

**Commonwealth of Massachusetts Executive Office of Health and Human Services - Welcome to the Flexible Services Program!**

Last Updated: 5/10/2024

**Background on the Flexible Services Program:** MassHealth's Flexible Services Program can help you pay for food and housing. Many of these supports are provided by local organizations in your community. MassHealth calls these organizations Social Service Organizations (SSOs). If you are enrolled in a MassHealth Accountable Care Organization (ACO) and you meet MassHealth rules for the Flexible Services Program, you may be able to get help with food and housing. To receive Flexible Services, you must:

- Be enrolled in a MassHealth ACO;
- Have a health condition such as diabetes or high-risk pregnancy; and
- Have a risk factor such as not having a home, being at risk of losing your home, or having trouble getting enough food or the right kinds of foods to keep you healthy.

If you meet the MassHealth rules for the Flexible Services Program, your ACO may be able to help you get supports. The names of these supports used in the Program Directory are italicized in parentheses next to the service you could receive:

- Help looking for a place to live (this is called *pre-tenancy support*)
- Help with furniture and other items when you move into a new home; for example, a bed or linens (this is called *pre-tenancy transitional assistance*)
- Changes to make the home safe and healthy; for example, putting in grab bars or removing mold (this is called *home modifications*)
- Help learning how to work with your landlord to solve problems (this is called *tenancy-sustaining support*)
- Grocery store coupons for free fruits and vegetables (this is called *food vouchers*)
- Transportation to the grocery store (this can be public or private and is called *transportation*)
- Healthy and well-balanced home-delivered meals (this can be called *food boxes*, *home-delivered meals*, or *Medically Tailored Meals (MTM)*)
- Pots, pans, and cooking utensils (this is called *nutrition kitchen supplies*)

Each ACO offers different goods and services. Please contact your ACO to understand what supports the ACO may offer and to find out if you can receive those supports.

**Instructions:** The next tab, titled CY24 Program Directory, provides a list of each ACO and who to contact to find out more about their programs. It also provides information on the types of programs, who might be able to receive services, where the services are offered, and who provides the services.

**MassHealth Enrollment Guide:** The MassHealth Enrollment Guide matches Massachusetts towns to ACO Service Areas on pages 38 to 44. Visit the guide by clicking the link in cell A2 or copying and pasting this link into your browser: <https://www.mass.gov/doc/masshealth-enrollment-guide-2/download>. The document referred to in cell A3 outlines changes to health plan service areas as of January 1, 2024. In general, the MassHealth Enrollment Guide provides information about the MassHealth Medicaid health plan options as of April 2023 and can help you:

- Learn about the health plans available in your area and how to choose a provider,
- Compare health plans in your area and choose the one that's right for you, and
- Enroll in a health plan or change to a different health plan.
