## Independent Auditors' Report

The Board of Trustees  
Massachusetts Water Pollution Abatement Trust:

We have audited the accompanying financial statements of the Massachusetts Water Pollution Abatement Trust (the Trust), a component unit of the Commonwealth of Massachusetts, as of and for the years ended June 30, 2011 and 2010, as listed in the table of contents. These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Massachusetts Water Pollution Abatement Trust as of June 30, 2011 and 2010, and the changes in its financial position and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

The Management's Discussion and Analysis on pages 2 through 8 is not a required part of the basic financial statements but is supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued our report, dated October 28, 2011, on our consideration of the Trust's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Management's Discussion and Analysis – Required Supplementary Information

June 30, 2011 and 2010

**Introduction**

The Massachusetts Water Pollution Abatement Trust (the Trust) is a public instrumentality of the Commonwealth of Massachusetts (the Commonwealth). It was established in 1989 to administer the Massachusetts Water Pollution Abatement Revolving Fund pursuant to Title VI of the Federal Clean Water Act. Its enabling statute, Chapter 29C of the Massachusetts General Laws, was amended in 1998 to provide that the Trust would also administer the provisions of Title XIV of the Federal Safe Drinking Water Act establishing the Drinking Water State Revolving Fund.

The Trust's Clean Water State Revolving Fund (SRF) and the Drinking Water State Revolving Fund programs were established to accept federal grants and required Commonwealth matching funds in an amount equal to approximately 20% of the federal grants. The Trust applies for such grants and state matching funds and other monies available to the Trust to reduce financing costs for its borrowers by establishing reserve funds to secure the Trust's bonds issued to fund such projects, and by applying investment earnings on such reserve funds to pay a portion of the debt service on the related bonds, thereby reducing the borrowers' loan repayment obligations.

Subsidized financing has been an important incentive for many communities to undertake water and sewer infrastructure improvement projects. Since the enactment of Chapter 95 of the Acts of 1995 of the Commonwealth, the Trust has been the Commonwealth's primary program to finance such improvements. The Trust provides funding to communities through low-interest loan programs. The rate for Trust loans is set by statute at 2%, although projects approved prior to 2002 may qualify for a lower rate.

The Clean Water SRF provides low cost financing to eligible borrowers for projects that reduce, eliminate, or prevent water pollution. Examples of Clean Water SRF projects include construction of new wastewater treatment facilities, upgrades to existing facilities, infiltration/inflow correction, wastewater collection systems, and nonpoint source pollution abatement projects such as landfill capping, community programs for upgrading septic systems (Title 5), brownfield remediation, pollution prevention, and stormwater remediation.

The Drinking Water SRF provides low cost financing to publicly and privately owned community water system projects that provide safe, affordable drinking water. Examples of Drinking Water SRF projects include new and upgraded drinking water treatment facilities; projects to replace contaminated sources, new water treatment, or storage facilities; consolidation or restructuring of water systems; projects and system activities that provide treatment, or effective alternatives to treatment for compliance with regulated health standards such as the Surface Water Treatment Rule; and installation or replacement of transmission or distribution systems.

The Clean Water and Drinking Water SRF programs are administered by the Trust in partnership with the Massachusetts Department of Environmental Protection (DEP). DEP manages project development and approval while the Trust manages the flow of funds to the communities. As the loans are repaid, the funds "revolve" and become available for new projects.

The Trust issues revenue bonds (SRF Bonds) in order to fund communities' construction projects under the Clean Water and Drinking Water programs. The SRF Bonds are secured by reserve funds funded by the SRF program funds, and are payable from borrower loan repayments, reserve fund earnings and payments made by the Commonwealth to the Trust on behalf of the borrowers.

