

## PART III--FRANCHISING AND REGULATION

### SEC. 621. [47 U.S.C. 541] GENERAL FRANCHISE REQUIREMENTS.

(a)(1) A franchising authority may award, in accordance with the provisions of this title, 1 or more franchises within its jurisdiction; except that a franchising authority may not grant an exclusive franchise and may not unreasonably refuse to award an additional competitive franchise. Any applicant whose application for a second franchise has been denied by a final decision of the franchising authority may appeal such final decision pursuant to the provisions of section 635 for failure to comply with this subsection.

(2) Any franchise shall be construed to authorize the construction of a cable system over public rights-of-way, and through easements, which is within the area to be served by the cable system and which have been dedicated for compatible uses, except that in using such easements the cable operator shall ensure--

(A) that the safety, functioning, and appearance of the property and the convenience and the safety of other persons not be adversely affected by the installation or construction of facilities necessary for a cable system;

(B) that the cost of the installation, construction, operation, or removal of such facilities be borne by the cable operator or subscriber, or a combination of both; and

(C) that the owner of the property be justly compensated by the cable operator for any damages caused by the installation, construction, operation, or removal of such facilities by the cable operator.

(3) In awarding a franchise or franchises, a franchising authority shall assure that access to cable service is not denied to any group of potential residential cable subscribers because of the income of the residents of the local area in which such group resides.

(4) In awarding a franchise, the franchising authority--

(A) shall allow the applicant's cable system a reasonable period of time to become capable of providing cable service to all households in the franchise area;

(B) may require adequate assurance that the cable operator will provide adequate public, educational, and governmental access channel capacity, facilities, or financial support; and

(C) may require adequate assurance that the cable operator has the financial, technical, or legal qualifications to provide cable service.

(b)(1) Except to the extent provided in paragraph (2) and subsection (f), a cable operator may not provide cable service without a franchise.

(2) Paragraph (1) shall not require any person lawfully providing cable service without a franchise on July 1, 1984, to obtain a franchise unless the franchising authority so requires.

(3)(A) If a cable operator or affiliate thereof is engaged in the provision of telecommunications services--

(i) such cable operator or affiliate shall not be required to obtain a franchise under this title for the provision of telecommunications services; and

(ii) the provisions of this title shall not apply to such cable operator or affiliate for the provision of telecommunications services.

(B) A franchising authority may not impose any requirement under this title that has the purpose or effect of prohibiting, limiting, restricting, or conditioning the provision of a telecommunications service by a cable operator or an affiliate thereof.

(C) A franchising authority may not order a cable operator or affiliate thereof--  
(i) to discontinue the provision of a telecommunications service, or  
(ii) to discontinue the operation of a cable system, to the extent such cable system is used for the provision of a telecommunications service, by reason of the failure of such cable operator or affiliate thereof to obtain a franchise or franchise renewal under this title with respect to the provision of such telecommunications service.

(D) Except as otherwise permitted by sections 611 and 612, a franchising authority may not require a cable operator to provide any telecommunications service or facilities, other than institutional networks, as a condition of the initial grant of a franchise, a franchise renewal, or a transfer of a franchise.

(c) Any cable system shall not be subject to regulation as a common carrier or utility by reason of providing any cable service.

(d)(1) A State or the Commission may require the filing of informational tariffs for any intrastate communications service provided by a cable system, other than cable service, that would be subject to regulation by the Commission or any State if offered by a common carrier subject in whole or in part, to title II of this Act. Such informational tariffs shall specify the rates, terms, and conditions for the provision of such service, including whether it is made available to all subscribers generally, and shall take effect on the date specified therein.

(2) Nothing in this title shall be construed to affect the authority of any State to regulate any cable operator to the extent that such operator provides any communication service other than cable service, whether offered on a common carrier or private contract basis.

(3) For purposes of this subsection, the term "State" has the meaning given it in section 3.

(e) Nothing in this title shall be construed to affect the authority of any State to license or otherwise regulate any facility or combination of facilities which serves only subscribers in one or more multiple unit dwellings under common ownership, control, or management and which does not use any public right-of-way.

(f) No provision of this Act shall be construed to--

(1) prohibit a local or municipal authority that is also, or is affiliated with, a franchising authority from operating as a multichannel video programming distributor in the franchise area, notwithstanding the granting of one or more franchises by such franchising authority; or

(2) require such local or municipal authority to secure a franchise to operate as a multichannel video programming distributor.

#### SEC. 622. [47 U.S.C. 542] FRANCHISE FEES.

(a) Subject to the limitation of subsection (b), any cable operator may be required under the terms of any franchise to pay a franchise fee.

(b) For any twelve-month period, the franchise fees paid by a cable operator with respect to any cable system shall not exceed 5 percent of such cable operator's gross revenues derived in such period from the operation of the cable system to provide cable services. For purposes of this section, the 12-month period shall be the 12-month period applicable under the franchise for accounting purposes. Nothing in this subsection shall prohibit a franchising authority and a cable operator from agreeing that franchise fees which lawfully could be collected for any such 12-month period shall be paid on a prepaid or deferred basis; except that the sum of the fees

paid during the term of the franchise may not exceed the amount, including the time value of money, which would have lawfully been collected if such fees had been paid per annum.

