

## Employers by Industry and City-C

**Development Version:** Crystal Reports XI, Service Pack 2

**First Issuance Date:** 8/30/06

**Modification (5/1/07):** Added group by industry; added parameters for region and career center.

**Modification (9/24/07):** Added parameter to select targeted industries only; added charts and crosstabs.

**Parameters:** Location Level (Region or Career Center); Region; Career Center; Fiscal Year; Report End Date; Report Type (Summary/Detail), Targeted Industries.

**Parameter List of Values Updated Date:** N/A

**Key Features:** This report shows all employers (if "All" is selected for the Targeted Industries parameter) who received services in the region or career center during the report period by industry division, industry, and city of employer location. The user can choose to view employers at the regional or career center level. Employers who have either received approved employer services or who have placed job orders are shown. If you choose the Detail view, you will be able to see employer IDs and names, whether they are continuing or new during the period, and what their first service date was. If you see employers in the group tree to the left that are not shown in the report, it means that they are or have been customers, but do not meet the current report criteria. If specific targeted industries are selected, the report will show only the employers specific to those industries.

If you run this report shortly after the OSCCAR Report is posted for the same report period (if "All" is selected for the Targeted Industries parameter), the total number of employers should match. However, if you run it later, it may pick up additional employers whose data was entered after the OSCCAR Report was run. The OSCCAR "New to Career Center" category is currently being reviewed for accuracy; the current report might prove to be more accurate.

**Report Run Times:** About 8 to 12 minutes for most career centers for an entire fiscal year, but up to 50 minutes for centers with large numbers of employer services/job orders, e.g., about 90,000 records.

**Report Feedback:** This report has been tested for accuracy; however, we encourage your feedback--if you get unexpected results or have other suggestions, please contact the report developer below.

**Report Developer:** Linda Bass, lbass@detma.org, 617-864-1570.