Management's Discussion and Analysis – Required Supplementary Information

June 30, 2011 and 2010

**Financial Highlights – Fiscal Year 2011**

- At the close of fiscal year 2011, assets exceed liabilities by \$1.9 billion consistent with fiscal year 2010. Included in this number are long-term loans receivable, which increased to \$3.4 billion from \$3.1 billion, long-term investments (primarily reserve fund investments), which increased to \$1.5 billion from \$1.4 billion, offsetting long-term debt, which increased to \$3.5 billion from \$3.2 billion.
- Total assets and deferred outflow increased \$373.7 million from last year to \$5.8 billion, an increase of 6.9%.
- In July 2010 the Trust issued Series 15 bonds in the amount of \$444.5 million consisting of \$191.9 million State Revolving Fund Bonds, Subseries 15A and \$252.6 million State Revolving Fund Bonds Subseries 15B. These monies were used to finance water pollution abatement and drinking water projects in 85 communities. The Subseries 15B bonds are federally taxable as they are part of the Build America Bonds (BABs) program that is part of the American Recovery and Reinvestment Act of 2009 (ARRA). As part of the program, the Trust will receive a cash subsidy of 35% for interest from the federal government instead of tax credits accruing to purchasers of the bonds.
- The Trust refunded \$46.2 million of New Bedford 1998A revenue bonds by issuing its 2010A Refunding Bonds in July 2010.
- For FY 2011, the Trust recorded an operating loss of \$65.6 million as compared to an operating loss of \$102.5 million in FY 2010. The primary reason for the operating losses in each year was the establishment of reserves for anticipated future principal forgiveness associated with the disbursement of ARRA funds, in the amounts of \$71.0 million and \$89.6 million, respectively. In fiscal year 2009, the Trust received ARRA capitalization grants of \$133.1 million and \$52.2 million for the Clean Water and Drinking Water SRF programs, respectively. These ARRA grants required that no less than 50% of the funds be provided as additional subsidization in the form of principal forgiveness, grants or negative interest loans. The Trust committed all of its ARRA project funds to additional subsidization in the form of principal forgiveness.
- The statement of cash flows indicates an increase in cash for the year of \$43.8 million.
- In FY 2011, the Trust continued to receive Capitalization Grants from the Environmental Protection Agency (EPA) for both the Clean Water and Drinking Water programs. The Trust received \$69.2 million from the Clean Water Program and received \$25.3 million in the Drinking Water Program. The Commonwealth provided a match of \$18.9 million for these federally funded programs. The continued capitalization of the Trust, combined with the Trust's access to the bond market, has allowed the Trust to provide funding to all qualified borrowers.
- The Trust maintains the highest ratings of "Aaa," "AAA," and "AAA" from Moody's S&P, and Fitch rating agencies, respectively, on its recently issued bonds, allowing the Trust to continue to provide low cost funding to communities in the Commonwealth.

**Financial Highlights – Fiscal Year 2010**

- At the close of fiscal year 2010, assets exceed liabilities by \$1.9 billion, a 4.2% increase over the close of fiscal year 2009. Included in this number are long-term loans receivable, which decreased from \$3.3 billion

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**

June 30, 2011 and 2010

to \$3.1 billion, long-term investments (primarily, reserve fund investments), which decreased from \$1.5 billion to \$1.4 billion, offsetting long-term debt, which decreased from \$3.4 billion to \$3.2 billion.

- Total assets and deferred outflows decreased by \$347.5 million from last year to \$5.4 billion, a decrease of 6.1%.
- For FY 2010, the Trust recorded an operating loss of \$102.5 million as compared to operating income of \$2.2 million in FY 2009. The primary reason for the operating loss was the establishment of a reserve for anticipated future principal forgiveness in the amount of \$89.6 million associated with the disbursement of its ARRA funds. In fiscal year 2009, the Trust received ARRA capitalization grants of \$133.1 million and \$52.2 million for the Clean Water and Drinking Water SRF programs, respectively. These ARRA grants required that no less than 50% of the funds be provided as additional subsidization in the form of principal forgiveness, grants, or negative interest loans. The Trust committed all of its ARRA project funds to additional subsidization in the form of principal forgiveness.
- The statement of cash flows indicates a decrease in cash for the year of \$14.6 million.
- In FY 2010, the Trust continued to receive Capitalization Grants from the EPA for both the Clean Water and Drinking Water programs. The Trust received \$23.1 million from the Clean Water Program and received \$21.8 million in the Drinking Water Program. The Commonwealth provided a match of \$9.0 million for these federally funded programs. The continued capitalization of the Trust, combined with the Trust's access to the bond market, has allowed the Trust to provide funding to all qualified borrowers.
- The Trust maintains the highest ratings of "Aaa," "AAA," and "AAA" from Moody's S&P, and Fitch rating agencies, respectively, on its recently issued bonds, allowing the Trust to continue to provide low cost funding to communities in the Commonwealth.
- The Trust refunded \$185.3 million of Massachusetts Water Resources Authority (MWRA) 1999A revenue bonds and \$31.4 million of the Pool Program Bonds, Series 12. The Trust redeemed \$3.3 million of Pool Program Bonds, Series 3 and \$1.9 million of MWRA 1995A revenue bonds.

**Overview of Financial Statements**

The financial section of this report consists of the following parts: management's discussion and analysis (this section), the basic financial statements, and the notes to the financial statements.

The Trust's financial statements are prepared in conformity with U.S. generally accepted accounting principles as applied to government enterprise funds. Under this method of accounting, an economic resources measurement focus and an accrual basis of accounting are used. Revenue is recorded when earned, and expenses are recorded when incurred. The basic financial statements include statements of net assets, statements of revenues, expenses, and changes in net assets, and statements of cash flows. This report also includes notes accompanying the financial statements to fully explain the activities reported in them.

The statements of net assets present information on the assets and liabilities of the Trust. The difference between the two is net assets. Over time, increases and decreases in net assets may be an indicator of the strength or deterioration of the financial health of the Trust.

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**

(A Component Unit of the Commonwealth of Massachusetts)

Management's Discussion and Analysis – Required Supplementary Information

June 30, 2011 and 2010

The statements of revenues, expenses, and changes in net assets report the operating revenues and expenses and the nonoperating revenues and expenses of the Trust for the fiscal year. The difference – increase or decrease in net assets – then determines the net change in assets for the fiscal year. This change in net assets added to last year's net assets will reconcile to the total net assets for this fiscal year.

