

# FIRE OFFICER I CERTIFICATION PRACTICAL EXAMINATION

The candidate will be examined in selected areas as required by NFPA Standard 1021 for Fire Officer I, 2014 edition, to include: General, Human Resource Management, Community and Government Relations, Administration, Inspection and Investigation, Emergency Service Delivery, and Health and Safety. Attached are all potential skills sheets that may be examined of which a sample will be actually evaluated. The candidate must be prepared to demonstrate all skills.

#### Skill stations:

#### FOI-101-HRM-Emergency Incident

 Given a scenario and various NIMS Forms, the candidate will develop for implementation an action plan detailing assignment, organizational structure, response strategies, and a safety message.

#### FOI-102-HRM-Nonemergency Incident

 Given various documents, forms, and supplies, provide a plan to direct a daily apparatus checkout.

#### FOI-103-HRM-Training Direction

 Given a training evolution, the candidate will evaluate the session to determine the knowledge and skill objectives, determine a course of action to meet the requirements, implement the training plan and evaluate the training outcomes.

#### FOI-104-HRM-Personnel Policy

 Given a scenario, the candidate will write a memo to their supervisor identifying and documenting the situation and the actions taken. The memo should make reference to the appropriate policies and procedures and how they were applied by the candidate.

#### FOI-105-CGR-Handling Inquiries

- Given various documents/forms, write a memo to your supervisor detailing the nature of the complaint, detailed information related to the complaint, actions take, and timelines and evaluation strategy to ensure resolution.
- Given various documents/forms, write a letter, to the complainant detailing the actions take and anticipated timeframe for resolution.

#### FOI-106-Administration-Policy Implementation

 Given a scenario concerning a current department policy, the candidate will complete a proposal recommending changes to a current policy or to implement a new policy.

### FOI-107-Inspect & Invest-Fire Inspection

Given an occupancy and a pre-incident survey form, the candidate will complete a pre-incident plan for a selected occupancy.

#### FOI-108-Inspect & Invest- Fire Scene Security

 Given a fire scenario and equipment, candidate will demonstrate securing a scene and identify, in writing, all available information that may be used to identify evidence at the scene of the fire.

#### FOI-109-H&S-Accident Investigation

 Given various documents/forms, the candidate will complete the provided accident investigation and report form.

### FOI-110-Admininstration-Organization Management

 Given various information sources, the candidate will complete an organizational chart outlining the primary operational positions for your organization and create a job description for one operational and one staff position listed on the organizational chart.

### FOI-111-Administration-Budget Request

 Given a scenario, the candidate will complete a budget request with supporting documentation and written justification for each requested item. Also, submit a document outlining the purchasing process for your organization from request to final inspection and acceptance.

#### FOI-112-H&S-Firefighter Wellness

 Given a scenario, the candidate will submit a plan outlining the action items required to reduce exposure to hazards leading to firefighter injury or death.

#### FOI-113-Administration-Incident Reporting

 Given a scenario, the candidate will create a document identifying their organization's mission, primary service goals, and the importance of data collection and reporting.

Skill Sheet No. F O 1-101	Candidate Number

Skill Title: Human Resource Management: Task Assignment – Emergency Incident

NFPA JPR: 4.2.1, 4.6.1, 4.6.2, & 4.6.3 Date: 07-01-2019 Minimum for Passing - 12 points

	TASK STEPS	Points
	Incident Action Plan	
1.	Evaluation of size up information is accurate and effective  a. Building construction classification is accurately identified b. Occupancy is accurately identified c. Required fire flow is accurately calculated d. Fire spread and conditions are considered e. Active fire suppression system(s) are identified f. Three possible incident hazards are identified	
2.	Utilization of resources is reasonable for the incident a. Apparatus assignments is sound and supported b. Apparatus placement considered all actual and potential incident hazards c. Level 1 and Level 2 staging is addressed d. Apparatus numbers can support required fire flow and all other tactical assignments	
3.	An approved Incident Management System is developed and used  a. ICS must consist of the following as a minimum:  i. IC  ii. SO  iii. Operations Chief  iv. Three Branches: Fire, Rescue, EMS  v. Assigned and staged apparatus	
4.	Assignments are accurate and reasonable for the incident	
5.	A written Incident Action Plan is developed  a. Candidate must submit a detailed tactical worksheet or the following NIMS  Forms: 201; 202; 203	
6.	Incident Action Plan is evaluated for effectiveness and back-up options are identified	
7.	Strategies and tactical objectives established for the Incident Action Plan supports the required mitigation needs for the incident	
8.	Assigns company to cordon area designated for safety and fire investigation.	
	Task Assignment	
9.	Assignments are clear, complete and accurate	
10.	Assignments support incident strategies and tactical objectives	
11.	Assignments are evaluated for safety and effectiveness Incident Safety is established	

12.	Assignment outcomes are established and supported Assignment outcomes must include as a minimum:  a. Established water supply b. Supplied FDC c. An established fire attack mode and strategy to support incident priorities (RECEO VS)	
	Post Incident Analysis	
13.	Post Incident Analysis is clear and complete Post Incident Analysis must address the following areas as a minimum: a. Incident strategies b. Incident tactics c. Water supply d. Required vs. actual incident resources e. Utilization of incident resources	
14.	Post Incident Analysis outlines response strengths, weaknesses and lessons learned	
15.	Post Incident Analysis addresses critical data elements necessary to improve services and delivery  a. Resource management, correct resources, enough resources to manage the incident  b. Response, strategies, tactics c. Arrival time, incident control time, return to service time	
16.	Preplan for the incident was examined and utilized for developing the Post Incident Analysis
