DRAFT WATERWAYS REGULATIONS PUBLIC COMMENTS
COMMENT PERIOD ENDING AUGUST 6, 2021

STANDARDIZED COMMENT EMAIL 1

I care about the future of Boston's waterfront and applaud the Superior Court ruling that invalidated parts of the Downtown Waterfront Municipal Harbor Plan. MassDEP must protect the public's rights in tidelands by examining projects individually to ensure they offer adequate public benefits and promote access to and enjoyment of the waterfront. This MHP disregards these priorities, authorizing excessive height on two key waterfront sites and associated wind, shadow, and other impacts that will permanently harm the public's experience.

I write to request that MassDEP remove the Downtown Waterfront MHP from its proposed amendments to 310 CMR 9.00. Reinstating this MHP would be a step backwards in combating climate change and systemic challenges like inequality and exclusion. Following a flawed plan like the now defunct Downtown Waterfront MHP, created by a process that few would consider inclusive or responsive to community concerns, will only lead to even more extreme failures. The future of Boston's waterfront will depend on being intentional in our actions and advancing a district-wide vision for an accessible, climate resilient, and inclusive waterfront.

Boston's mayoral candidates expressed concern over the MHP and the projects it authorizes. Now a majority of Boston voters want the next Mayor to keep parks and open spaces available for all along the waterfront. Why is the state looking to reinstating this failed plan?

Whether it's rising tides or rising levels of inequality, our city and Commonwealth cannot afford to let these challenges linger by rubber stamping a status quo that has failed too many people and places already. At this inflection point, we have a rare second chance to get it right — an opportunity to create a world-class place for our city by advancing an active Downtown Waterfront for all that aligns with the mandate of Ch.91.

The Downtown Waterfront MHP does not further these goals. I urge you to remove it from the proposed regulations.

DRAFT WATERWAYS REGULATIONS PUBLIC COMMENTS
PUBLIC COMMENT PERIOD ENDING AUGUST 6, 2021

STANDARDIZED COMMENT EMAIL 2

I am writing to offer my support for MassDEP's proposed amendments to 310 CMR 9.00 and to endorse the confirmation of each of the seventeen existing municipal harbor plans, including Boston's Downtown Waterfront MHP.

I recognize and applaud that, for over thirty years, municipal harbor planning has been a critical mechanism for Massachusetts cities and towns to promote public access to – and activation of – the waterfront in a manner consistent with the unique character of the local harbor.

The Downtown Waterfront MHP is no exception. As the product of five years of planning, across more than forty public meetings starting in 2013, the plan is the result of an exceptionally inclusive and comprehensive process and reflects the character of its location at the economic and transit core of the region.

There is urgency to take action on Boston's Downtown Waterfront. To remove the MHP from the proposed regulations would erase eight years of planning and progress, and I urge you to confirm the plan along with the other sixteen Approved Municipal Harbor Plans across the Bay State.

STANDARDIZED COMMENT EMAIL 3

Dear Commissioner Suuberg,

I have heard that Mass DEP's proposition to include municipal harbor plans in the regulations for Chapter 91 includes the Downtown Municipal Harbor Plan for Boston. I am asking as a Boston resident that you remove the Downtown Municipal Harbor Plan from the proposed regulations to ensure that Chapter 91 continues to prioritize the needs of the public, not the concerns of the politically connected. The process that led to the development of the Downtown Municipal Harbor Plan was flawed and deserves a redo.

In my opinion, every Municipal Harbor Plan should create an areawide vision for the waterfront that provides substantial public benefits. The Downtown Municipal Harbor Plan does not accomplish this. Instead, it establishes a precedent that if a developer pays enough money to the State, they can build whatever they want on the waterfront.

It is very important to me that our waterfront remains a public resource that is accessible to all, not walled off by development that is built by the politically connected.

Please do everything you can to keep Boston's world-class waterfront accessible to all, now and for future generations. I respectfully request that you remove the substitutions for the Downtown Municipal Harbor Plan from the proposed regulations.

Thank you,
