RE: PHONE RATES

RE: Canteen Rates

Dear Prisoner's Legal I am corresponding with you briefly about the Dept. of Telecommunication and cable on the fact that the billing/charging rate's are very high and has made it so that I have absolutely no family/friend contact because I have to choose between (my ^①Hygiene/my ^②Health/^③Eating Properly) or using the phone putting it on the phone and not being able to speak long but being charged high rates. and since I have no other source of income but my prison job I have to choose between family/friends or Health/Hygiene. I am unable in an affordable manner to do both. and the people I would contact and have to have blocks for (prison-collect-calls).

These people will try to say that I can write as I have to you but talking to your Kid's/Friends family/wife or girlfriend is much better especially when people change addresses and don't know where you are in the Prison System. So I choose my Health/Hygiene. I would like to call home

TWC

but can't afford all. Also as of the
end of last month "Once again" the
the "D.O.C and Keefe" have started
their price gouging scam to make a xtra
buck or two by overcharging us for
canteen items that don't cost the prices
they are charging us. this enables prisoners
with very small amounts of funds to
purchase the proper survival hygiene
items needed for a ~~prisoner~~ in the
D.O.C it also makes it a choice you
smell bad and eat Keefe Canteen food
or you starve and by the proper hygiene
items you can't afford due to the raise
in prices. Thank you for your time/patience
on these issues.
