

Drought Resources: Private Sector Water Suppliers

The Massachusetts Emergency Management Agency (MEMA) has compiled the below list of private sector water suppliers for informational purposes only. This list intends to provide information on potential private sector water supply resources for individuals and communities that have been impacted by drought conditions. MEMA does not endorse or recommend any commercial products or services, including those provided by the vendors listed below; as such, the mention of commercial products or services shall not be construed as an endorsement or recommendation. The providers listed below may not be on state contract and may not have a contractual relationship with any state agency, including MEMA. Any public sector entities wishing to procure water from suppliers must comply with applicable local, state and federal public procurement rules.
