You have TB infection (a type of TB)

This means you have TB germs in your body, but you don't feel sick. You can't give TB infection to your family or other people.

It is important to take medicine for TB infection now.

Has TB infection

Takes TB medicine

By taking your TB medicine, you can prevent TB disease and keep your family healthy!

ولې اوس درمل يا دوا وخوري؟

Why take TB medicine now?

د نرينځ مڪروب د نرينځ د ناروغي سبب كيدای شي.

TB infection can turn into TB disease.

د نرينځ ناروغي د وجود هره برخه زيانمنه كولى شي، خو اكثرأ پښتورگي يا ششونو ته زيان رسوي كله چې خلك په نرينځ اخته شي، هغوى همپش د ناروغي احساس كوي.

TB disease can hurt any part of the body, but it usually hurts the lungs. When people have TB disease, they usually feel sick.

كچېرې د نرينځ په مرض اخته شي، كيدای شي:

If you become sick with TB disease, you might:

وزن مو كم شي
Lose weight

تبه ولرى
Have fever

ستري يا كسل اوسى
Feel tired

توخى
Cough

د شپې لخوا خولى وكړى
Sweat at night

كچېرې تاسې د نرينځ په مرض اخته شي، تاسې خپله
كورنې او نور خلك هم اخته كولى شي.

If you become sick with TB disease, you can also give TB to your family or other people.