(c) Each cable operator may identify, consistent with the regulations prescribed by the Commission pursuant to section 623, as a separate line item on each regular bill of each subscriber, each of the following:

(1) The amount of the total bill assessed as a franchise fee and the identity of the franchising authority to which the fee is paid.

(2) The amount of the total bill assessed to satisfy any requirements imposed on the cable operator by the franchise agreement to support public, educational, or governmental channels or the use of such channels.

(3) The amount of any other fee, tax, assessment, or charge of any kind imposed by any governmental authority on the transaction between the operator and the subscriber.

(d) In any court action under subsection (c), the franchising authority shall demonstrate that the rate structure reflects all costs of the franchise fees.

(e) Any cable operator shall pass through to subscribers the amount of any decrease in a franchise fee.

(f) A cable operator may designate that portion of a subscriber's bill attributable to the franchise fee as a separate item on the bill.

(g) For the purposes of this section--

(1) the term "franchise fee" includes any tax, fee, or assessment of any kind imposed by a franchising authority or other governmental entity on a cable operator or cable subscriber, or both, solely because of their status as such;

(2) the term "franchise fee" does not include--

(A) any tax, fee, or assessment of general applicability (including any such tax, fee, or assessment imposed on both utilities and cable operators or their services but not including a tax, fee, or assessment which is unduly discriminatory against cable operators or cable subscribers);

(B) in the case of any franchise in effect on the date of the enactment of this title, payments which are required by the franchise to be made by the cable operator during the term of such franchise for, or in support of the use of, public, educational, or governmental access facilities;

(C) in the case of any franchise granted after such date of enactment, capital costs which are required by the franchise to be incurred by the cable operator for public, educational, or governmental access facilities;

(D) requirements or charges incidental to the awarding or enforcing of the franchise, including payments for bonds, security funds, letters of credit, insurance, indemnification, penalties, or liquidated damages; or

(E) any fee imposed under title 17, United States Code. (h)(1) Nothing in this Act shall be construed to limit any authority of a franchising authority to impose a tax, fee, or other assessment of any kind on any person (other than a cable operator) with respect to cable service or other communications service provided by such person over a cable system for which charges are assessed to subscribers but not received by the cable operator.

(2) For any 12-month period, the fees paid by such person with respect to any such cable service or other communications service shall not exceed 5 percent of such person's gross revenues derived in such period from the provision of such service over the cable system.

(i) Any Federal agency may not regulate the amount of the franchise fees paid by a cable operator, or regulate the use of funds derived from such fees, except as provided in this section.

#### SEC. 623. [47 U.S.C. 543] REGULATION OF RATES.

##### (a) COMPETITION PREFERENCE; LOCAL AND FEDERAL REGULATION.--

(1) IN GENERAL.--No Federal agency or State may regulate the rates for the provision of cable service except to the extent provided under this section and section 612. Any franchising authority may regulate the rates for the provision of cable service, or any other communications service provided over a cable system to cable subscribers, but only to the extent provided under this section. No Federal agency, State, or franchising authority may regulate the rates for cable service of a cable system that is owned or operated by a local government or franchising authority within whose jurisdiction that cable system is located and that is the only cable system located within such jurisdiction.

(2) PREFERENCE FOR COMPETITION.--If the Commission finds that a cable system is subject to effective competition, the rates for the provision of cable service by such system shall not be subject to regulation by the Commission or by a State or franchising authority under this section. If the Commission finds that a cable system is not subject to effective competition--

(A) the rates for the provision of basic cable service shall be subject to regulation by a franchising authority, or by the Commission if the Commission exercises jurisdiction pursuant to paragraph (6), in accordance with the regulations prescribed by the Commission under subsection (b); and

(B) the rates for cable programming services shall be subject to regulation by the Commission under subsection (c).

(3) QUALIFICATION OF FRANCHISING AUTHORITY.--A franchising authority that seeks to exercise the regulatory jurisdiction permitted under paragraph (2)(A) shall file with the Commission a written certification that--

(A) the franchising authority will adopt and administer regulations with respect to the rates subject to regulation under this section that are consistent with the regulations prescribed by the Commission under subsection (b);

(B) the franchising authority has the legal authority to adopt, and the personnel to administer, such regulations; and

(C) procedural laws and regulations applicable to rate regulation proceedings by such authority provide a reasonable opportunity for consideration of the views of interested parties.

(4) APPROVAL BY COMMISSION.--A certification filed by a franchising authority under paragraph (3) shall be effective 30 days after the date on which it is filed unless the Commission finds, after notice to the authority and a reasonable opportunity for the authority to comment, that--

(A) the franchising authority has adopted or is administering regulations with respect to the rates subject to regulation under this section that are not consistent with the regulations prescribed by the Commission under subsection (b);

(B) the franchising authority does not have the legal authority to adopt, or

the personnel to administer, such regulations; or

(C) procedural laws and regulations applicable to rate regulation proceedings by such authority do not provide a reasonable opportunity for consideration of the views of interested parties.

If the Commission disapproves a franchising authority's certification, the Commission shall notify the franchising authority of any revisions or modifications necessary to obtain approval.

(5) REVOCATION OF JURISDICTION.--Upon petition by a cable operator or other interested party, the Commission shall review the regulation of cable system rates by a franchising authority under this subsection. A copy of the petition shall be provided to the franchising authority by the person filing the petition. If the Commission finds that the franchising authority has acted inconsistently with the requirements of this subsection, the Commission shall grant appropriate relief. If the Commission, after the franchising authority has had a reasonable opportunity to comment, determines that the State and local laws and regulations are not in conformance with the regulations prescribed by the Commission under subsection (b), the Commission shall revoke the jurisdiction of such authority.

