Facility Permit D-B1

(See 234 CMR 6.05 Effective August 20, 2010)

Administration of Moderate Sedation

Application Instructions

Facility Permit D-B1 authorizes the administration of moderate sedation, at the specific site named on the Permit, as performed by a qualified dentist licensed to practice under MGL c. 112 s. 45 or by a medical anesthesiologist licensed by the Massachusetts Board of Registration in Medicine. Prior to the administration of moderate sedation in a dental office, a Facility Permit D-B1 must be obtained by the qualified dentist for each office site where moderate sedation is to be administered, including the offices of dentists who work with a qualified medical or dental anesthesiologist (234 CMR 6.03). Facility Permit D-B1 also authorizes the administration of minimal sedation and nitrous oxide-oxygen at this site by qualified dentists with the proper individual anesthesia permits as issued by the Board.

Exemption: A Facility Permit D-B1 is not required for the administration of moderate or minimal sedation or nitrous oxide-oxygen at those hospital and/or dental school settings that have been approved by the Joint Commission on Accreditation of Hospitals or the Commission on Accreditation of the Council on Education of the American Dental Association, or for hospitals and clinics licensed pursuant to M. G. L. c. 111, §§ 51 through 56**.** A private dental office of a licensed dentist that is located within a hospital or dental school facility, however, is subject to 234 CMR 6.00.

PLEASE NOTE:

1) A facility permit is issued by the Board in the name of a dentist currently licensed under MGL c. 112 s. 45 for the specific address named in the application and is not transferable to either another facility or another licensee. A facility permit immediately expires when the licensee in whose name it is issued ceases to practice at the facility.

2) A site inspection is required for completion of this application. Once the permit application is complete, a compliance officer will contact you to set up a time for the inspection. If you are a member of the Massachusetts Society of Oral and Maxillofacial Surgeons whose practice site named in the application has been inspected within the past five years you may submit a copy of the results of that inspection along with the application for a Facility Permit D-B1 in lieu of requesting a Board inspection.

3) Please consult Statutes, Rules, and Regulations pertaining to the administration of anesthesia and sedation (234 CMR 6.00) at www.mass.gov/dph/boards/dn for detailed descriptions of requirements for the Facility Permit D-B1 and Individual Anesthesia permits and go to www.osha.gov, www.ada.org and www.cdc.gov for up-to-date information on and requirements for the provision anesthesia in dental offices. Specific questions may be addressed to the Board by emailing dentistry.admin@state.ma.us
