### NOTICE OF FILING, PUBLIC HEARING, AND REQUEST FOR COMMENTS

D.P.U. 25-180

January 16, 2026

Petition of NSTAR Electric Company d/b/a Eversource Energy, pursuant to St. 2024, c. 239, § 134, for approval by the Department of Public Utilities of its Electric Vehicle Supply Equipment Plan.

---

On December 30, 2025, NSTAR Electric Company d/b/a Eversource Energy (“Company” or “NSTAR Electric”) filed a petition with the Department of Public Utilities (“Department”) for approval of its electric vehicle (“EV”) supply equipment (“EVSE”) plan proposal. The Company filed its petition pursuant to Chapter 239, Section 134 of the Acts of 2024, An Act Promoting a Clean Energy Grid, Advancing Equity and Protecting Ratepayers. The Department docketed this petition as D.P.U. 25-180.

In its petition, NSTAR Electric proposes to facilitate the deployment of EVSE projects on rights-of-way (“ROW EVSE”) by offering enhanced incentives for publicly accessible Level 2 ROW EVSE projects as part of its 2027-2030 Phase III EV charging infrastructure program (“Phase III EV program”), which the Company filed with the Department on December 30, 2025 in NSTAR Electric Company, D.P.U. 25-188. NSTAR Electric proposes to recover the costs associated with ROW EVSE projects, including the enhanced incentives, through the commercial segment budget of its Phase III EV program and does not propose to establish a separate budget, goal, or target specific to ROW EVSE. The Company maintains that its proposal will not result in incremental bill impacts and that no revisions to its EV program tariff are necessary because the costs associated with ROW EVSE projects will be recovered through its Department-approved EV program tariff applicable to the commercial segment of its Phase III EV program, if approved by the Department. The Company also plans to communicate the enhanced ROW EVSE incentives through marketing materials and targeted customer outreach and to engage with key stakeholders and ROW EVSE operators to ensure that interested customers have access to best practices, case studies, and information regarding ROW EVSE projects. NSTAR Electric further states that it will apply lessons learned from the Phase III EV program to inform the development of a long-term strategy to support ROW EVSE deployment.

The Department will conduct a public hearing to receive comments on the Company’s petition on **Wednesday, February 11, 2026, beginning at 2:00 p.m.** The public hearing will be conducted jointly with the EV-related petitions filed by Massachusetts Electric Company and Nantucket Electric Company docketed as D.P.U. 25-181 and D.P.U. 25-189 and Fitchburg Gas and Electric Light Company docketed as D.P.U. 25-182.

The public hearing will be virtual and use Zoom videoconferencing. Attendees can join the public hearing by entering the link, <https://us06web.zoom.us/j/83625314675>, from a computer, smartphone, or tablet. No prior software download is required. Any person who desires to comment on the Attorney General's notice of intent to retain experts and consultants may submit written comments to the Department no later than the close of business (5:00 p.m.) on **Monday, February 9, 2026**.