(6) EXERCISE OF JURISDICTION BY COMMISSION.--If the Commission disapproves a franchising authority's certification under paragraph (4), or revokes such authority's jurisdiction under paragraph (5), the Commission shall exercise the franchising authority's regulatory jurisdiction under paragraph (2)(A) until the franchising authority has qualified to exercise that jurisdiction by filing a new certification that meets the requirements of paragraph (3). Such new certification shall be effective upon approval by the Commission. The Commission shall act to approve or disapprove any such new certification within 90 days after the date it is filed.

(7) AGGREGATION OF EQUIPMENT COSTS.--

(A) IN GENERAL.--The Commission shall allow cable operators, pursuant to any rules promulgated under subsection (b)(3), to aggregate, on a franchise, system, regional, or company level, their equipment costs into broad categories, such as converter boxes, regardless of the varying levels of functionality of the equipment within each such broad category. Such aggregation shall not be permitted with respect to equipment used by subscribers who receive only a rate regulated basic service tier.

(B) REVISION TO COMMISSION RULES; FORMS.--Within 120 days of the date of enactment of the Telecommunications Act of 1996, the Commission shall issue revisions to the appropriate rules and forms necessary to implement subparagraph (A).

(b) ESTABLISHMENT OF BASIC SERVICE TIER RATE REGULATIONS.--

(1) COMMISSION OBLIGATION TO SUBSCRIBERS.--The Commission shall, by regulation, ensure that the rates for the basic service tier are reasonable. Such regulations shall be designed to achieve the goal of protecting subscribers of any cable system that is not subject to effective competition from rates for the basic service tier that exceed the rates that would be charged for the basic service tier if such cable system were subject to effective competition.

(2) COMMISSION REGULATIONS.--Within 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall prescribe, and periodically thereafter revise, regulations to carry out its obligations under paragraph (1). In prescribing such regulations, the Commission--

(A) shall seek to reduce the administrative burdens on subscribers, cable operators, franchising authorities, and the Commission;

(B) may adopt formulas or other mechanisms and procedures in complying with the requirements of subparagraph (A); and

(C) shall take into account the following factors:

(i) the rates for cable systems, if any, that are subject to effective competition;

(ii) the direct costs (if any) of obtaining, transmitting, and otherwise providing signals carried on the basic service tier, including signals and services carried on the basic service tier pursuant to paragraph (7)(B), and changes in such costs;

(iii) only such portion of the joint and common costs (if any) of obtaining, transmitting, and otherwise providing such signals as is determined, in accordance with regulations prescribed by the Commission, to be reasonably and properly allocable to the basic service tier, and changes in such costs;

(iv) the revenues (if any) received by a cable operator from advertising from programming that is carried as part of the basic service tier or from other consideration obtained in connection with the basic service tier;

(v) the reasonably and properly allocable portion of any amount assessed as a franchise fee, tax, or charge of any kind imposed by any State or local authority on the transactions between cable operators and cable subscribers or any other fee, tax, or assessment of general applicability imposed by a governmental entity applied against cable operators or cable subscribers;

(vi) any amount required, in accordance with paragraph (4), to satisfy franchise requirements to support public, educational, or governmental channels or the use of such channels or any other services required under the franchise; and

(vii) a reasonable profit, as defined by the Commission consistent with the Commission's obligations to subscribers under paragraph (1).

(3) EQUIPMENT.--The regulations prescribed by the Commission under this subsection shall include standards to establish, on the basis of actual cost, the price or rate for--

(A) installation and lease of the equipment used by subscribers to receive the basic service tier, including a converter box and a remote control unit and, if requested by the subscriber, such addressable converter box or other equipment as is required to access programming described in paragraph (8); and

(B) installation and monthly use of connections for additional television receivers.

(4) COSTS OF FRANCHISE REQUIREMENTS.--The regulations prescribed by the Commission under this subsection shall include standards to identify costs attributable to satisfying franchise requirements to support public, educational, and governmental channels or the use of such channels or any other services required under the franchise.

(5) IMPLEMENTATION AND ENFORCEMENT.--The regulations prescribed by the Commission under this subsection shall include additional standards, guidelines, and procedures concerning the implementation and enforcement of such regulations, which shall include--

(A) procedures by which cable operators may implement and franchising authorities may enforce the regulations prescribed by the Commission under this subsection;

(B) procedures for the expeditious resolution of disputes between cable operators and franchising authorities concerning the administration of such regulations;

(C) standards and procedures to prevent unreasonable charges for changes in the subscriber's selection of services or equipment subject to regulation under this section, which standards shall require that charges for changing the service tier selected shall be based on the cost of such change and shall not exceed nominal amounts when the system's configuration permits changes in service tier selection to be effected solely by coded entry on a computer terminal or by other similarly simple method; and

(D) standards and procedures to assure that subscribers receive notice of the availability of the basic service tier required under this section.

(6) NOTICE.--The procedures prescribed by the Commission pursuant to paragraph (5)(A) shall require a cable operator to provide 30 days' advance notice to a franchising authority of any increase proposed in the price to be charged for the basic service tier.

