Service Commitment Agreement

☐ I understand that although there are no procedures for repayment if a student fails to complete the above commitments, that as a recipient of the ECE Scholarship there is an expectation that students will continue to be employed in the Early Childhood Education field as an educator or provider in Massachusetts for six months per semester of scholarship receipt, not to exceed a two year maximum commitment upon graduation from an associate's degree program and a four year maximum commitment upon graduation from a bachelor's degree program.

In the event that the fiscal year appropriation is not sufficient to permit a full award to each eligible student, priority consideration will be given to eligible applicants recommended by an individual qualified to speak to their commitment and dedication to the field of early education and care; or members of a socially or economically disadvantaged community as defined by the Department in consultation with the Department of Early Education and Care.
