- To narrow down the search, partial values are allowed like first initial or a license prefix. If the license prefix is not known, it is possible to search for just the number if an asterisk or a star is entered before the number (for ex: *123456).
- For licenses with Restrictions, select Profession and leave the License Type as "All", then enter the license prefix (HE, CSSL, CM, or TC) in the license number field. This will include all of the restrictions in the results.
