Shared Living Services (3150 / 3752)
FY27 Rate Implementation

October 27, 2026

On October 9, 2026, the Executive Office of Health and Human Services (EOHHS) promulgated updates to *101 CMR 411.00: Rates for Certain Placement, Support, and Shared Living Services*. These rate updates are also reflected in the FY27 Regulated Rate Table posted on the DDS website. Rate changes are effective July 1, 2026.

Rate Implementation Process

Over the coming weeks, DDS will compute new contract billing rates with retroactive applicability to July 1, 2026. Billing Rate reports will be shared with providers showing the updated rates and new blended rate computation. DDS will enter new billing rates in EIM and process retroactive payments to reimburse for the difference between the current billing rate and the new billing rate for all attendance that has already been paid since July 1, 2026. All new attendance will be paid at the new billing rate. If providers have draft Service Delivery Reports (SDRs) in EIM, they will need to be deleted and re-entered once DDS has entered the new billing rate.

At this time, DDS will not process Service Summary Form amendments or increase the maximum obligation of contracts. DDS will publish additional information when amendments to Shared Living contracts are to be submitted by providers.
