

## FARMER/LANDOWNER PERMIT

Farmers who earn at least 50% of their annual income from agricultural practices *or* landowners who own more than 300 contiguous acres of undeveloped property qualify to hunt on their own property during the legal seasons without a hunting license. If a qualified farmer or landowner without a hunting license wants to hunt deer, turkey, and/or bear on their property, they will need to apply for a Farmer/Landowner permit. If issued, a Farmer/Landowner permit allows farmers or landowners domiciled on the property and members of their immediate family (defined as son, daughter, brother, sister, mother, father, or spouse) who reside on the property to hunt on that approved property during the legal hunting seasons. Those issued a Farmer/Landowner permit are not exempt from seasons, bag limits, reporting, or methods of take. All species harvested under this permit must be reported online through MassFishHunt or at an official check station.

The Farmer/Landowner permit entitles the holder to the following tags and permits to be used only on the approved property during the species' hunting season:

- 2 Antlered Deer Tags
- 1 Antlerless Deer Permit (additional ADPs can be issued at MassWildlife District Offices to qualified farmers or landowners with approved property in Wildlife Management Zones with unlimited ADPs – Zones 10, 11, 13, 14)
- 1 Bear Permit
- 2 Spring Turkey Permits and 1 Fall Turkey Permit

Farmer/Landowner permits are valid from the date of issue to the end of the calendar year. Farmers and landowners must apply for the permit annually as needed. If a farmer or landowner is interested in hunting on other property, they will need to purchase a hunting license and the applicable permits. If an individual acquires both a Farmer/Landowner permit and a regular hunting license, they may harvest no more than 1 bear, 3 turkeys (2 spring, 1 fall), and 2 antlered deer per season but may harvest as many antlerless deer as they have valid permits for.

### **Eligibilities:**

#### *Farmers*

- Massachusetts farmers domiciled on the property where they derive at least 50% of total annual income from agricultural practices, members of their immediate family residing on the property, or lessees/tenants residing on the property may be eligible for a Farmer/Landowner permit. The income must be derived from the raising and selling of dairy cattle and products, beef cattle, poultry, sheep, swine, horses, ponies, mules, goats, bees, fruits, vegetables, berries, nuts or other foods used directly or indirectly for human consumption, feed for animals, tobacco, flowers, sod, trees, nursery or greenhouse products, forest products or ornamental plants and shrubs.
- All the land, exclusive of the legal safety zones, **MUST NOT BE POSTED** and must be open without restriction to the public for hunting.

#### *Landowners*

- Massachusetts landowners domiciled on their property of 300 or more contiguous acres of undeveloped property as well as members of their immediate family residing on the property may be eligible for a Farmer/Landowner permit.
- All the land, exclusive of the legal safety zones, **MUST NOT BE POSTED** and must be open without restriction to the public for hunting.
