3. The owner of the premises shall be responsible for all repairs, including the thawing of frozen pipes, from the street shut-off to the dwelling. The Company shall be responsible for all repairs to water mains and connections as necessary between the main and the street shut-off (curb-stop) for the individual connection.
4. All persons using water must furnish all interior pipes, connections and fixtures; and must keep them in good repair and protected from frost at their own expense. The Company will not be responsible for any damage resulting from the customer's failure to do so.
5. The Company will provide, set and keep in repair all meters. Meters which are damaged by freezing or by the neglect or carelessness of the Customer will be repaired or replaced at the expense of the customer. Meters will remain the property of the Company. The Customer will provide access for reading and inspection.
6. An agent of the Company shall have free access to all premises supplied with water, at any reasonable time, to examine the pipes and fixtures, and to ascertain the quantity of water used and the manner of its use, and all pipes and fixtures shall be subject to rejection by the Company if considered unsuitable for the purpose.

8. The Company reserves the right to shut off the water for the purpose of making extensions, alterations, or repairs, and to restrict the use of water if necessary. Whenever possible, a notice will be issued to Customers when the water is to be shut off. If water ceases to flow for this or any

other reason the Company will not assume any responsibility for any incidental damage, nor will any portion of the Customer's water bill be refunded for any stoppage of supply.

10. The owner shall be responsible for the elimination of protection of all cross-connections on their premises.

11. The Company will issue a notice of non-compliance in writing to the owner of any premises where a cross-connection to the public water supply exists causing an actual or potential threat to public health. If the owner fails to install the required device or devices within the time frame determined by the Company, the Company will disconnect water service until such device or devices have been properly installed.
