

## ENGINEERING DIRECTIVE

Carrie Lavallee, P.E. (signature on original)

CHIEF ENGINEER

### **Standard Specifications for Highways and Bridges – 2025 Edition**

The purpose of this Engineering Directive is to formally issue the 2025 Edition of the MassDOT *Standard Specifications for Highways and Bridges*.

The 2025 Edition of the *Standard Specifications for Highways and Bridges* combines the 2024 Edition of this publication with the *Supplemental Specifications* dated September 30, 2024 and other revisions adopted by MassDOT during 2024.

The 2025 *Standard Specifications for Highways and Bridges* shall be referenced in all contract documents for all projects advertised on or after March 29, 2025.

For active construction projects and for other projects advertised prior to March 29, 2025, no changes to the contract documents are required. All standard and special provisions referenced in the contract documents for those projects will remain in effect.

The 2025 *Standard Specifications for Highways and Bridges* is available in electronic (.pdf) format on MassDOT's public website (mass.gov). Please note that for ease of downloading and use, the document has been divided into 3 separate files, one for each major Division of the *Standard Specifications*. MassDOT will not distribute or make available printed copies of this publication.

For a full accounting of the changes to the 2024 edition of the *Standard Specifications*, refer to the companion document: *2025 Standard Specifications for Highways and Bridges: Appendix A: Amendments to Previous Version*.

This Engineering Directive supersedes Engineering Directive E-24-001, dated February 6, 2024.