The statements of cash flows report activity of cash and cash equivalents during the fiscal year resulting from operating activities, noncapital financing activities, and investing activities. The net result of these activities is reconciled to the cash and cash equivalent balances reported at the end of the fiscal year. These statements are prepared using the direct method of presentation, which allows the reader to easily discern the amount of cash received from grantors, borrowers, and financial institutions, and how much cash was disbursed to borrowers, suppliers, and bondholders.

POLLUTION ABATEMENT TRUST**

(A Component Unit of the Commonwealth of Massachusetts)

Management's Discussion and Analysis – Required Supplementary Information

June 30, 2011 and 2010

***Net Assets***

The Trust's net assets at June 30, 2011 and 2010 were approximately \$1.9 billion. Total assets and deferred outflow increased 6.9% to \$5.8 billion, and total liabilities and deferred inflow increased 10.0% to \$3.9 billion. The increases in both assets and liabilities are principally attributed to the Trust issuing in July 2010, its Series 15 bonds and related loans from these bond proceeds and 2010 Refunding bonds.

The Trust's net assets of \$1.9 billion at June 30, 2010 increased 4.2% over the prior year. Total assets and deferred outflow decreased 6.1% to \$5.4 billion, and total liabilities and deferred inflow decreased 10.8% to \$3.5 billion. The decreases in both assets and liabilities are primarily attributed to the Trust not issuing bonds in fiscal year 2010 while fiscal year 2009 includes the Series 14 bond deal. The decrease in assets reflects loan repayments while the decrease in liabilities reflects the retirement of \$185.3 million of MWRA 1999A revenue bonds and \$31.4 million of Pool Program Bonds, Series 12 as well as regular annual amortization of Trust issued bonds.

***Bonds Payable***

The Trust issues revenue bonds (SRF Bonds) in order to fund communities' construction projects under the Clean Water and Drinking Water programs. The SRF Bonds are secured by reserve funds funded by the SRF program funds, and are payable from borrower loan repayments, reserve fund earnings, and payments made by the Commonwealth to the Trust on behalf of the borrowers.

The following is a summary of bonds payable at June 30, 2011, 2010 and 2009 (in thousands). More detailed information can be found in note 6 to the financial statements.

	<u>2011</u>	<u>2010</u>	<u>2009</u>

Total operating expenses	266,768	278,199	192,139	(4.1)	44.8
Operating (loss) income	(65,622)	(102,479)	2,220	36.0	(4,716.2)
U.S. Environmental Protection Agency capitalization grants	82,089	178,096	85,782	(53.9)	107.6
Commonwealth of Massachusetts matching grants	5,961	—	17,966	100.0	(100.0)
Total nonoperating revenues	88,050	178,096	103,748	(50.6)	71.7
Increase in net assets	22,428	75,617	105,968	(70.3)	(28.6)
Net assets, beginning of year	1,882,730	1,807,113	1,701,145	4.2	6.2
Net assets, end of year	\$ 1,905,158	1,882,730	1,807,113	1.2%	4.2%

**Results of Operations**

For FY 2011, the Trust recorded an operating loss of \$65.6 million as compared to an operating loss of \$102.5 million in FY 2010. The primary reason for each of the operating losses was the establishment of reserves for anticipated future principal forgiveness associated with the disbursement of ARRA funds in the amounts of \$71.0 million and \$89.6 million for FY 2011 and FY 2010, respectively. Other significant factors contributing to the operating losses are DEP programmatic support costs of \$10.5 million and \$12.2 million, respectively, which are program administrative costs funded by 4.0% of the capitalization grant. The capitalization grant revenues funding both the principal forgiveness and the programmatic support costs are classified as nonoperating revenue.

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**

(A Component Unit of the Commonwealth of Massachusetts)

Management's Discussion and Analysis – Required Supplementary Information

June 30, 2011 and 2010

The \$90.0 million, or 50.6%, decrease in nonoperating revenue in FY 2011 reflects the nonrecurring ARRA capitalization grant revenue of \$139.0 million that was recognized in FY 2010 offset by a \$48.9 million increase in the annual Clean Water and Drinking Water federal capitalization grants revenue and the related state matching grant. Revenue is recognized based on the funding availability schedule contained in the grant. For more information on grant revenue, refer to note 4.

Nonoperating revenue increased \$74.3 million, or 71.7%, in FY 2010 principally due to the recognition of ARRA capitalization grant revenue of \$139.0 million in FY 2010 compared to \$46.3 million in FY 2009. The total ARRA capitalization grant received was \$185.3 million. Revenue is recognized based on the funding availability schedule contained in the grant.

**Future Economic Factors**

In August 2008, the Commonwealth enacted Chapter 312 of the Acts of 2008 of the Commonwealth, which will provide up to \$75 million in matching funds to the Clean Water (CW) and Drinking Water (DW) programs. The Trust estimates this amount to be sufficient to meet its need for the next five years. For the federal fiscal years, 2011 and 2010 Clean Water grants, the Trust has applied approximately \$4.6 million and \$9.9 million, respectively, in funds previously deposited in the federal CW State Revolving Fund as credit toward the current year state match.