(7) COMPONENTS OF BASIC TIER SUBJECT TO RATE REGULATION.--

(A) MINIMUM CONTENTS.--Each cable operator of a cable system shall provide its subscribers a separately available basic service tier to which subscription is required for access to any other tier of service. Such basic service tier shall, at a minimum, consist of the following:

(i) All signals carried in fulfillment of the requirements of sections 614 and 615.

(ii) Any public, educational, and governmental access programming required by the franchise of the cable system to be provided to subscribers.

(iii) Any signal of any television broadcast station that is provided by the cable operator to any subscriber, except a signal which is secondarily transmitted by a satellite carrier beyond the local service area of such station.

(B) PERMITTED ADDITIONS TO BASIC TIER.--A cable operator may add additional video programming signals or services to the basic service tier. Any such additional signals or services provided on the basic service tier shall be provided to subscribers at rates determined under the regulations prescribed by the Commission under this subsection.

(8) BUY-THROUGH OF OTHER TIERS PROHIBITED.--

(A) PROHIBITION.--A cable operator may not require the subscription to any tier other than the basic service tier required by paragraph (7) as a condition of access to video programming offered on a per channel or per program basis. A cable operator may not discriminate between subscribers to the basic service tier and other subscribers with regard to the rates charged for video programming offered on a per channel or per program basis.

(B) EXCEPTION; LIMITATION.--The prohibition in subparagraph (A) shall not apply to a cable system that, by reason of the lack of addressable converter boxes or other technological limitations, does not permit the operator to offer programming on a per channel or per program basis in the same manner required by subparagraph (A). This subparagraph shall not be available to any cable operator after--

(i) the technology utilized by the cable system is modified or improved in a way that eliminates such technological limitation; or

(ii) 10 years after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, subject to subparagraph (C).

(C) WAIVER.--If, in any proceeding initiated at the request of any cable operator, the Commission determines that compliance with the requirements of subparagraph (A) would require the cable operator to increase its rates, the Commission may, to the extent consistent with the public interest, grant such cable operator a waiver from such requirements for such specified period as the Commission determines reasonable and appropriate.

(c) REGULATION OF UNREASONABLE RATES.--

(1) COMMISSION REGULATIONS.--Within 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall, by regulation, establish the following:

(A) criteria prescribed in accordance with paragraph (2) for identifying, in individual cases, rates for cable programming services that are unreasonable;

(B) fair and expeditious procedures for the receipt, consideration, and resolution of complaints from any franchising authority (in accordance with paragraph (3)) alleging that a rate for cable programming services charged by a cable operator violates the criteria prescribed under subparagraph (A), which procedures shall include the minimum showing that shall be required for a complaint to obtain Commission consideration and resolution of whether the rate in question is unreasonable; and

(C) the procedures to be used to reduce rates for cable programming services that are determined by the Commission to be unreasonable and to refund such portion of the rates or charges that were paid by subscribers after the filing of the first complaint filed with the franchising authority under paragraph (3) and that are determined to be unreasonable.

(2) FACTORS TO BE CONSIDERED.--In establishing the criteria for determining in individual cases whether rates for cable programming services are unreasonable under paragraph (1)(A), the Commission shall consider, among other factors--

(A) the rates for similarly situated cable systems offering comparable cable programming services, taking into account similarities in facilities, regulatory and governmental costs, the number of subscribers, and other relevant factors;

(B) the rates for cable systems, if any, that are subject to effective competition;

(C) the history of the rates for cable programming services of the system, including the relationship of such rates to changes in general consumer prices;

(D) the rates, as a whole, for all the cable programming, cable equipment, and cable services provided by the system, other than programming provided on a per channel or per program basis;

(E) capital and operating costs of the cable system, including the quality and costs of the customer service provided by the cable system; and

(F) the revenues (if any) received by a cable operator from advertising from programming that is carried as part of the service for which a rate is being established, and changes in such revenues, or from other consideration obtained in connection with the cable programming services concerned.

(3) REVIEW OF RATE CHANGES.--The Commission shall review any complaint submitted by a franchising authority after the date of enactment of the Telecommunications Act of 1996 concerning an increase in rates for cable programming services and issue a final order within 90 days after it receives such a complaint, unless the parties agree to extend the period for such review. A franchising authority may not file a

complaint under this paragraph unless, within 90 days after such increase becomes effective it receives subscriber complaints.

(4) SUNSET OF UPPER TIER RATE REGULATION.--This subsection shall not apply to cable programming services provided after March 31, 1999.

(d) UNIFORM RATE STRUCTURE REQUIRED.--A cable operator shall have a rate structure, for the provision of cable service, that is uniform throughout the geographic area in which cable service is provided over its cable system. This subsection does not apply to (1) a cable operator with respect to the provision of cable service over its cable system in any geographic area in which the video programming services offered by the operator in that area are subject to effective competition, or (2) any video programming offered on a per channel or per program basis. Bulk discounts to multiple dwelling units shall not be subject to this subsection, except that a cable operator of a cable system that is not subject to effective competition may not charge predatory prices to a multiple dwelling unit. Upon a prima facie showing by a complainant that there are reasonable grounds to believe that the discounted price is predatory, the cable system shall have the burden of showing that its discounted price is not predatory.

