

**Eligibility Operations Memo 22-12**  
**September 2022**

TO: MassHealth Eligibility Operations Staff

FROM: Heather Rossi, Director of Eligibility Policy *Heather Rossi*

RE: **Extension of Postpartum Coverage for Eligible Individuals – Revised Eligibility Criteria**

### **Introduction**

Effective April 1, 2022, MassHealth extended its postpartum coverage period to provide 12 months of coverage to individuals, regardless of immigration status. This extension of coverage significantly improves access to health care services and provides continuity of care in the period after childbirth.

### **Background**

MassHealth previously provided postpartum coverage for 60 days plus an additional period extending to the end of the month in which the 60-day period ended.

The American Rescue Plan Act (ARPA) of 2021 gives states the option to extend Medicaid and Children's Health Insurance Program (CHIP) postpartum coverage from 60 days to 12 months post-pregnancy. As of April 1, 2022, MassHealth extended coverage of the postpartum period to 12 months with an extension to the end of the month in which the 12-month period ends for eligible individuals.

### **Eligibility Criteria**

MassHealth provides postpartum coverage to individuals, regardless of immigration status, who are in MassHealth Standard, CommonHealth, and Family Assistance.

Individuals enrolled in MassHealth CarePlus and Limited may be found eligible for MassHealth Standard provided they meet the eligibility criteria.

Individuals enrolled in CHIP with attested Modified Adjusted Gross Income (MAGI) between 200% and 300% of the FPL will retain a Family Assistance benefit and receive 12 months of postpartum coverage following the end of the pregnancy.

Individuals will be renewed after the 12-month postpartum period and notification of new eligibility status will be sent to the household.

## **Questions**

If you have any questions about this memo, please have your MEC designee contact the Policy Hotline.