**Requests for Information**

This financial report is intended to provide an overview of the financial picture of the Massachusetts Water Pollution Abatement Trust. Any further questions regarding any of the information contained within this report may be directed to the Executive Director or the Chief Accounting Officer at 3 Center Plaza, Suite 430, Boston, MA 02108.

During fiscal year 2011, the Trust issued bonds to refund New Bedford 1998A debt. The \$41,990 bond proceeds were deposited immediately into irrevocable trust funds for the defeasance of \$46,195 of outstanding bond principal.

During fiscal year 2010, the Trust issued bonds to refund MWRA 1999A debt and Series 12 debt. The \$222,160 bond proceeds were deposited immediately into irrevocable trust funds for the defeasance of \$196,110 of outstanding bond principal and a swap termination fee of \$15,990.

See accompanying notes to financial statements.

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**  
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2011 and 2010

**(1) General**

**(a) *Organization***

The Massachusetts Water Pollution Abatement Trust (the Trust), is a component unit of the Commonwealth of Massachusetts (the Commonwealth). The Trust was created by Chapter 275 of the Acts of 1989, and is governed by Chapter 29C of the Massachusetts General Laws. Pursuant to an Operating Agreement between the United States Environmental Protection Agency (EPA), the Massachusetts Department of Environmental Protection (DEP), and the Trust, executed in 1993 and subsequently amended, the Trust administers the Commonwealth's Clean Water and Drinking Water State Revolving Fund (SRF) programs.

Financial and management activities of the Trust are administered by employees of the Trust who fall under the Office of the State Treasurer. Project evaluation, selection, and oversight are provided by DEP employees.

The Trust is governed by a three-member board of trustees chaired by the State Treasurer and composed of the Secretary for Administration and Finance and the Commissioner of DEP.

**(b) *Description of Business***

The SRF programs, which were authorized by federal legislation – the Water Quality Act of 1987 for the Clean Water SRF and the Safe Drinking Water Act of 1996 for the Drinking Water SRF – provide low-cost financing to cities, towns, and other eligible borrowers primarily for the construction and improvement of drinking water and wastewater infrastructure. The Trust's SRF program's primary activities include providing low-cost financing for eligible projects funded by the issuance of debt in the capital markets, providing low cost interim financing for its borrowers, the investment of program funds, and the management and coordination of the programs.

SRF program capitalization grants are issued from the EPA to the Trust, for which the Commonwealth is required to provide 20% in matching funds. The Trust applies such grants and state matching funds and other monies available to the Trust to reduce financing costs by establishing reserve funds to secure the Trust's bonds issued to fund such projects, and by applying investment earnings on such reserve funds to pay a portion of the debt service on the related bonds.

The SRF programs are called the State Revolving Fund programs because as borrowers pay down the principal balances of their loans and as the Trust pays principal on its SRF bonds, proportional amounts are released from the reserves pledged to secure the related SRF bonds. These funds come back to the Trust and "revolve" or are used to establish new reserve funds for new SRF bonds or for other eligible purposes.

Funds pertaining to the SRF programs are limited to specific uses by laws and regulations as well as Grant and Operating Agreements entered into between EPA and the Commonwealth. As a result of these limitations on uses, these funds are classified as restricted on the statements of net assets.

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**  
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2011 and 2010

**(2) Summary of Significant Accounting Policies**

The accounting policies of the Trust conform to U.S. generally accepted accounting principles (GAAP) as applicable to government enterprises. The following is a summary of the Trust's significant accounting policies:

**(a) Basis of Presentation**

The Trust's financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting as specified by the Governmental Accounting Standards Board's (GASB) requirements for an enterprise fund. Under GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, the Trust has elected to apply all Financial Accounting Standards Board Statements and Interpretations issued on or before November 30, 1989, except those that conflict with or contradict GASB pronouncements. The more significant account policies are described below.

**(b) Revenue Recognition**

Operating revenues and expenses are generated through the issuance of loans to local government units within the Commonwealth. All other revenues and expenses are reported as nonoperating revenues and expenses.

Funding from federal capitalization grants and state matching grants are recorded as nonoperating revenue. Federal capitalization revenue is recognized in accordance with funding availability schedules contained within the individual grant agreements. Revenue recognition associated with these grants is based on the standard principles of eligibility, including timing requirements, and availability.

In June 2009, the Trust received additional federal capitalization grants under the American Recovery and Reinvestment Act of 2009 (ARRA). The ARRA grant required that no less than 50% of the funds be provided as additional subsidization in the form of principal forgiveness, grants, or negative interest loans. The Trust provided the additional subsidization in the form of principal forgiveness, which has been recorded as an operating expense.

**(c) Cash and Cash Equivalents**

The Trust's policy is to treat all highly liquid investments with original maturities of three months or less as cash and cash equivalents.

**(d) Investments**

The Trust's investment guidelines permit investment of funds in obligations of, or guaranteed by, the United States of America or the short-term external investment pool, the Massachusetts Municipal Depository Trust (MMDT), managed by the Commonwealth, as well as in time-deposits, guaranteed investment contracts, repurchase agreements, and other permitted investments such as qualified municipal obligations.

