210A.01 General Requirements

Each Superintendent shall report the amount of overtime used and reasons for same on a daily/weekly basis to the Budget Director or designee, via the "Daily Overtime Report" (Attachment A) and "Weekly Overtime Report" (Attachment B). The reasons for the use of overtime shall be coded as indicated on the report forms and as described in this policy.

Each Superintendent and facility administrator shall implement the internal procedures necessary to code the use of overtime on a shift-by-shift basis and to consolidate all shift reports into the weekly report.

For the purposes of the weekly overtime report the "week" begins Sunday, 7:00 a.m. and ends the following Sunday, 6:59 a.m.

210A.02 Categories of Overtime

The following are descriptions of each of the categories of overtime listed on the daily/weekly report form:

Category 100 Vacancy: Overtime used to fill a post which is vacant due to any of the following reasons:

<table>
<thead>
<tr>
<th>Personal Illness</th>
<th>Family Illness</th>
</tr>
</thead>
<tbody>
<tr>
<td>Detached w/pay</td>
<td>Leave w/o pay</td>
</tr>
<tr>
<td>FMLA</td>
<td>Industrial Accident</td>
</tr>
<tr>
<td>Military</td>
<td>Shift Vacancy</td>
</tr>
<tr>
<td>Jury Duty</td>
<td>Late Relief</td>
</tr>
<tr>
<td>K-9 Training</td>
<td>Other Training</td>
</tr>
<tr>
<td>TRT/SRT Fill Behind</td>
<td></td>
</tr>
</tbody>
</table>

In order to properly code the use of overtime, the shift commander shall first determine how many regular posts exist for which there are normally staff allocated on that particular shift, that particular day.

If the Shift Commander determines that the shift lacks sufficient staff to fill all of the regular posts due to absence(s) of some kind (except regularly scheduled days off), then he/she shall use one (1) or more of the vacancy codes as explanation for overtime hired to fill one of those regular posts; provided, that the Shift Commander exhausts all possible
staff resources, via reassignment from existing regular posts which may safely be left vacant for that particular shift, and then, only to the degree that the number of staff hours lost due to vacancy exceeds the number of "relief" or "available" staff hours available on the shift.

When using the "vacancy" codes in accordance with the above guidelines, the specific codes, where applicable, shall be used in descending order as they appear on the form. In other words, if there are any "vacancies" that code (101) "Personal Illness" should be used for the corresponding number of hours necessary prior to attributing overtime use to any other code which is listed below "vacancy" on the form.

When utilizing TRT/SRT Fill Behind®, the reporting authority shall include the name of the individual on TRT/SRT, the date in which the backfill was needed, and the name of the individual that received the overtime for the said backfill.
