## Summary

This measure assesses the MBHV's progress towards and/or achievement of external standards related to health equity established by the National Committee for Quality Assurance (NCQA).

NCQA's Health Equity Standards are intended to serve as a foundation for the MBHV to address health care disparities. These Health Equity Standards build on the equity-focused Health Plan Accreditation standards to recognize organizations that go above and beyond to provide high quality and equitable care.

This measure incentivizes MBHV to demonstrate achievement of the NCQA Health Equity Accreditation by the end of Performance Year (PY) 3 (2025).