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**  
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2011 and 2010

Investments are carried at amortized cost. The guaranteed investment contracts (GICs) are considered nonparticipating investment contracts and therefore are recorded at cost.

Under the Massachusetts Water Pollution Abatement Trust Program Resolutions and bond resolutions entered into in connection with the issuance of bonds by the Trust (the Resolutions), the Trust must maintain certain investment funds in the SRF programs. The types of funds held by the Trustees are in the following accounts:

*Equity Accounts* – The equity accounts consist of cash and cash equivalents that are currently invested in MMDT. The equity accounts comprise both a federal program account and a state account and can be used for programmatic costs and operating expenses within the SRF programs. These funds are derived from: (1) funds drawn by the Trust from federal capitalization grants and Commonwealth matching funds; (2) other amounts paid to the Trust representing financial assistance provided pursuant to the Act for purposes of deposit in the SRF programs; (3) other amounts appropriated to the Trust by the Commonwealth for purposes of the SRF programs; (4) direct loan repayment; (5) interest earnings on investments or deposits of amounts held in the equity accounts; and (6) amounts transferred from the Debt Service Reserve Fund as a result of loan repayments in accordance with the provisions specified in the Resolutions.

*Interim Loan Accounts* – The interim loan accounts have been established to fund temporary loans in anticipation of permanent leveraged borrowings. The source of funds is the equity accounts.

*Project Accounts* – The project accounts disburse bond proceeds to borrowers as needed. These funds are restricted by the bond resolutions and are to be applied solely to the payment or refinancing of costs associated with the applicable project. When all costs have been paid, any amounts remaining unexpended in the project accounts will normally be applied to the repayment of the applicable borrower's principal.

*Debt Service Reserve Accounts* – Debt service reserve accounts consist of reserves established as security to bonds issued by the Trust. The amount deposited in each debt service reserve account is determined at the time of the issuance of the bonds, and has varied from 33% to 50% of the par amount of the bonds issued. Debt Service Reserve Funds are funded from cash, and deposits are transferred from the equity accounts. Interest earnings on the debt service reserve accounts are used for debt service payments.

*Debt Service Accounts* – Debt service accounts are used as a pass-through of principal and interest to the bondholders. The debt service accounts are also used to hold accrued interest on the bonds to be applied to pay a portion of the interest due on the bonds.

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**  
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2011 and 2010

**(e) *Loan Origination Fees and Costs of Issuance***

The Trust requires payment of loan origination fees at the time of the first debt service payment. Costs of issuance related to the bonds are then offset against the amount of loan origination fees charged to borrowers. Remaining costs of issuance, if any, are recorded in other assets in the accompanying statements of net assets and are amortized over the life of the bonds.

Costs of issuance relating to the issuance of refunding bonds are amortized over the life of the bonds.

Prior to FY 2007, fees received and certain direct costs incurred, relating to the origination of loans, have been deferred and are included with loans receivable in the accompanying statements of net assets and are amortized over the life of the loans.

**(f) *Risk Financing***

The Trust is not insured for casualty, theft, tort claims, or other losses. No amounts have been accrued for such losses as they are not considered material. As discussed in note 1, all financial, management, and project oversight activities are provided by employees of the State Treasurer's Office, DEP, and the Executive Office for Administration and Finance. These employees are covered under the Commonwealth's existing employee benefit programs. The cost of these programs is allocated to the Trust, through a fringe benefit allocation. Costs in excess of this amount are borne by the Commonwealth. As a result, no liabilities for employee-related activities have been recorded by the Trust.

**(g) *Other Assets and Other Liabilities***

Other assets consist principally of the unamortized portion of bond issue costs, which are amortized using the straight-line method over the life of the bonds. Other assets also includes a \$2,456 asset from derivative instruments at June 30, 2011.

Other current liabilities balance at June 30, 2010, consists principally of advance bond proceeds received June 29, 2010 as a "good faith" deposit in anticipation of the Series 15 bonds issuance in early July.

**(h) *Bond Premium***

Bond premium, included in long-term debt, is amortized over the life of the associated bond issue.

**(i) *Use of Estimates***

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**  
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2011 and 2010

**(j) Derivatives**

During 2010, the Trust implemented GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*. This statement requires that derivative instruments be reported as assets or liabilities at fair value on the statement of net assets. Changes in fair value may be reported in the statement of revenue, expenses, and changes in net assets, or as deferred inflows or outflows in the statement of net assets in accordance with Government Concept Statement No. 4, *Elements of Financial Statements*, depending on whether the derivative instrument qualifies for hedge accounting.

**(k) Reclassifications**

Certain reclassifications have been made to the FY 2010 balances to conform to the presentation used in FY 2011.

**(3) Deposits and Investments**

The Trust complies with GASB Statement No. 40, *Deposit and Investment Risk Disclosures*. Cash, cash equivalents, and investments are separately held by several of the Trust's funds.

**(a) Cash and Cash Equivalents**

The Trust's cash and cash equivalents consist of the equity accounts previously discussed in note 2 as well as project funds that have not yet been disbursed. The project funds are held by the Trustees and disbursed in accordance with executed loan agreements. A small portion of the cash and cash equivalents is held to pay the administrative costs of the Trust.

