

MASSACHUSETTS BOARD OF BAR EXAMINERS

FORM 4: PHYSICAL DISABILITY VERIFICATION

Applications for testing accommodations on the basis of a physical disability must include this form, completed by the qualified medical professional(s) involved with the treatment of this disability, and must be accompanied by a **comprehensive evaluation report** from the qualified professional who conducted an individualized assessment of the applicant and is recommending accommodations on the bar examination on the basis of a physical disability. A doctor's note or script is insufficient. If multiple diagnoses are given, the evaluator must demonstrate they are qualified to make all diagnoses.

The provision of reasonable accommodations is based on assessment of the *current* impact of the disability on the specific testing activity.

Recent or Temporary Physical Disabilities: For physical disabilities diagnosed within the last five years, and/or disabilities that are expected to be temporary or improve over time, your medical documentation must be no more than one year old. Please note accommodations on the basis of a temporary disability may be granted on a temporary basis; these accommodations will not necessarily carry forward to a future exam.

Permanent/Long-Term Physical Disabilities: For permanent physical disabilities diagnosed more than five years ago, provide a copy of your most recent medical examination. This may be older than one year, so long as it establishes that your condition is permanent and not expected to improve over time. You may include prior evaluations to demonstrate changes in symptom severity or to establish a baseline.

The evaluation report must include the following:

- Diagnosis
- Diagnostic Procedure(s) – the specific diagnostic criteria, including the date(s) of the evaluation(s), the diagnostic test(s) performed (if applicable), and a detailed interpretation of the test results; relevant educational, developmental, and medical history.
 - If accommodations are being recommended on the basis of a cognitive problem caused by the disability or a medication taken for the disability, psychological testing may be required. The report must establish the specific functional limitations and provide objective test data demonstrating the limitation.
- Functional Limitations – a list of all major life activities affected by the disability, and an explanation of how the impairment substantially limits those major life activities relative to most people. The report must relate the functional limitation to one or more aspects of the bar exam (a description of the exam can be found herein).
- Amelioration of Functional Limitations – a description of current treatments, assistive devices, medications, etc. that ameliorate the impact of the disability.
- Recommendation – a specific, data-based recommendation for test accommodations using objective methods to determine the need for the recommended accommodations. The recommendation should include a detailed explanation of why the specific accommodation is needed and how it will reduce the impact of the functional limitations.
- History of Accommodations – if accommodations were not provided in the past, the report must include a detailed explanation of why they were not provided, and why they are needed now.

NOTICE TO QUALIFIED PROFESSIONAL:

The above-named person is requesting accommodations on the Massachusetts Bar Examination. **All such requests must be supported by a comprehensive evaluation report from the qualified professional who conducted an individualized assessment of the applicant and is recommending accommodations on the Massachusetts Bar Examination on the basis of a physical disability.** The Board of Bar Examiners also requires the qualified professional to complete this form. The provision of reasonable accommodations is based on assessment of the *current* impact of the disability on the specific testing activity. The Board of Bar Examiners may forward this information to one or more qualified professionals for an independent review of the applicant's request. The bar exam is administered twice each year, in February and July.

The first day consists of two performance tests (MPT) in the morning and six essay (MEE) questions in the afternoon. The performance and essay questions are designed to assess, among other things, the applicant's ability to communicate their analysis effectively in writing. Questions are provided in hard-copy booklets, and applicants may handwrite or use their personal laptop computers to record their answers.

The second day consists of 200 multiple-choice questions (MBE), with 100 questions administered in the morning session and 100 questions in the afternoon session. Questions are provided in hard-copy booklets, and applicants record their answers by completing a scantron form.

Applicants are seated at a space pre-assigned by the Board of Bar Examiners. They are allowed to have water at their testing space. Other items requested require approval as accommodations. The examination is administered in-person. Applicants are required to refrain from speaking and are allowed to use small foam earplugs. They may leave their seat only to use the restroom and must notify the proctor that they are doing so. Applicants are monitored by trained proctors.
