service.

Section 4.9 - DISCONNECTION AND RELOCATION

The Licensee shall, upon reasonable advance notice, without charge to the Town, protect, support, temporarily disconnect, relocate in the same street or other Public Way, or remove from any street or any other Public Ways, any of its property as required by the Issuing Authority or its designee(s) by reason of traffic conditions, public safety, street construction, change or establishment of street grade, or the construction of any public improvement or structure by any Town department acting in a governmental capacity.

Section 4.10 - SAFETY STANDARDS

The Licensee shall construct, install, operate, maintain and remove the Cable Television System in conformance with Occupational Safety and Health Administration regulations, the Massachusetts Electrical Code, the National Electrical Code, the National Electrical Safety Code, the rules and regulations of the Cable Division and the FCC, all State laws and regulations, and local lawful by-laws and lawful regulations, and all lawful land use restrictions as the same exist or may be amended hereafter.

Section 4.11 - PEDESTALS

In any cases in which Pedestals housing active and passive devices are to be utilized, in Town Public Ways or within the Town public lay-out, such equipment must be installed in accordance with applicable Town rules, regulations and/or by-laws. Section 4.13 - RIGHT TO INSPECTION OF CONSTRUCTION

The Issuing Authority and/or its designee(s) shall have the right to inspect all construction and installation work performed subject to the provisions of this Renewal License in order to ensure compliance with the terms and conditions of this Renewal License and all other applicable law. Any such inspection shall not interfere with the Licensee's operations, except in emergency situations. The Licensee shall have the right to have its representative present during any such inspection.

Section 4.14 - CABLE SYSTEM MAPS

Upon written request, the Licensee shall file with the Issuing Authority strand maps of the Cable System plant installed. Upon written request said strand maps shall also be provided in electronic format if they exist in said electronic format. The Licensee shall not be required to provide a particular type of electronic format which is different from the electronic format the Licensee maintains. If changes are made in the Cable System, the Licensee shall notify the Issuing Authority and, upon written request, the Licensee shall file with the Issuing Authority updated strand maps annually, not later than sixty (60) days after a written request.

Section 4.15 - SERVICE INTERRUPTION

Except where there exists an emergency situation necessitating a more expeditious procedure, the Licensee may interrupt Service for the purpose of non-routine repairing, constructing or testing the Cable Television System only during periods of minimum use and, when practical, only after a minimum of forty-eight (48) hours notice to all affected Subscribers.

Section 4.16 - COMMERCIAL ESTABLISHMENTS

The Licensee shall make Cable Service(s) available to any commercial establishments in the Town provided that said establishment(s) agrees to pay for installation and monthly subscription costs as established by the Licensee.

Licensee and each Affiliated Person. The Licensee herein agrees that no such taxes, fees or charges of general applicability shall be used as offsets or credits against the License Fee, except as permitted by applicable law.

(b) In accordance with Section 622(h) of the Cable Act, nothing in the Cable Act or this Renewal License shall be construed to limit the authority of the Issuing Authority to impose a tax, fee or other assessment of any kind on any Person (other than the Licensee) with respect to Cable Service provided by such Person over the Cable System for which charges are assessed to Subscribers but not received by the Licensee. If, after such audit and recomputation, an additional fee is owed to the Town, such fee shall be paid within thirty (30) days after such audit and recomputation. The interest on such additional fee shall be charged from the due date at the rate of two percent (2%) above the Prime

(a) A cable franchise authority may enforce the customer service standards set forth in paragraph (c) of this section against cable operators. The franchise authority must provide affected cable operators ninety (90) days written notice of its intent to enforce the standards.

(b) Nothing in this rule should be construed to prevent or prohibit:

(1) A franchising authority and a cable operator from agreeing to customer service requirements that exceed the standards set forth in paragraph (c) of this section;

(2) A franchising authority from enforcing, through the end of the franchise term, pre-existing customer service requirements that exceed the standards set forth in paragraph (c) of this section and are contained in current franchise agreements;

(3) Any State or any franchising authority from enacting or enforcing any consumer protection law, to the extent not specifically preempted herein; or

(4) The establishment or enforcement of any State or municipal law or regulation concerning customer service that imposes customer service requirements that exceed, or address matters not addressed by the standards set forth in paragraph (c) of this section.

(c) Effective July 1, 1993, a cable operator shall be subject to the following customer service standards:

(1) Cable system office hours and telephone availability--

(i) The cable operator will maintain a local, toll-free or collect call telephone access line which will be available to its subscribers 24 hours a day, seven days a week.

(A) Trained company representatives will be available to respond to customer telephone inquiries during normal business hours.