Cash and cash equivalents include investments in the MMDT. For purposes of risk categorization, MMDT shares are not categorized. The fair value of the Trust's position in MMDT is at unit value.

*Custodial Credit Risk* – Custodial credit risk is the risk that, in the event of a bank failure, the Trust's deposits may not be returned to it. Cash balances represent amounts held in bank depository accounts that may be subject to custodial credit risk. The Trust had no significant amount of cash on deposit with banks at June 30, 2011 and 2010.

**(b) Investments**

*Custodial Credit Risk – Investments* – Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty, the Trust will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The Trust requires that all investment agreements be collateralized either upon execution of such agreement or upon the happening of certain events, and at all times thereafter, by securities or other obligations issued or guaranteed by the United States, by certain federal agencies or corporations or, in some cases, by corporate or municipal issuers rated "AAA" by Standard & Poor's and "Aaa" by Moody's, having a market value of not less than 102% of the amount currently on deposit or in accordance with their respective agreement.

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**  
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2011 and 2010

*Credit Risk* – The majority of the Trust’s investments are in Guaranteed Investment Contracts (GICs) or in Treasury or agency securities. The Treasury and agency securities are all backed by the federal government. The GICs either have collateral requirements in place upon execution of the investment agreement, or have triggered collateral requirements under which, upon a rating downgrade below a specified level, the counterparty is typically required to do one of three actions: 1) post collateral to a level sufficient to maintain an AA rating, 2) assign the investment contract to a new counterparty that has at least a AA rating, or 3) provide credit enhancement to maintain a rating on the investment contract of at least AA.

*Interest Rate Risk* – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the Trust’s investments. The Trust limits its exposure to interest rate risk by entering into guaranteed investment contracts and federally guaranteed fixed income securities for all of its long-term investments upon which the Trust relies to meet its obligations.

The value and maturities of the Trust’s investments are presented below (in thousands):

Investment type	2010	2011	Investment maturities (in years)			
			Less than 1	1 to 5	6 to 10	More than 10
Debt securities:						
Guaranteed investment contracts	\$ 1,270,202	1,174,074	109,089	368,173	344,599	352,212
U.S. Treasuries – federally guaranteed	162,956	333,431	14,663	79,897	81,778	208,975
Cash equivalents:						
Massachusetts Municipal Depository Trust (MMDT)	221,941	305,323	305,323	—	—	—
Total investments \$	<u>1,655,099</u>	<u>1,812,828</u>	<u>429,075</u>	<u>448,070</u>	<u>426,377</u>	<u>561,187</u>

*Concentration of Credit Risk.* Concentration of credit risk is the risk of loss attributed to the magnitude of a government’s investment in a single issuer. The issuers where investments exceeded 5% of the Trust’s total investments are as follows:

	Percentage of total investments	
	2011	2010
Provider:		
Dexia Credit Local/FSA Capital Management Services, LLC	27%	30%
Trinity Funding Company, LLC	18	20
NATIXIS Funding Corp.	15	17
Citigroup	8	9

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**  
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2011 and 2010

**(4) Capitalization Grants**

The Trust is awarded Clean Water and Drinking Water grants from the U.S. Environmental Protection Agency. These grants require that the Trust enter into binding commitments with local government units within one year of the receipt of each federal grant payment to provide assistance in an amount equal to 120% (including 20% state matching grants) of each grant award. Each federal capitalization grant contains federally mandated set-asides, including a 4% administrative allowance, that result in total grant funding actually being 83.3% federal and 16.7% state.

The total grants awarded for the Trust's fiscal years ended June 30, 2011 and 2010 are as follows (in thousands):

	<b>Clean Water Program</b>		<b>Drinking Water Program</b>	
	<b>2011</b>	<b>2010</b>	<b>2011</b>	<b>2010</b>
Federal capitalization	\$ 69,177	23,103	25,303	21,813
State match on federal funds	13,835	4,621	5,061	4,362
Total capitalization	83,012	27,724	30,364	26,175
Less administrative allowance and set asides	(3,320)	(1,109)	(7,843)	(4,777)
Project capitalization	<u>\$ 79,692</u>	<u>26,615</u>	<u>22,521</u>	<u>21,398</u>

The periodic cash draws by the Trust on federal grants are based on the amount of incurred costs for certain eligible projects or activities. Federal capitalization revenue is recognized in accordance with funding availability schedules contained within the individual grant agreements.

The Trust received \$185.3 million under the ARRA in June 2009. The Clean Water program received \$133.1 million and the Drinking Water program received \$52.2 million. Due to the funding availability schedule contained with the ARRA grant, the remaining \$139.0 million was recognized as revenue in fiscal year 2010.

**(5) Loans Receivable and Bonds Purchased**

The Trust provides low-cost financing to cities, towns, and other eligible borrowers primarily for the construction and improvement of drinking water and wastewater infrastructure. These loans are provided under the Trust's Clean Water, Drinking Water, and Title V – Community Septic Management Programs.

