

## Licensed Hospital Covid-19 Daily Reporting Tool

In an effort to better understand, respond to, and report on the effect of the COVID-19 pandemic on the DMH licensed facilities and units, DMH is requiring daily reporting by all DMH licensed facilities regarding several key elements. With the exception of reports of COVID-related deaths, all data requested is as of 12 midnight of the morning of the reporting day. The number of reported patient deaths should be all, whether occurring at the facility or for patients transferred for medical care, reported to the facility during the 24 hours prior to 12 midnight on the day of the report. All data is to be reported by noon on the day of the report. Data reports for Saturday and Sunday may be reported no later than noon on the following Monday.

\*1. This report is for:

Date

\*2. Name of person responding:

\*3. Email Address of person completing report.
