

SUMMARY OF NO. 25-03

This proposed law would allow single-family homes to be built in a residentially zoned area as long as the land on which it is to be constructed is at least 5,000 square feet, has at least 50 feet of land bordering the street, road, or public way that it faces, and has access to public sewer and water services.

The proposed law would allow cities and towns to reasonably regulate certain aspects of those single-family homes, including their height, distance from neighboring buildings, open space, parking requirements, and whether they can be rented out on a short-term basis. The proposed law would also allow the Executive Office of Housing and Livable Communities to issue guidance or regulations to administer the proposed law.
