OPERATIONAL SERVICES DIVISION

How To Purchase From The Contract

The Operational Services Division has set up this contract to allow buyers to record contract purchases in COMMBUYS **after** the purchase has been fulfilled by the vendor. To place an order, buyers will reach out to Statewide Contract Vendors outside of COMMBUYS. Once the vendor's invoice is received, buyers will record the transaction in COMMBUYS as an RPA Release Requisition *within one month of receiving the vendor's invoice*. Use the [How to Create an RPA Release Requisition](#) job aid for guidance.

- **Document items in COMMBUYS that have already been purchased**

This type of contract allows buyers to document a contract purchase in COMMBUYS that already has taken place through a Request for Payment Authorization (RPA) Release Requisition. It also allows MMARS users to easily keep track of spend. NOTE: MMARS and COMMBUYS do not interface –payment request and invoice should be reported in both MMARS and COMMBUYS separately. (See guidance below).

Check the Zone listing (on page 11) to determine the city or town where you will have the gasoline delivered. Contact the vendor responsible for that Zone to discuss locations, account requirements and arrange for delivery. The contract covers eight zones across the state. Each zone has one awarded contractor. These contractors are responsible for servicing the eligible users within that zone.

Contract Users should continue to place orders in the normal fashion by contacting the appropriate vendor. Orders should not be placed through COMMBUYS. The order should be recorded once invoices are received using the RPA Release function. This contract has RPA Release enabled to allow contract users to capture spend after-the-fact associated with this contract. Contract Managers have carefully selected the contracts that would qualify for RPA Release transactions. Typically this is due to system or process impracticality and/or emergency situations preventing the standard COMMBUYS purchase order processes from being followed to process paper invoices. For more details please consult the COMMBUYS Policy Document.

ENE47 RPA Guidance

When conducting your Item Search, enter **ENE47** in the Item Description field. Record the following information on the Items tab in COMMBUYS:

- Line 1: Gallons – Enter the total gallons received under Quantity and the total price under Unit Price. Use *GAL* as the Unit of Measure (UOM). **This total should not include taxes.**
- Line 2: Taxes – Enter 1 under Quantity and the total amount of taxes under Unit Price. Use *DO* as the UOM.
- Accurately enter the invoice number in the Invoice Number field for each item line.
- On the Attachments tab, include scanned copies of all records pertaining to the order, i.e. unofficial email quote, receipt of goods or services, final invoice, etc.

Note: OSD carefully selects contracts (in some cases specific contract categories or situations) that qualify for