Each loan to a borrower made with the proceeds of the Trust's SRF bonds is in the form of either a loan or the bond purchase agreement. Pursuant to an agreement with the EPA, projects financed for greater than 20 years are financed through a bond purchase agreement. Both forms of assistance are referred to as "leveraged loans" and are made pursuant to a financing agreement between the Trust and the borrower. Pursuant to the financing agreements, each borrower delivers its own general or special obligation bond to the Trust referred to as a "local bond," in order to secure its loan repayment obligations. The Trust makes loans under its Clean Water SRF program with terms up to 30 years from project completion and under its Drinking Water SRF program up to 20 years from project completion, but in no event does the Trust make a loan longer than the expected useful life of the project financed or refinanced by such loan.

The Trust recognizes the need for construction funds to be available to borrowers throughout the year, not simply at the time of an annual Trust bond issue. This need is addressed by making funds available to eligible projects through the interim loan program. Interim loans are temporary loans provided by the Trust to local governmental units or other eligible borrowers in accordance with a financing agreement for all or any part of the cost of a project in anticipation of a leveraged loan.

In addition, the Trust will from time to time provide direct loans. Direct loans are loans subject to repayment, provided to local governmental units or other eligible borrowers with SRF equity funds rather than bond proceeds.

POLLUTION ABATEMENT TRUST**  
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2011 and 2010

A summary of loan receivables as of June 30, 2011 and 2010 is as follows (in thousands):

	<u><b>2011</b></u>	<u><b>2010</b></u>
Leveraged loans or bonds purchased	\$ 3,610,479	3,325,580
Direct loans	40,301	3,556
Interim loans	276,165	288,238
Principal forgiveness	<u>(160,372)</u>	<u>(89,581)</u>
	3,766,573	3,527,793
Less: current portion	<u>317,317</u>	<u>379,331</u>
Long-term portion	<u><u>\$ 3,449,256</u></u>	<u><u>3,148,462</u></u>

The interim loan receivable balances were \$276,165 and \$288,238 as of June 30, 2011 and 2010, respectively. The June 30, 2011 interim loan balance represents \$115,793 disbursements of construction funds to borrowers to provide interim financing prior to the Series 16 bonds issue, which will provide permanent financing. Additionally, the June 30, 2011 interim loan balance represents disbursement of construction funds of \$160,372 to borrowers for which an ARRA subsidy was provided in the form of principal forgiveness. The interim loan amounts will be legally forgiven as the applicable projects are completed.

The June 30, 2010 interim loan balance represents disbursements of construction funds to borrowers to provide interim financing prior to the Series 15 bond issue, which provided the permanent financing. Additionally, the June 2010 interim loan balance has been reduced by \$89,581 of ARRA subsidy provided to the borrowers in the form of principal forgiveness. The interim loan amounts will be legally forgiven as the applicable projects are completed. The Series 15 bond issue occurred in July 2010 and interim loans totaling \$156,778 were permanently financed as part of the Series 15 bond issue. An additional \$21,464 of interim loans were financed as direct loans in July 2010.

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**  
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2011 and 2010

Aggregate principal maturities on leveraged loans receivable or bonds purchased are as follows (in thousands):

Years ending June 30:	
2012	\$ 199,729
2013	203,062
2014	209,967
2015	211,795
2016	204,945
2017 – 2021	1,004,274
2022 – 2026	821,743
2027 – 2031	484,412
2032 – 2036	203,597
2037 – 2041 (thereafter)	66,955
	<hr/>
	\$ 3,610,479
	<hr/>

The Trust's loans to its borrowers are subsidized by interest earnings on Debt Service Reserve Funds and contract assistance provided to the Trust by the Commonwealth. Although borrowers are obligated to the Trust to make scheduled payments, both of these subsidies are expected to be available for the lives of the financing agreements. The Commonwealth has committed to provide contract assistance in the amount of \$559 million. This obligation of the Commonwealth to the Trust is a general obligation of the Commonwealth, for which its full faith and credit are pledged. Annual appropriations are made each year by the Commonwealth to fund the current year's obligation.

For the leveraged bond purchase program, pursuant to an agreement with the Commonwealth, contract assistance is drawn in an amount as if the financing was for a 20-year period. The amount that is not currently needed is invested at the applicable bond yield and used to fund the subsidy in years 21 to 30.

**(6) Bonds Payable**

The Trust issues special obligation bonds under its SRF programs to provide financial assistance to eligible borrowers. The financial assistance is provided pursuant to leveraged loans and bond purchase agreements between the Trust and each borrower as described in note 5.

Total bonds payable	<u>\$ 3,597,861</u>	<u>197,923</u>	<u>401,738</u>	<u>3,394,046</u>	<u>168,320</u>

All bonds are payable from amounts pledged pursuant to the Water Pollution Abatement Project Bond Resolutions, which include payments by local governmental units of principal and interest on the loans and amounts on deposit in the Debt Service Reserve Funds. Pursuant to the Commonwealth Assistance Contract (the Contract), the Commonwealth has agreed to provide Contract Assistance payments to the Trust to reduce the payments by local government units. The Contract is not pledged as security for the bonds; however, the Contract Assistance payments, when received by the Trust, are pledged as security for the bonds.

