2017

Welcome to DCR's Maudslay State Park

A scenic estate, Maudslay offers sweeping views of two rivers, formal gardens, an abundance of ornamental trees and an abundance of treebeds, arbors and manicured lawns. In 1996, 400 acres of park land previously used for hiking and biking and horseback riding.

Maudslay is part of the Massachusetts state park system and is managed by the Massachusetts Department of Conservation and Recreation (DCR), an agency of the Executive Office of Energy and Environmental Affairs. DCR oversees 650,000 acres of parks, forests, beaches, bike trails, watersheds, and dams. Its mission is to protect, promote, and enhance the state's natural, cultural, and recreational resources. To learn about DCR and to discover more parks and recreational opportunities within the Massachusetts state parks, visit www.mass.gov/dcr.

♥ Designated by a heart symbol, Healthy Start Trails are pathways or trails used for hiking or walking that are easy to moderate in activity level and intended for routine use to help build a healthy heart.

TRAIL USE GUIDELINES AT MAUDSLAY
