Supplemental Information
2019 Annual Filing

This memo will serve to document in general terms, the approach and assumptions used in preparing the 2019 annual filing of FCC Form 1240 for systems owned or managed by Comcast Cable Communications, LLC (Comcast). Questions concerning the mathematical calculations and formulas used in Form 1240 and the Worksheets should be referenced to the "Instructions for FCC Form 1240."

Projected Period

Question 5 The Projected Period covers January 1, 2020 to December 31, 2020.

True-up Period

Question 6 The True-up Period covers July 1, 2018 through June 30, 2019. In accordance with FCC Order DA 96-1804, Request for Waiver FCC Form 1240, released November 1, 1996 (Waiver Period), the period of time between the initial filing date and beginning of the projected period must not be included in the operators true-up.

Module A - Maximum Permitted Rate From Previous Filing

Line A1 The Current Maximum Permitted Rate equals the maximum permitted rate from the prior Form 1240, Line I9.

Module B – Subscribership

Line B1 The Average Subscribership for True-up Period 1 represents average franchise subscribers during the period indicated in Question 6 of FCC Form 1240.

Line B3 The estimated Average Subscribership for Projected Period is calculated by applying the estimated 2019 subscriber growth percentage to average subscribers for the true-up period.

Module C – Inflation Information

Line C3 The inflation factor for the True-up period 1 is calculated using the quarterly figures released by the FCC in Public Notice Report No. DA 19-605, dated July 2, 2019. The appropriate inflation factor is entered on Worksheet 1 for each month of the True-up period and is divided by 12 months. The number 1.0 is added to the results and entered on Lines 113 of Worksheet 1 and line C3.

Line C5 The Current FCC Inflation Factor is based on the first quarter 2019 inflation figure released by the FCC in Public Notice Report No. DA 19-605, dated July 2, 2019.

Module D – Calculating the Base Rate

Line D2 to D7 The Current External Costs, Caps Method, Markup Method, True-Up Segments and Inflation Segment were obtained directly from Module I of the Prior FCC Form 1240 filing.

Module F – Maximum Permitted Rate for True-Up Period 1

Line F8

The true-up segment for True-Up Period 1 is calculated in accordance with the instructions to FCC Form 1240. This amount is calculated from Module H Total True-Up Adjustment (Line H13 of the prior filing) divided by the average true-up subscribers on Line B1 of the current filing and divided by the total number of months in the true-up period of Line E2 of the current filing.

FIRST QUARTER 2019 INFLATION ADJUSTMENT FIGURES FOR CABLE OPERATORS USING FCC FORM 1240 NOW AVAILABLE

This Public Notice is applicable to rate-regulated cable operators that use FCC Forms to justify their cable rates.¹ Cable operators adjusting the non-external cost portion of their rates for inflation should follow the instructions provided with the applicable FCC Form. All inflation adjustment figures are based on changes in the Gross National Product Price Index (GNP-PI) published by the United States Department of Commerce, Bureau of Economic Analysis (BEA). The Media Bureau obtained the chain-type price indexes from the BEA news release dated June 27, 2019 (BEA 19-29) at Table 1.7.4 (Price Indexes for Gross Domestic Product, Gross National Product, and Net National Product) Line 4 (Gross National Product).²

Operators filing FCC Form 1240 may make an adjustment based on quarterly figures. The first quarter of 2019 inflation factor for operators using FCC Form 1240 is 0.90%. The adjustment factor of 0.90% is a measure of the annualized change in prices occurring over the period from January 1, 2019 to March 31, 2019. The inflation adjustment factor is calculated by dividing the GNP-PI for the first quarter of 2019 (111.308) by the GNP-PI for the fourth quarter of 2018 (111.058). The result of this calculation is converted from a quarterly change measurement factor to an annual change measurement factor by raising it to the fourth power.

Operators calculating the Inflation Factor for a True-Up Period which includes some portion of the fourth quarter of 2018 should enter the inflation factor on the appropriate lines of Worksheet 1 of FCC Form 1240 as "0.0090." Operators using this factor for calculating the Projected Period Inflation Segment of FCC Form 1240 should enter this number on Line C3 (January 1996 version), or Line C5 (July 1996 version) as "1.0090".

¹ Pursuant to 47 CFR § 76.922(d)(2) and § 76.922(e)(2) of the Commission's rules, cable operators may adjust the non-external cost portion of their rates for inflation.

² Table 1.7.4 can be found at this link:
