

SUMMARY OF NO. 25-05

This proposed law would require a prospective voter to show photo identification before receiving a ballot at a polling place on Election Day, and would require a voter who votes by mail to include a copy of their photo identification in the inner envelope with their completed ballot. The photo identification would have to be issued by a branch of the United States government, or by the state, or by a tribal authority recognized either by the United States or the state. A prospective voter who does not present such identification at a polling place could vote if they complete an affidavit attesting to their identity, residence, citizenship.

A voter who does not include a copy of such photo identification in the inner envelope with their completed ballot would be permitted to vote if they attest to their identity, residence, and citizenship on an affidavit of compliance.
