

**Minutes**  
**Drug Utilization Review Board Meeting**

**DATE:** 9/13/2017

**Meeting Purpose:** Quarterly Open Board Meeting  
Meeting opened at 6:00 P.M. by Chair, Timothy Fensky.

**Attendance:** Timothy Fensky, R. PH.; Leslie Fish, Pharm. D.; Joel Goldstein, M.D.; Colleen Labelle, MSN RN-BC CARN; Lori Lewicki, R. PH.; Greg Low, R. PH.; Sarah M. McGee, M.D.; Sophie McIntyre, Pharm.D.; Christy Stine, M.D.; Arthur Yu-shin Kim, M.D.

**Absent:** Audra R. Meadows, M.D.; Therese Mulvey, M.D.; Karen Ryle, M.S., R.PH.; Michael Thompson, M.D.;

**Agenda Items:**

- I. Welcome and Introductory Remarks
- II. Guest Forum
- III. Clinical Items Update
- IV. Minutes
- V. Abuse Deterrent Opioids Clinical Update
- VI. Pipeline Update
- VII. Hepatitis C Clinical Update
- VIII. MassHealth Update
- IX. MHDL Update
- X. DUR Operational Update
- XI. Asthma and Allergy Monoclonal Antibodies QA

<b>Review of Minutes</b>	Motion to accept the June 14, 2107 minutes as written.	<u><b>Follow Up</b></u> N/A
<b>Action</b>	Minutes were accepted.	

Agenda Item	Discussion	Conclusions/Follow Up
<b>Abuse Deterrent Opioids Clinical Update</b>	<p><b>Discussion</b></p> <ul style="list-style-type: none"> <li>• Review the concept of abuse-deterrent opioid formulations (ADFs).</li> <li>• Discuss the types of studies that are required for a manufacturer to obtain abuse-deterrent labeling for a product.</li> <li>• Identify the ADFs that are currently approved and their mechanisms of abuse-deterrence.</li> <li>• Summarize the Evidence Report on ADFs prepared by the Institute of Clinical and Economic Review (ICER).</li> <li>• Review the ongoing work of the Massachusetts Drug Formulary Commission</li> <li>• Formulated to meaningfully deter abuse of the opioid.</li> <li>• According to the Food and Drug Administration (FDA) ADFs may be categorized by the following methods: <ul style="list-style-type: none"> <li>○ Physical/Chemical Barrier</li> <li>○ Agonist/Antagonist Combination</li> <li>○ Aversive Technology</li> <li>○ Delivery System Resistant to Manipulation</li> <li>○ New Molecular Entity/Prodrugs</li> <li>○ Combination of Methods</li> <li>○ Other Novel Approaches</li> </ul> </li> </ul>	<p><u><b>Follow Up</b></u> Informational</p>

<b>Action</b>	<b>Conclusions</b> <ul style="list-style-type: none"> <li>• ADFs are effective options for the treatment of pain <ul style="list-style-type: none"> <li>○ May have the potential to reduce abuse, based upon surrogate endpoints</li> </ul> </li> <li>• Postmarket studies confirming ADFs reduce abuse in the community are limited, and available data is mixed. <ul style="list-style-type: none"> <li>○ Abuse and diversion of the ADF typically decrease</li> <li>○ Abuse may shift from the ADF to other opioids/heroin <ul style="list-style-type: none"> <li>▪ Changes in heroin abuse rates ranged from -11% to +100% after OxyContin (oxycodone extended-release) reformulation <ul style="list-style-type: none"> <li>• Study with 11% decrease in heroin abuse showed 191% increase in oxymorphone extended-release abuse.</li> </ul> </li> </ul> </li> </ul> </li> <li>• Widespread adoption of ADFs is likely to substantially increase healthcare costs, according to ICER.</li> <li>• Massachusetts is currently taking steps to encourage the increased use of ADFs, as a result of Chapter 258 of the Acts of 2014.</li> </ul>	<b>Conclusion</b> Informational
---------------	--	------------------------------------

