Schedule CB, Line 10 — Property in Excess of One Acre Real Estate Tax Calculation Worksheet

Complete only if your property is in excess of one acre.

Note: When determining credit eligibility, use only the assessed value of the principal residence together with the land that immediately surrounds and is related to the principal residence, as long as they don't exceed 1 acre when combined.

If your real estate tax bill does not separately list the assessed value of the principal residence and the surrounding land up to 1 acre, contact the local city or town assessor for a breakdown of the real estate tax bill (e.g., 20-acre parcel with a house).

You may only claim your own proportional share of the real estate tax payments that correspond to the part of the residence you used and occupied as your principal residence. Use the Schedule CB line 10 worksheet below to calculate your proportional share of real estate taxes.

The income threshold (line 15 or 19) should be subtracted from the total of these computations to determine if you qualify for the credit.