(B) After normal business hours, the access line may be answered by a service or an automated response system, including an answering machine. Inquiries received after normal business hours must be responded to by a trained company representative on the next business day.

(ii) Under normal operating conditions, telephone answer time by a customer representative, including wait time, shall not exceed thirty (30) seconds when the connection is made. If the call needs to be transferred, transfer time shall not exceed thirty (30) seconds. These standards shall be met no less than ninety (90) percent of the time under normal operating conditions, measured on a quarterly basis.

(iii) The operator will not be required to acquire equipment or perform surveys to measure compliance with the telephone answering standards above unless an historical record of complaints indicates a clear failure to comply.

(iv) Under normal operating conditions, the customer will receive a busy signal less than three (3) percent of the time.

(v) Customer service center and bill payment locations will be open at least during normal business hours and will be conveniently located.

(2) Installations, outages and service calls. Under normal operating conditions, each of the following four standards will be met no less than ninety-five (95) percent of the time measured on a quarterly basis:

(i) Standard installations will be performed within seven (7) business days after an order has been placed. "Standard" installations are those that are located up to 125 feet from the existing distribution system.

(ii) Excluding conditions beyond the control of the operator, the cable operator will begin working on "service interruptions" promptly and in no event later than 24 hours after the interruption becomes Known. The cable operator must begin actions to correct other service problems the next business day after notification of the service problem.

(The operator may schedule service calls and other installation activities outside of normal business hours for the express convenience of the customer.)

(iv) An operator may not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment.

(v) If a cable operator representative is running late for an appointment with a customer and will not be able to keep the appointment as scheduled, the customer will be contacted. The appointment will be rescheduled, as necessary, at a time that is convenient for the customer.

(3) Communications between cable operators and cable subscribers--

Such notice shall include practices relating to the frequency and timing of bills, payment requirements necessary to avoid account delinquency, billing dispute resolution procedures and late payment penalties.
- (2) A copy of the cable television operator's billing practices notice, work order and sample subscriber bill shall be filed by March 15th of each year with the Commission, the issuing authority, and the company's local office, where they shall be available for public inspection. If an operator amends its billing practices notice, work order or subscriber bill after submitting the annual filing, it shall file copies of the amendments with the Commission, the issuing authority and the company's local office.
- (3) At least 30 days prior to implementing a change of one of its billing practices, the cable television operator shall notify in writing the Commission, the issuing authority and all affected subscribers of the change and include a description of the changed practice.
- (4) Statements about billing practices in work orders, marketing, materials and other documents shall be consistent with the billing practices notice.

10.02: Services, Rates and Charges Notice

- (1) The cable television operator shall give notice of its services, rates and charges to potential subscribers before a subscription agreement is reached.
- (2) At least 30 days prior to implementing an increase in one of its rates or charges or a substantial change in the number or type of programming services, the operator shall notify, in writing, the Commission, the issuing authority and all affected subscribers of the change and include a description of the increased rate or charge. The notice shall list the old and new rate or charge and, if applicable, the old and new programming services provided.
- (3) Every cable television operator shall fully disclose in writing all of its programming services and rates, upon request from a subscriber.
- (4) Every cable television operator shall fully disclose in writing all of its charges for installation, disconnection, downgrades and upgrades, reconnection, additional outlets, and rental, purchase and/or replacement due to damage or theft of equipment or devices used in relation to cable services, upon request from a subscriber.
- (5) Every cable television operator shall provide written notice of the charge, if any, for service visits and under what circumstances such charge will be imposed, upon request from a subscriber.
- (6) A copy of the cable operator's programming services, rates and charges shall be filed by March 15th of each year with the Commission, the issuing authority and the company's local office where it shall be made available for public inspection. If an operator amends its notice after the annual filing, it shall file a copy of the amendment with the Commission, the issuing authority and the company's local office.
- (7) A cable operator shall not charge a subscriber for any service or equipment that the subscriber has not affirmatively requested by name. This provision, however, shall not preclude the addition or deletion of a specific program from a service offering, the addition or deletion of specific channels from an existing tier of service, or the restructuring or division of existing tiers of service that do not result in a fundamental change in the nature of an existing service or tier of service.

