0-17	0	0	0	0	0%
18-64	1049	1290	1447	1488	42 %
65+	1705	1679	1745	1989	58 %
MVPMA	2755	2969	3192	3477	100%

Please be advised that MVPMA doesn't collect data based on patients' race or ethnicity. However, and based on the geographical town service for our clinic, the following can be estimated:

- White (non- Hispanic): 52%
- White (Hispanic): 20%
- Black or African American (non- Hispanic): 20%
- Black or African American (Hispanic): 5%
- Asian: 2%
- Two or more races: 1%

October 12, 2022

Rami R. Rustum, MD
280 Merrimack St,
Suite 103,
Lawrence, MA 01843

Dear Dr. Rustum,

Thank you for taking the time to meet with Rebekah Ray and I. Per our conversation, we look forward to collaborating with you to provide follow-up treatment for the local amputee population. We have many patients from the greater Lawrence area who travel to Boston for their amputations and then require post op care when they return home. There is a real medical need for physiatry/pain management for this patient population as they require specialized attention from multiple disciplines as well as detailed medical note documentation. We would greatly appreciate being able to work with you to oversee and manage their continuity of care.

Hanger Clinic has been consistently providing custom orthotic and prosthetic care to the Merrimack Valley for over 40 years and we accept most insurances including MA Health.

Thank you,
John Dieli, CPO, Clinic Manager

Welcome to Excel Surgery Center

A presentation by Dr. Rami R. Rustum MD

A Brief Introduction:

- Thank you so much for your interest in our new establishment.
- We are so excited to share our plans to build a new ambulatory surgery center at 386 Merrimack Street Suite #D, Methuen, MA.
- Throughout the presentation, we will introduce some of the features and individuals involved in this project, and provide the opportunity for any questions and or feedback.

An Explanation: What is an ambulatory surgical center?

- An ambulatory surgical center (otherwise known as an ASC) is a medical facility that provides outpatient or “day-surgery” procedures.
- Patients will arrive, undergo surgery, and go home the same day.
- This provides patients with the advantage of having non-complex surgeries locally, near their homes and work spaces.
- ASCs have an excellent record of safety, quality and success. They provide patients with outcomes that are equal to or exceed the experience provided by every other site of outpatient surgical care – including hospitals.
- ASC performed surgeries are up to 40% less than hospital performed surgeries, translating to direct savings for patients in high deductible health plans.
- Patients have reported a 92% satisfaction rate for ASC performed surgeries!

Why do we need this? The Great Benefits of an ASC:

1

Lowering costs:

- Procedures cost 25%-50% less in an ASC compared to an outpatient hospital procedure.

3

Bringing care to the community:

- Shift of care from inpatient to outpatient.
- Easy and convenient location.
- Multispecialty care for families.

2

Providing more choices:

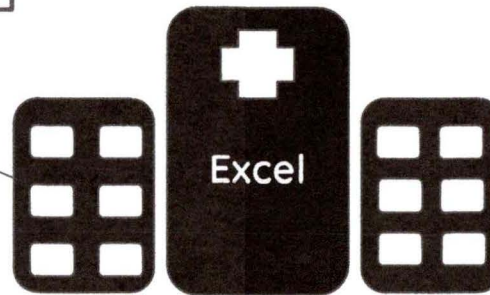

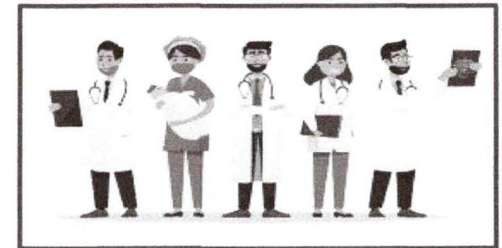

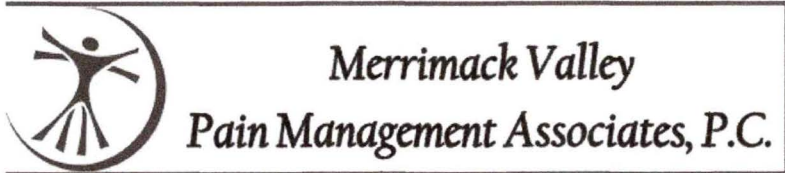

- High patient satisfaction
- Safe and high quality service.
- Ease of scheduling.
- Greater personal attention.

4

Increasing accessibility of care:

- Provides best access for both patients and physicians.
- Specialization in outpatient surgeries leads to greater efficiencies.

A Final Summary: Excel ASC!