(e) DISCRIMINATION; SERVICES FOR THE HEARING IMPAIRED.--Nothing in this title shall be construed as prohibiting any Federal agency, State, or a franchising authority from--

(1) prohibiting discrimination among subscribers and potential subscribers to cable service, except that no Federal agency, State, or franchising authority may prohibit a cable operator from offering reasonable discounts to senior citizens or other economically disadvantaged group discounts; or

(2) requiring and regulating the installation or rental of equipment which facilitates the reception of cable service by hearing impaired individuals.

(f) NEGATIVE OPTION BILLING PROHIBITED.--A cable operator shall not charge a subscriber for any service or equipment that the subscriber has not affirmatively requested by name. For purposes of this subsection, a subscriber's failure to refuse a cable operator's proposal to provide such service or equipment shall not be deemed to be an affirmative request for such service or equipment.

(g) COLLECTION OF INFORMATION.--The Commission shall, by regulation, require cable operators to file with the Commission or a franchising authority, as appropriate, within one year after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992 and annually thereafter, such financial information as may be needed for purposes of administering and enforcing this section.

(h) PREVENTION OF EVASIONS.--Within 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall, by regulation, establish standards, guidelines, and procedures to prevent evasions, including evasions that result from retiering, of the requirements of this section and shall, thereafter, periodically review and revise such standards, guidelines, and procedures.

(i) SMALL SYSTEM BURDENS.--In developing and prescribing regulations pursuant to this section, the Commission shall design such regulations to reduce the administrative burdens and cost of compliance for cable systems that have 1,000 or fewer subscribers.

(j) RATE REGULATION AGREEMENTS.--During the term of an agreement made before July 1, 1990, by a franchising authority and a cable operator providing for the

regulation of basic cable service rates, where there was not effective competition under Commission rules in effect on that date, nothing in this section (or the regulations thereunder) shall abridge the ability of such franchising authority to regulate rates in accordance with such an agreement.

(k) REPORTS ON AVERAGE PRICES.--The Commission shall annually publish statistical reports on the average rates for basic cable service and other cable programming, and for converter boxes, remote control units, and other equipment, of--

(1) cable systems that the Commission has found are subject to effective competition under subsection (a)(2), compared with

(2) cable systems that the Commission has found are not subject to such effective competition.

(l) DEFINITIONS.--As used in this section--

(1) The term "effective competition" means that--

(A) fewer than 30 percent of the households in the franchise area subscribe to the cable service of a cable system;

(B) the franchise area is--

(i) served by at least two unaffiliated multichannel video programming distributors each of which offers comparable video programming to at least 50 percent of the households in the franchise area; and

(ii) the number of households subscribing to programming services offered by multichannel video programming distributors other than the largest multichannel video programming distributor exceeds 15 percent of the households in the franchise area;

(C) a multichannel video programming distributor operated by the franchising authority for that franchise area offers video programming to at least 50 percent of the households in that franchise area; or

(D) a local exchange carrier or its affiliate (or any multichannel video programming distributor using the facilities of such carrier or its affiliate) offers video programming services directly to subscribers by any means (other than direct-to-home satellite services) in the franchise area of an unaffiliated cable operator which is providing cable service in that franchise area, but only if the video programming services so offered in that area are comparable to the video programming services provided by the unaffiliated cable operator in that area.

(2) The term "cable programming service" means any video programming provided over a cable system, regardless of service tier, including installation or rental of equipment used for the receipt of such video programming, other than (A) video programming carried on the basic service tier, and (B) video programming offered on a per channel or per program basis.

(m) SPECIAL RULES FOR SMALL COMPANIES.--

(1) IN GENERAL.--Subsections (a), (b), and (c) do not apply to a small cable operator with respect to--

(A) cable programming services, or

(B) a basic service tier that was the only service tier subject to regulation as of December 31, 1994,

in any franchise area in which that operator services 50,000 or fewer subscribers.

(2) DEFINITION OF SMALL CABLE OPERATOR.--For purposes of this

subsection, the term "small cable operator" means a cable operator that, directly or through an affiliate, serves in the aggregate fewer than 1 percent of all subscribers in the United States and is not affiliated with any entity or entities whose gross annual revenues in the aggregate exceed \$250,000,000.

(n) TREATMENT OF PRIOR YEAR LOSSES.--Notwithstanding any other provision of this section or of section 612, losses associated with a cable system (including losses associated with the grant or award of a franchise) that were incurred prior to September 4, 1992, with respect to a cable system that is owned and operated by the original franchisee of such system shall not be disallowed, in whole or in part, in the determination of whether the rates for any tier of service or any type of equipment that is subject to regulation under this section are lawful.

#### SEC. 624. [47 U.S.C. 544] REGULATION OF SERVICES, FACILITIES, AND EQUIPMENT.

(a) Any franchising authority may not regulate the services, facilities, and equipment provided by a cable operator except to the extent consistent with this title.

(b) In the case of any franchise granted after the effective date of this title, the franchising authority, to the extent related to the establishment or operation of a cable system--

(1) in its request for proposals for a franchise (including requests for renewal proposals, subject to section 626), may establish requirements for facilities and equipment, but may not, except as provided in subsection (h), establish requirements for video programming or other information services; and

(2) subject to section 625, may enforce any requirements contained within the franchise--

(A) for facilities and equipment; and

(B) for broad categories of video programming or other services.

