MASSHEALTH
TRANSMITTAL LETTER FAS-13
September 2003

TO: Freestanding Ambulatory Surgery Centers Participating in MassHealth

FROM: Douglas S. Brown, Acting Commissioner

RE: *Freestanding Ambulatory Surgery Center Manual* (Restructured Subchapter 6 and Service Code Update)

The federal government has revised the Healthcare Common Procedure Coding System (HCPCS) for MassHealth billing.

This letter transmits a revised Subchapter 6 of the *Freestanding Ambulatory Surgery Center Manual*. Providers should use this revised Subchapter 6 in conjunction with the American Medical Association Current Procedural Terminology (CPT) 2003 code book to obtain service code descriptions. Subchapter 6 lists CPT and Level II codes that

- are payable under MassHealth; and
- have special limitations or requirements, such as prior authorization, individual consideration, or attachment requirements.

We have restructured Subchapter 6 because we recognize that most providers use their CPT codebooks for service codes and descriptions, and refer to the Division's Subchapter 6 only to determine what limitations or restrictions might apply to a specific code for MassHealth. We hope that this restructured Subchapter 6 will be easier to use, and will make your provider manual more manageable.

Terminated Procedures

Procedure code X1835 has been deleted from the list of payable procedure codes. Providers who are submitting a claim for a terminated procedure should use the most appropriate procedure code along with modifier 73 or modifier 74.

Effective Date

The revised Subchapter 6 is effective for dates of service on or after August 15, 2003. The new codes introduced under the CPT 2003 code book and the HCPCS Level II code book are effective for dates of service on or after August 15, 2003. We will accept either the new or the old codes for dates of service through September 30, 2003. For dates of service on or after October 1, 2003, providers must use the new codes to receive payment.
