The missions of impossible Contact:

A perplexing situation awaits Every prisoner who tries to reach out in loneliness, to Communicate with family & loved ones on the outside world. Correctional facilities replaced New England Telephone System with The Global-Telephone Company in Texas, A privatized Organization, and the rates for these calls are way too high in cost for poor families; Single-mothers with love one incarcerated struggle to keep up with high cost. What this creates is hardship and stress which destroys the Cement of any relationship under-going the reality that confronts all love-affairs that Exist behind The Curtains of incarcerated men & women. There must be some sort of phone justice surrounding the high rates, and being refunded when losing money to this Company is impossible, there's no relief out-reach. We Cry out for aid in Establishing Communication with Global-Tel to stop future issues at hand.

Sincerely,

Mr. Richey L Crum