(c) In the case of any franchise in effect on the effective date of this title, the franchising authority may, subject to section 625, enforce requirements contained within the franchise for the provision of services, facilities, and equipment, whether or not related to the establishment or operation of a cable system.

(d)(1) Nothing in this title shall be construed as prohibiting a franchising authority and a cable operator from specifying, in a franchise or renewal thereof, that certain cable services shall not be provided or shall be provided subject to conditions, if such cable services are obscene or are otherwise unprotected by the Constitution of the United States.

(2) In order to restrict the viewing of programming which is obscene or indecent, upon the request of a subscriber, a cable operator shall provide (by sale or lease) a device by which the subscriber can prohibit viewing of a particular cable service during periods selected by that subscriber.

(3)(A) If a cable operator provides a premium channel without charge to cable subscribers who do not subscribe to such premium channel, the cable operator shall, not later than 30 days before such premium channel is provided without charge--

(i) notify all cable subscribers that the cable operator plans to provide a premium channel without charge;

(ii) notify all cable subscribers when the cable operator plans to offer a premium channel without charge;

(iii) notify all cable subscribers that they have a right to request that the channel carrying the premium channel be blocked; and

(iv) block the channel carrying the premium channel upon the request of a subscriber.

(B) For the purpose of this section, the term "premium channel" shall mean any pay service offered on a per channel or per program basis, which offers movies rated by the Motion Picture Association of America as X, NC-17, or R.

(e) Within one year after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall prescribe regulations which establish minimum technical standards relating to cable systems' technical operation and signal quality. The Commission shall update such standards periodically to reflect improvements in technology. No State or franchising authority may prohibit, condition, or restrict a cable system's use of any type of subscriber equipment or any transmission technology.

(f)(1) Any Federal agency, State, or franchising authority may not impose requirements regarding the provision or content of cable services, except as expressly provided in this title.

(2) Paragraph (1) shall not apply to--

(A) any rule, regulation, or order issued under any Federal law, as such rule, regulation, or order (i) was in effect on September 21, 1983, or (ii) may be amended after such date if the rule, regulation, or order as amended is not inconsistent with the express provisions of this title; and

(B) any rule, regulation, or order under title 17, United States Code.

(g) Notwithstanding any such rule, regulation, or order, each cable operator shall comply with such standards as the Commission shall prescribe to ensure that viewers of video programming on cable systems are afforded the same emergency information as is afforded by the emergency broadcasting system pursuant to Commission regulations in subpart G of part 73, title 47, Code of Federal Regulations.

(h) A franchising authority may require a cable operator to do any one or more of the following:

(1) Provide 30 days' advance written notice of any change in channel assignment or in the video programming service provided over any such channel.

(2) Inform subscribers, via written notice, that comments on programming and channel position changes are being recorded by a designated office of the franchising authority.

(i) Within 120 days after the date of enactment of this subsection, the Commission shall prescribe rules concerning the disposition, after a subscriber to a cable system terminates service, of any cable installed by the cable operator within the premises of such subscriber.

## SEC. 624A. [47 U.S.C. 544a] CONSUMER ELECTRONICS EQUIPMENT COMPATIBILITY.

(a) FINDINGS.--The Congress finds that--

(1) new and recent models of television receivers and video cassette recorders often contain premium features and functions that are disabled or inhibited because of cable scrambling, encoding, or encryption technologies and devices, including converter boxes and remote control devices required by cable operators to receive programming;

(2) if these problems are allowed to persist, consumers will be less likely to

purchase, and electronics equipment manufacturers will be less likely to develop, manufacture, or offer for sale, television receivers and video cassette recorders with new and innovative features and functions;

(3) cable operators should use technologies that will prevent signal thefts while permitting consumers to benefit from such features and functions in such receivers and recorders; and

(4) compatibility among televisions, video cassette recorders, and cable systems can be assured with narrow technical standards that mandate a minimum degree of common design and operation, leaving all features, functions, protocols, and other product and service options for selection through open competition in the market.

(b) COMPATIBLE INTERFACES.--

(1) REPORT; REGULATIONS.--Within 1 year after the date of enactment of this section, the Commission, in consultation with representatives of the cable industry and the consumer electronics industry, shall report to Congress on means of assuring compatibility between televisions and video cassette recorders and cable systems, consistent with the need to prevent theft of cable service, so that cable subscribers will be able to enjoy the full benefit of both the programming available on cable systems and the functions available on their televisions and video cassette recorders. Within 180 days after the date of submission of the report required by this subsection, the Commission shall issue such regulations as are necessary to assure such compatibility.

(2) SCRAMBLING AND ENCRYPTION.--In issuing the regulations referred to in paragraph (1), the Commission shall determine whether and, if so, under what circumstances to permit cable systems to scramble or encrypt signals or to restrict cable systems in the manner in which they encrypt or scramble signals, except that the Commission shall not limit the use of scrambling or encryption technology where the use of such technology does not interfere with the functions of subscribers' television receivers or video cassette recorders.

