

DTA Diversity Mission Statement

We will strive to attract and retain employees at all levels of the agency who are highly skilled and culturally competent and reflect the diversity of the citizens of the Commonwealth and the clients we serve.

We foster an inclusive culture where staff and clients from all backgrounds are welcome and supported in their goals.

We respect and value our employees and our clients' diverse experiences and backgrounds.

We strive to develop a work environment where performance, achievement, and diversity are strategic advantages and will support the agency's ability to improve service delivery to our clients.

“We must be the change we wish to see in the world.” -Mahatma Gandhi