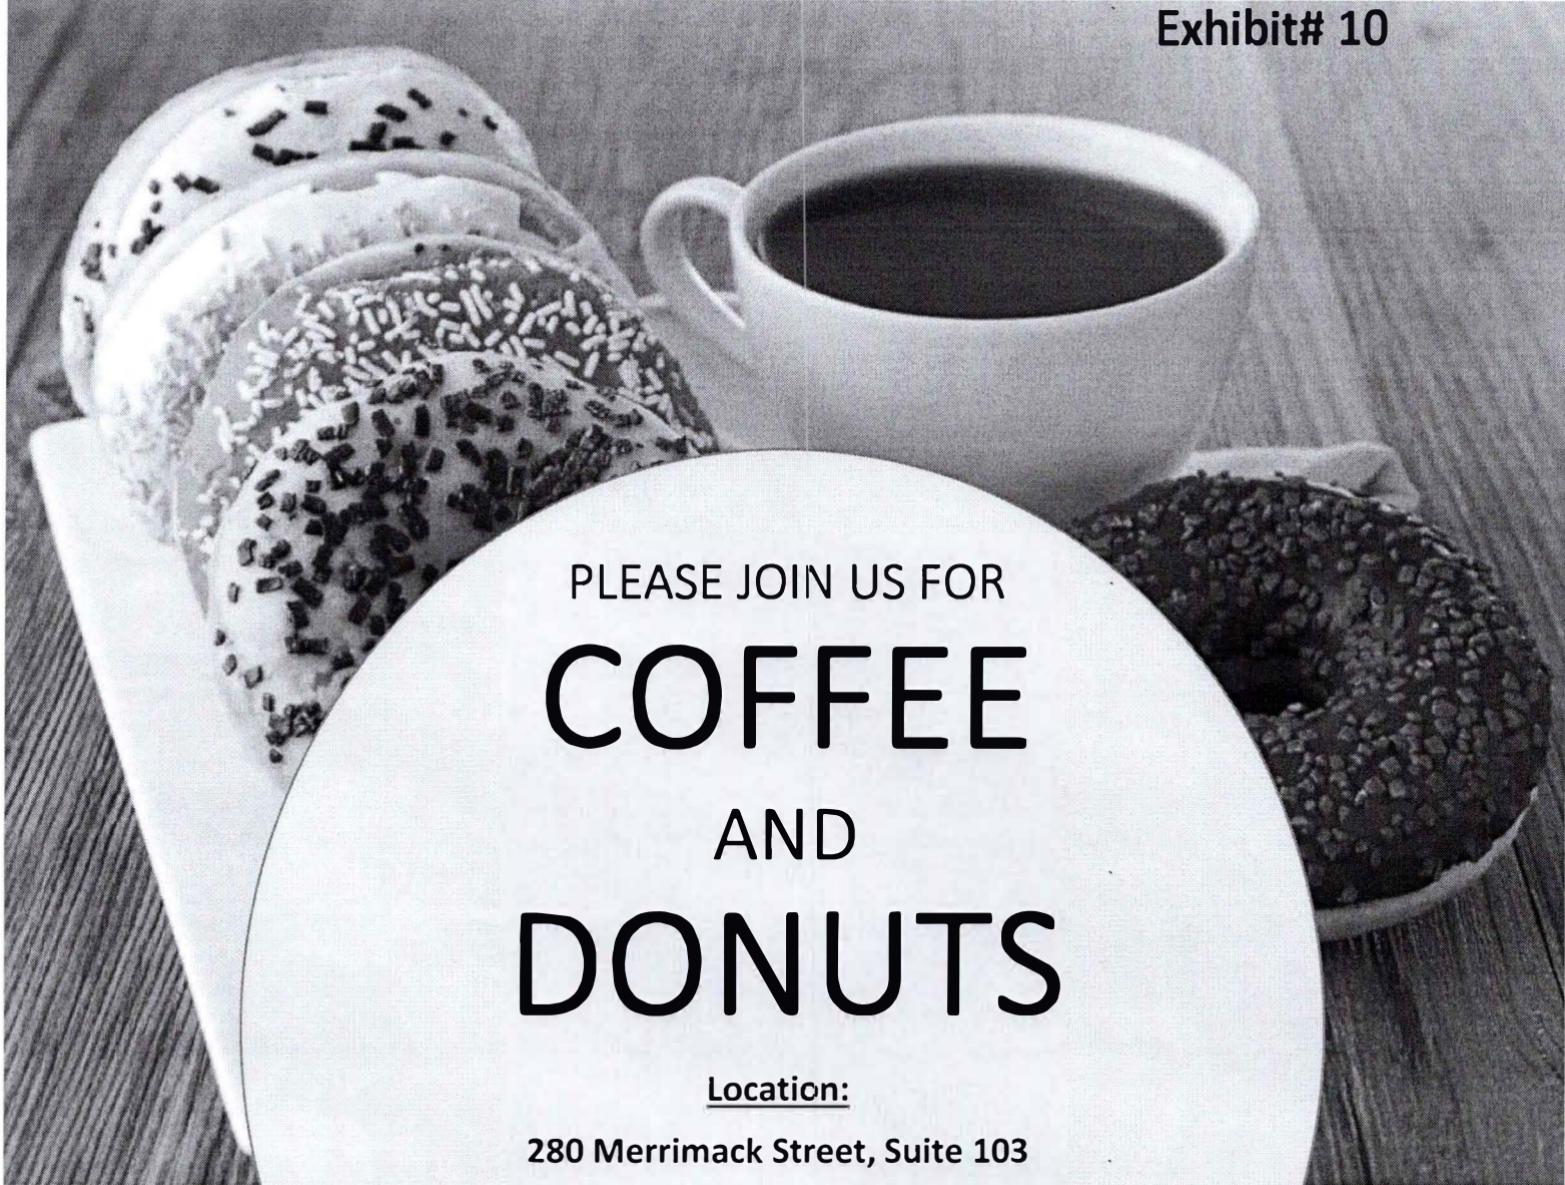

Services

- 2 Operating Rooms
- Future considerations for total joint program & complementary specialties.

Facility

- 5,000 square feet of newly renovated space
- 386 Merrimack Street Suite #D, Methuen, MA 01844

PLEASE JOIN US FOR
COFFEE
AND
DONUTS

Location:

280 Merrimack Street, Suite 103
Lawrence, MA 01843

Dates:

Friday, September 9th, 2022
Friday, September 16th, 2022

Time:

5:00pm – 6:00pm

We're hosting an open forum for our patients to discuss the ambulatory surgical services (Excel Surgery Center) we hope to bring to the town of Methuen and surrounding communities.