(c) RULEMAKING REQUIREMENTS.--

(1) FACTORS TO BE CONSIDERED.--In prescribing the regulations required by this section, the Commission shall consider--

(A) the need to maximize open competition in the market for all features, functions, protocols, and other product and service options of converter boxes and other cable converters unrelated to the descrambling or decryption of cable television signals;

(B) the costs and benefits to consumers of imposing compatibility requirements on cable operators and television manufacturers in a manner that, while providing effective protection against theft or unauthorized reception of cable service, will minimize interference with or nullification of the special functions of subscribers' television receivers or video cassette recorders, including functions that permit the subscriber--

(i) to watch a program on one channel while simultaneously using a video cassette recorder to tape a program on another channel;

(ii) to use a video cassette recorder to tape two consecutive programs that appear on different channels; and

(iii) to use advanced television picture generation and display features; and

(C) the need for cable operators to protect the integrity of the signals transmitted by the cable operator against theft or to protect such signals against unauthorized

reception.

(2) Regulations required.--The regulations prescribed by the Commission under this section shall include such regulations as are necessary--

(A) to specify the technical requirements with which a television receiver or video cassette recorder must comply in order to be sold as "cable compatible" or "cable ready";

(B) to require cable operators offering channels whose reception requires a converter box--

(i) to notify subscribers that they may be unable to benefit from the special functions of their television receivers and video cassette recorders, including functions that permit subscribers--

(I) to watch a program on one channel while simultaneously using a video cassette recorder to tape a program on another channel;

(II) to use a video cassette recorder to tape two consecutive programs that appear on different channels; and

(III) to use advanced television picture generation and display features; and

(ii) to the extent technically and economically feasible, to offer subscribers the option of having all other channels delivered directly to the subscribers' television receivers or video cassette recorders without passing through the converter box;

(C) to promote the commercial availability, from cable operators and retail vendors that are not affiliated with cable systems, of converter boxes and of remote control devices compatible with converter boxes;

(D) to ensure that any standards or regulations developed under the authority of this section to ensure compatibility between televisions, video cassette recorders, and cable systems do not affect features, functions, protocols, and other product and service options other than those specified in paragraph (1)(B), including telecommunications interface equipment, home automation communications, and computer network services;

(E) to require a cable operator who offers subscribers the option of renting a remote control unit--

(i) to notify subscribers that they may purchase a commercially available remote control device from any source that sells such devices rather than renting it from the cable operator; and

(ii) to specify the types of remote control units that are compatible with the converter box supplied by the cable operator; and

(F) to prohibit a cable operator from taking any action that prevents or in any way disables the converter box supplied by the cable operator from operating compatibly with commercially available remote control units.

(d) REVIEW OF REGULATIONS.--The Commission shall periodically review and, if necessary, modify the regulations issued pursuant to this section in light of any actions taken in response to such regulations and to reflect improvements and changes in cable systems, television receivers, video cassette recorders, and similar technology.

## SEC. 625. [47 U.S.C. 545] MODIFICATION OF FRANCHISE OBLIGATIONS.

(a)(1) During the period a franchise is in effect, the cable operator may obtain from the

franchising authority modifications of the requirements in such franchise--

(A) in the case of any such requirement for facilities or equipment, including public, educational, or governmental access facilities or equipment, if the cable operator demonstrates that (i) it is commercially impracticable for the operator to comply with such requirement, and (ii) the proposal by the cable operator for modification of such requirement is appropriate because of commercial impracticability; or

(B) in the case of any such requirement for services, if the cable operator demonstrates that the mix, quality, and level of services required by the franchise at the time it was granted will be maintained after such modification.

(2) Any final decision by a franchising authority under this subsection shall be made in a public proceeding. Such decision shall be made within 120 days after receipt of such request by the franchising authority, unless such 120-day period is extended by mutual agreement of the cable operator and the franchising authority.

(b)(1) Any cable operator whose request for modification under subsection (a) has been denied by a final decision of a franchising authority may obtain modification of such franchise requirements pursuant to the provisions of section 635.

(2) In the case of any proposed modification of a requirement for facilities or equipment, the court shall grant such modification only if the cable operator demonstrates to the court that--

(A) it is commercially impracticable for the operator to comply with such requirement; and

(B) the terms of the modification requested are appropriate because of commercial impracticability.

(3) In the case of any proposed modification of a requirement for services, the court shall grant such modification only if the cable operator demonstrates to the court that the mix, quality, and level of services required by the franchise at the time it was granted will be maintained after such modification.

(c) Notwithstanding subsections (a) and (b), a cable operator may, upon 30 days' advance notice to the franchising authority, rearrange, replace, or remove a particular cable service required by the franchise if--

(1) such service is no longer available to the operator; or

(2) such service is available to the operator only upon the payment of a royalty required under section 801(b)(2) of title 17, United States Code, which the cable operator can document--

(A) is substantially in excess of the amount of such payment required on the date of the operator's offer to provide such service, and

(B) has not been specifically compensated for through a rate increase or other adjustment.

(d) Notwithstanding subsections (a) and (b), a cable operator may take such actions to rearrange a particular service from one service tier to another, or otherwise offer the service, if the rates for all of the service tiers involved in such actions are not subject to regulation under section 623.

(e) A cable operator may not obtain modification under this section of any requirement for services relating to public, educational, or governmental access.

(f) For purposes of this section, the term "commercially impracticable" means, with respect to any requirement applicable to a cable operator, that it is commercially impracticable

for the operator to comply with such requirement as a result of a change in conditions which is beyond the control of the operator and the nonoccurrence of which was a basic assumption on which the requirement was based.

SEC. 626. [47 U.S.C. 546] RENEWAL.

