STEP 2

RELEASE DYE TABLET
OR 5 DROPS OF
FOOD COLORING

STEP 3

 15-20 MINS

WAIT 15-20 MINUTES,*
THEN CHECK BOWL FOR
SIGNS OF DYE.

WATER SAVER TIP

FIND AND FIX LEAKY FAUCETS AND TOILETS

Leaking toilets can waste thousands of gallons of water per month, and the leaks are often silent and hard to see. Use a dye test if you suspect that your toilet might have a leak.

*To check for slower leaks, wait overnight
