To Whom It May Concern,

Please follow through on passing the updated pending version of 522 CMR Board of Boiler Rules into Law. This has been long overdue and as a Certified Pressure Vessel Inspector in Mass it would be an invaluable tool. A great deal of time and effort has already been spent by many hardworking knowledgeable people to bring these Rules up to date and this is a chance we should not miss. Also consideration should be given to removing outdoor refrigeration / AC systems from annual inspections as they are not covered by ASHRAE Std 15 standards as are indoor units and as such pose no threat to the Public.

Thank You
Frank Palasz
