

Received June 15, 2006 through July 31, 2006

Alicia Matthews
DTE - Cable Television Division
One South Station
Boston, MA 02110

Dear Alicia Matthews,

To bring more cable choice to consumers as soon as possible, Verizon recently submitted a proposal to the Massachusetts Department of Telecommunications and Energy (DTE) that encourages a shorter and more predictable timeline for the competitive local cable franchise process.

As a Verizon employee and consumer of cable services, I am asking that you move quickly to adopt this proposal. The current local cable franchise process is outdated. It simply encourages a monopoly system that costs consumers a lot of money.

In addition, these proposed changes in regulations not only foster competition, which will benefit consumers with lower prices, enhanced offerings and better customer service, but they also will benefit Massachusetts with more technology deployment and communications infrastructure investment.

The time has come to make some changes in the existing process. Please move forward to bring the benefits of cable TV competition to consumers, along with new technology investment to the Commonwealth.

Sincerely,

The Undersigned

cc: Representative Barry Finegold
Senator Susan Tucker
Chairman Judith Judson
Commissioner James Connelly
Commissioner W. Robert Keating
Commissioner Brian Golden
Director Janice Tatarka