10.03: Form of Bill

- (1) The bill shall contain the following information in clear, concise and understandable language and format:
 - (a) the name, local address and telephone number of the cable television operator. The telephone number shall be displayed in a conspicuous location on the bill and shall be accompanied by a statement that the subscriber may call this number with any questions or complaints about the bill or to obtain a description of the subscriber's rights under 207 CMR 10.07 in the event of a billing dispute;

- (a) The amount of the total bill assessed as a franchise fee and the identity of the franchising authority to whom the fee is paid;
 - (b) The amount of the total bill assessed to satisfy any requirements imposed on the cable operator by the franchise agreement to support public, educational, or governmental channels or the use of such channels;
 - (c) The amount of any other fee, tax, assessment, or charge of any kind imposed by any governmental authority on the transaction between the operator and the subscriber. In order for a governmental fee or assessment to be separately identified under 207 CMR 10.03, it must be directly imposed by a governmental body on a transaction between a subscriber and an operator.
- (3) All itemized costs shall be direct and verifiable. Each cable operator shall maintain a document in its public file which shall be available upon request, that provides the accounting justification for all itemized costs appearing on the bill.

10.04: Advance Billing and Issuance of Bill

- (3) The following provisions shall apply to the imposition of late charges on subscribers: (a) A cable television operator shall not impose a late charge on a subscriber unless a subscriber is delinquent, the operator has given the subscriber a written late charge notice in a clear and conspicuous manner, and the subscriber has been given at least eight business days from the date of delinquency to pay the balance due.
- (b) A charge of not more than 5 percent of the balance due may be imposed as a one-time late charge.
- (c) No late charge may be assessed on the amount of a bill in dispute.
- (4) A cable television operator shall not terminate a subscriber's service unless the subscriber is delinquent, the cable operator has given the subscriber a separate written notice of termination in a clear and conspicuous manner, and the subscriber has been given at least eight business days from the mailing of the notice of termination to pay the balance due. A notice of termination shall not be mailed to subscribers until after the date of delinquency.
- (5) A cable television operator shall not assess a late charge on a bill or discontinue a subscriber's cable television service solely because of the nonpayment of the disputed portion of a bill during the period established by 207 CMR 10.07 for registration of a complaint with the operator or during the process of a dispute resolution mechanism recognized under 207 CMR 10.07.
- (6) Any charge for returned checks shall be reasonably related to the costs incurred by the cable company in processing such checks.

10.06: Charges for Disconnection or Downgrading of Service

- (1) A cable television operator may impose a charge reasonably related to the cost incurred for a downgrade of service, except that no such charge may be imposed when:
 - (a) A subscriber requests total disconnection from cable service; or
 - (b) A subscriber requests the downgrade within the 30 day period following the notice of a rate increase or a substantial change in the number or type of programming services relative to the service(s) in question.

(2) If a subscriber requests disconnection from cable television service prior to the effective date of an increase in rates, the subscriber shall not be charged the increased rate if the cable television operator fails to disconnect service prior to the effective date. Any subscriber who has paid in advance for the next billing period and who requests disconnection from service shall receive a prorated refund of any amounts paid in advance.

10.07: Billing Disputes

(1) Every cable television operator shall establish procedures for prompt investigation of any billing dispute registered by a subscriber. The procedure shall provide at least 30 days from the due date of the bill for the subscriber to register a complaint. The cable television operator shall notify the subscriber of the result of its investigation and give an explanation for its decision within 30 working days of receipt of the complaint.

(2) The subscriber shall forfeit any rights under 207 CMR 10.07 if he or she fails to pay the undisputed balance within 30 days.

(3) Any subscriber in disagreement with the results of the cable television operator's investigation shall promptly inquire about and take advantage of any complaint resolution mechanism, formal or informal, available under the license or through the issuing authority before the Commission may accept a petition filed under 207 CMR 10.07(4).

(4) The subscriber or the cable television operator may petition the Commission to resolve disputed matters within 30 days of any final action. Final action under 207 CMR 10.07(3) shall be deemed to have occurred 30 days after the filing of a complaint.

(5) Upon receipt of a petition, the Commission may proceed to resolve the dispute if all parties agree to submit the dispute to the Commission and be bound by the Commission's decision and the Commission obtains a statement signed by the parties indicating that agreement. In resolving the dispute, the Commission may receive either written or oral statements from the parties, and may conduct its own investigation. The Commission shall then issue a decision based on the record and the parties shall receive written notification of the decision and a statement of reasons therefor.

10.08: Security Deposits

(1) A cable operator shall not require from any cable subscriber a security deposit for converters or other equipment in excess of the cost of the equipment.

(2) The cable operator shall pay interest to the cable subscriber at a rate of 7% per year for any deposit held for six months or more, and such interest shall accrue from the date the deposit is made by the cable subscriber. Interest shall be paid annually by the cable operator to the cable subscriber, either as a direct payment or as a credit to the cable subscriber's account.

(3) Within 30 days after the return of the converter or other equipment, the cable operator shall return the security deposit plus any accrued interest to the cable subscriber, either as a direct payment or as a credit to the cable subscriber's account.