(a)(1) A franchising authority may, on its own initiative during the 6-month period which begins with the 36th month before the franchise expiration, commence a proceeding which affords the public in the franchise area appropriate notice and participation for the purpose of (A) identifying the future cable-related community needs and interests, and (B) reviewing the performance of the cable operator under the franchise during the then current franchise term. If the cable operator submits, during such 6-month period, a written renewal notice requesting the commencement of such a proceeding, the franchising authority shall commence such a proceeding not later than 6 months after the date such notice is submitted.

(2) The cable operator may not invoke the renewal procedures set forth in subsections (b) through (g) unless--

(A) such a proceeding is requested by the cable operator by timely submission of such notice; or

(B) such a proceeding is commenced by the franchising authority on its own initiative.

(b)(1) Upon completion of a proceeding under subsection (a), a cable operator seeking renewal of a franchise may, on its own initiative or at the request of a franchising authority, submit a proposal for renewal.

(2) Subject to section 624, any such proposal shall contain such material as the franchising authority may require, including proposals for an upgrade of the cable system.

(3) The franchising authority may establish a date by which such proposal shall be submitted.

(c)(1) Upon submittal by a cable operator of a proposal to the franchising authority for the renewal of a franchise pursuant to subsection (b), the franchising authority shall provide prompt public notice of such proposal and, during the 4-month period which begins on the date of the submission of the cable operator's proposal pursuant to subsection (b), renew the franchise or, issue a preliminary assessment that the franchise should not be renewed and, at the request of the operator or on its own initiative, commence an administrative proceeding, after providing prompt public notice of such proceeding, in accordance with paragraph (2) to consider whether--

(A) the cable operator has substantially complied with the material terms of the existing franchise and with applicable law;

(B) the quality of the operator's service, including signal quality, response to consumer complaints, and billing practices, but without regard to the mix or quality of cable services or other services provided over the system, has been reasonable in light of community needs;

(C) the operator has the financial, legal, and technical ability to provide the services, facilities, and equipment as set forth in the operator's proposal; and

(D) the operator's proposal is reasonable to meet the future cable-related community needs and interests, taking into account the cost of meeting such needs and interests.

(2) In any proceeding under paragraph (1), the cable operator shall be afforded adequate

notice and the cable operator and the franchise authority, or its designee, shall be afforded fair opportunity for full participation, including the right to introduce evidence (including evidence related to issues raised in the proceeding under subsection (a)), to require the production of evidence, and to question witnesses. A transcript shall be made of any such proceeding.

(3) At the completion of a proceeding under this subsection, the franchising authority shall issue a written decision granting or denying the proposal for renewal based upon the record of such proceeding, and transmit a copy of such decision to the cable operator. Such decision shall state the reasons therefor.

(d) Any denial of a proposal for renewal that has been submitted in compliance with subsection (b) shall be based on one or more adverse findings made with respect to the factors described in subparagraphs (A) through (D) of subsection (c)(1), pursuant to the record of the proceeding under subsection (c). A franchising authority may not base a denial of renewal on a failure to substantially comply with the material terms of the franchise under subsection (c)(1)(A) or on events considered under subsection (c)(1)(B) in any case in which a violation of the franchise or the events considered under subsection (c)(1)(B) occur after the effective date of this title unless the franchising authority has provided the operator with notice and the opportunity to cure, or in any case in which it is documented that the franchising authority has waived its right to object, or the cable operator gives written notice of a failure or inability to cure and the franchising authority fails to object within a reasonable time after receipt of such notice.

(e)(1) Any cable operator whose proposal for renewal has been denied by a final decision of a franchising authority made pursuant to this section, or has been adversely affected by a failure of the franchising authority to act in accordance with the procedural requirements of this section, may appeal such final decision or failure pursuant to the provisions of section 635.

(2) The court shall grant appropriate relief if the court finds that--

(A) any action of the franchising authority, other than harmless error, is not in compliance with the procedural requirements of this section; or

(B) in the event of a final decision of the franchising authority denying the renewal proposal, the operator has demonstrated that the adverse finding of the franchising authority with respect to each of the factors described in subparagraphs (A) through (D) of subsection (c)(1) on which the denial is based is not supported by a preponderance of the evidence, based on the record of the proceeding conducted under subsection (c).

(f) Any decision of a franchising authority on a proposal for renewal shall not be considered final unless all administrative review by the State has occurred or the opportunity therefor has lapsed.

(g) For purposes of this section, the term "franchise expiration" means the date of the expiration of the term of the franchise, as provided under the franchise, as it was in effect on the date of the enactment of this title.

(h) Notwithstanding the provisions of subsections (a) through (g) of this section, a cable operator may submit a proposal for the renewal of a franchise pursuant to this subsection at any time, and a franchising authority may, after affording the public adequate notice and opportunity for comment, grant or deny such proposal at any time (including after proceedings pursuant to this section have commenced). The provisions of subsections (a) through (g) of this section shall not apply to a decision to grant or deny a proposal under this subsection. The denial of a renewal pursuant to this subsection shall not affect action on a renewal proposal that

is submitted in accordance with subsections (a) through (g).

(i) Notwithstanding the provisions of subsections (a) through (h), any lawful action to revoke a cable operator's franchise for cause shall not be negated by the subsequent initiation of renewal proceedings by the cable operator under this section.