Agenda Item	Discussion	Conclusions/Follow Up
<b>Pipeline Update</b>	Pipeline Update Presentation	<b>Follow Up</b> Informational
<b>Action</b>	<b>Discussion</b> <ul style="list-style-type: none"> <li>• Fitusiran <ul style="list-style-type: none"> <li>○ Proposed Indication: Treatment of Hemophilia A or B</li> <li>○ Potential Impact <ul style="list-style-type: none"> <li>▪ Approximately 20 million patients living with hemophilia in US</li> <li>▪ Hemophilia management is based on factor replacement that requires frequent IV infusion and is associated with extremely high costs.</li> <li>▪ Promoting production of thrombin may reduce frequency of bleeds, reducing need for replacement therapy.</li> </ul> </li> <li>○ Projected market entry <ul style="list-style-type: none"> <li>▪ A specific timeline is not available.</li> </ul> </li> </ul> </li> <li>• Luxturna™ (voretigene neparvovec) <ul style="list-style-type: none"> <li>○ <u>Proposed indication:</u> Treatment of vision loss due to confirmed biallelic RPE65-mediated IRD</li> <li>○ Potential impact <ul style="list-style-type: none"> <li>▪ Approximately 3,300 patients with RPE65-mediated IRDs in the US</li> <li>▪ BioPharm Insight reports amortized payment models may be used due to significant costs.</li> <li>▪ Awarded Orphan Drug, Breakthrough Therapy designations</li> </ul> </li> <li>○ Projected market entry <ul style="list-style-type: none"> <li>▪ An FDA decision is expected by January 12, 2018.</li> </ul> </li> </ul> </li> </ul>	<b>Conclusion</b> Informational

Agenda Item	Discussion	Conclusions/Follow Up
-------------	------------	-----------------------

<b>Hepatitis C Clinical Update</b>	<b>Discussion</b> <ul style="list-style-type: none"> <li>• Provide an overview of hepatitis C treatment.</li> <li>• Provide highlights of prescribing information and clinical trial data for the novel hepatitis C agents.</li> <li>• Discuss relevant clinical and economic considerations.</li> <li>• Propose recommendations for managing novel hepatitis C agents.</li> </ul>	<b><u>Follow Up</u></b> Informational
<b>Action</b>	<b>Conclusion</b> <ul style="list-style-type: none"> <li>• New agents address gaps in hepatitis C treatment <ul style="list-style-type: none"> <li>○ Prior failure of DAA</li> <li>○ Severe renal impairment</li> </ul> </li> <li>• Offer shorter treatment duration for many patients.</li> <li>• Ribavirin-free treatment options are needed in <ul style="list-style-type: none"> <li>○ Decompensated cirrhosis</li> <li>○ Post-liver transplant</li> </ul> </li> <li>• Careful screening for drug interactions will continue to be necessary.</li> </ul> <b>Recommendation</b> <ul style="list-style-type: none"> <li>• Review updated treatment guidelines when they become available.</li> <li>• Monitor the utilization of the newer agents.</li> <li>• Entertain cost proposals from manufacturers to select one or more hepatitis C product as preferred.</li> </ul>	<b>Conclusion</b> Proceed with recommendations as stated.

<b>Agenda Item</b>	<b>Discussion</b>	<b>Conclusions/Follow Up</b>
<b>MassHealth Update</b>	MassHealth Update	<b><u>Follow Up</u></b> Informational
<b>Action</b>	<b>MassHealth Update</b> <ul style="list-style-type: none"> <li>• Re-procure managed-care organization contracts.</li> <li>• Procure accountable-care organizational (ACO) contracts <ul style="list-style-type: none"> <li>○ Six ACOs are participating in pilot for direct contract with MassHealth PCC</li> <li>○ Target date is March 1, 2018</li> </ul> </li> <li>• Budget remains concern <ul style="list-style-type: none"> <li>○ Newly approved and pipeline agents (e.g., orphan drugs) are escalating cost at unsustainable rate.</li> </ul> </li> </ul> <b>Pharmacy Program</b> <ul style="list-style-type: none"> <li>• Pricing <ul style="list-style-type: none"> <li>○ Implementing updated pricing regulations mandated by CMS which will modify reimbursement to pharmacies</li> </ul> </li> <li>• Regulations changes in process <ul style="list-style-type: none"> <li>○ Dispensing fee on Medicaid Prescriptions was \$10.02, amendment filed</li> </ul> </li> </ul>	<b><u>Conclusion</u></b> Informational

	<ul style="list-style-type: none"> <li>with State Plan to reduce fee to \$9.02               <ul style="list-style-type: none"> <li>○ Waiver 1115 posted on website:                   <ul style="list-style-type: none"> <li>▪ Establish closed formulary</li> <li>▪ Establish specialty pharmacy network</li> </ul> </li> <li>○ Possible updates to 340B Program</li> </ul> </li> <li>• Procurement of supplemental rebate               <ul style="list-style-type: none"> <li>○ Currently reviewing bids</li> </ul> </li> <li>• Abuse Deterrent Opioids               <ul style="list-style-type: none"> <li>○ Convening a workgroup to take a step forward to manage opioids in Massachusetts</li> </ul> </li> <li>• Pediatric Behavioral Health Medication Initiative               <ul style="list-style-type: none"> <li>○ Working with foster care population and Department of Youth and Families</li> </ul> </li> </ul>	
--	--	--

Agenda Item	Discussion	Conclusions/Follow Up
<b>MHDL Update</b>	MassHealth Drug List (MHDL) Updates	<u><b>Follow Up</b></u> Informational
<b>Action</b>	<p>Discussed new drug additions and changes that will go into effect on September 25, 2017</p> <ul style="list-style-type: none"> <li>• There will be seven new drugs added to the drug list.</li> <li>• Six will require PA and one will not.</li> <li>• One drug will change to require prior authorization.</li> <li>• Four drugs will be removed from the Brand Name Preferred to Over Generic list.</li> <li>• Three drugs will be added to the Brand Name Preferred Over Generic list.</li> <li>• Four drugs will be removed from the Over-the-Counter Drug list.</li> <li>• Eight drugs will be added to the Over-the-Counter Drug list.</li> </ul>	<u><b>Conclusion</b></u> Informational

Agenda Item	Discussion	Conclusions/Follow Up
<b>DUR Operational Update</b>	Quarterly Operational Statistics	<u><b>Follow Up</b></u> Informational

<b>Action</b>	<ul style="list-style-type: none"> <li>• Prior Authorization (PA) Requests – average 7,500 per month, FY 91,000 over all</li> <li>• Call Volume – 7,500 calls per month, peak September 2016 with 8,092 calls</li> <li>• Abandonment rate about 1.5% <ul style="list-style-type: none"> <li>◦ Industry standards is about 5%</li> </ul> </li> <li>• Average answered call wait time – 9 seconds</li> <li>• Overall call time for answered calls – 3 minutes and 52 seconds <ul style="list-style-type: none"> <li>◦ Goal under 4 minutes</li> </ul> </li> <li>• Refill too soon (40%) and prior authorization required (36%) were majority of calls for pharmacy edits</li> <li>• Appeals average 10 to 11 per month</li> <li>• Provider outreach <ul style="list-style-type: none"> <li>◦ Average over 8 to 10% over all the PA volume</li> </ul> </li> <li>• Top 10 medications <ul style="list-style-type: none"> <li>◦ Aripiprazole</li> <li>◦ Clonidine</li> <li>◦ Lyrica</li> <li>◦ Lantus</li> <li>◦ Methylphenidate</li> <li>◦ Harvoni</li> <li>◦ Oxycodone</li> <li>◦ Guanfacine</li> <li>◦ Risperidone</li> <li>◦ Botox</li> </ul> </li> <li>• PA turn-around time during business hours <ul style="list-style-type: none"> <li>◦ Goal is 24 hours</li> <li>◦ 59% done in 6 hours</li> <li>◦ 99.9 within 24 hours</li> </ul> </li> <li>• PA turn-around time during non-business hours <ul style="list-style-type: none"> <li>◦ 85% done in 6 hours</li> <li>◦ 99% within less than 9 hours</li> </ul> </li> </ul>	<b><u>Conclusion</u></b> Informational
---------------	--	---

Agenda Item	Discussion	Conclusions/Follow Up
<b>Asthma and Allergy Monoclonal Antibodies QA</b>	<b>Discussion</b> <ul style="list-style-type: none"> <li>• Discuss background information on the various asthma &amp; allergy monoclonal antibodies and their use in clinical practice.</li> <li>• Evaluate recent utilization and cost data for MassHealth members.</li> <li>• Present a brief overview of the current prior authorization (PA) criteria and review the randomly selected cases.</li> <li>• Review historical comparison of utilization from last QA evaluation.</li> <li>• Discuss recommendations to current MassHealth clinical criteria.</li> </ul>	<b><u>Follow Up</u></b> Informational

<b>Action</b>	<b>Conclusion:</b> <ul style="list-style-type: none"> <li>• No recent guideline updates for CIU, GINA (2017)- asthma</li> <li>• Guidance for absolute blood eosinophil count threshold <ul style="list-style-type: none"> <li>○ NICE: 300 cells/μL (Nucala) and 400 cells/μL (Cinqair)</li> <li>○ Clinical trials: 150 cells/μL (Nucala) and 400 cells/μL (Cinqair)</li> <li>○ Levels may be affected by systemic corticosteroid use</li> <li>○ Varying units reported by labs</li> </ul> </li> <li>• Update PA form to ask for weight.</li> <li>• Recertifications changed from two years to one year.</li> </ul>	<b><u>Conclusion</u></b> Proceed with recommendations as stated.