On July 8, 2010, the Trust issued Series 15 bonds in the amount of \$444,520,000 consisting of \$191,925,000 State Revolving Fund Bonds, SubSeries 15A, and \$252,595,000 State Revolving Fund Bonds, SubSeries 15B. These monies were used to finance water pollution abatement and drinking water projects in 85 communities. Proceeds in the amount of \$317.6 million are expected to be applied to fund loans for projects under the clean water SRF and \$150.8 million of proceeds are expected to be applied to fund loans for projects under the drinking water SRF. The Trust anticipates expending all of the proceeds within two years.

The SubSeries 15B bonds are federally taxable as they are part of the Build America Bonds (BABs) program that is part of the American Recovery and Reinvestment Act of 2009. As part of the program, the Trust will receive a cash subsidy for interest from the federal government instead of tax credits accruing to purchasers of the bonds. The Trust will be entitled to 35% of all interest payable on the bonds, based on required filings to the U.S. Treasury from the Trust. The Trust is obligated to pay debt service on these bonds, regardless of whether subsidy payments are received or not.

On July 8, 2010, the Trust issued \$41,990,000 State Revolving Fund Refunding Bonds to refund a portion of the Trust's Subordinate Revenue Refunding Bonds under the New Bedford Loan Program

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**  
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2011 and 2010

Series 1998A. The total debt defeased through this new issue was \$46,195,000. The proceeds of the refunded debt were deposited with an escrow agent to provide resources for all future debt service payments on the refunded bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the financial statements. The reacquisition price was immaterially different to the net carrying amount; this difference was recorded as interest expense in the statements of revenues, expenses and changes in net assets.

On July 30, 2009, the Trust issued \$205,005,000 State Revolving Fund Refunding Bonds to refund on a current basis, \$185.3 million of the Trust's Subordinate Revenue Refunding Bonds under the MWRA Program Series 1999A and \$31.4 million of the Trust's Pool Program Bonds, Series 12. The proceeds of the refunded debt were deposited with an escrow agent to provide resources for all future debt service payments on the refunded bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the financial statements. The reacquisition price exceeded the net carrying amount of the old debt by \$24.2 million. This accounting loss is being netted against the new debt issued. The accounting loss includes a \$16.0 million swap termination fee resulting from the termination of a previously outstanding swap related to the refunded debt.

At June 30, 2011, debt service requirements to maturity for principal and interest are as follows (amounts in thousands):

	<u><b>Total debt service</b></u>	<u><b>Principal</b></u>	<u><b>Interest</b></u>
Year ending June 30:			
2012	\$ 351,962	183,102	168,860

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**  
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2011 and 2010

**(7) Net Assets**

As of June 30, 2011 and 2010, the Trust has restricted net assets in the amount of \$1.7 billion and \$1.7 billion, respectively, and unrestricted net assets in the amount of \$213.1 million and \$220.6 million, respectively. Restricted net assets represent capitalization grants received cumulative to date from the EPA and corresponding matching amounts received from the Commonwealth. The capitalization grants are restricted to provide financial assistance, but not grants, to local communities and interstate agencies for the construction of wastewater treatment works, drinking water infrastructure improvements, and other related projects as described in note 1.

**(8) Commitment**

As of June 30, 2011 and 2010, the Trust has agreed to provide loans to various local government units amounting to approximately \$122.0 million and \$460.2 million, respectively, excluding loans amounts already disbursed, which will be funded or collateralized with grant awards received by the Trust.

**(9) Derivative Transactions**

***Interest Rate Swap Agreements – \$77,255,000 dated November 21, 2006***

*Objective of the Interest Rate Swap* – As a means to lower its borrowings, costs, when compared with fixed-rate bonds at the time of their issuance in November 2006, the Trust entered into two interest rate swap agreements in connection with its Pool Program Refunding Bonds, Series 2006 bonds. The intention of the swaps was to hedge the Trust's exposure to interest rate risk by effectively changing the Trust's variable rate bonds maturing in 2022 and 2023 to a synthetic fixed rate of 3.88% and 3.90%, respectively.

**MASSACHUSETTS WATER  
POLLUTION ABATEMENT TRUST**  
(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2011 and 2010

*Terms* – Under the terms of these swaps, the Trust agrees to receive a variable rate, based on the Consumer Price Index (CPI), equal to the amounts due on variable rate bonds issued by the Trust concurrently with the execution of the swap agreement. The Trust agrees to pay a fixed rate to the counterparty. Payments are made semiannually, due August 1 and February 1 of each year, on the same schedule as the fixed rate bonds issued in December 2006. The counterparty is JP Morgan Chase & Co. JP Morgan Chase Bank, N.A. The terms of each swap agreement are summarized below:

	<b>2022 Termination</b>	<b>2023 Termination</b>
Trade date	November 21, 2006	November 21, 2006
Effective date	December 14, 2006	December 14, 2006

Notional amount	\$ 30,650,000	46,605,000
Fair value at June 30, 2011	911,084	1,544,791
Fair value at June 30, 2010	(506,269)	(752,511)
Variable rate bond coupon payments	Muni-CPI* rate + 0.99%	Muni-CPI* rate + 0.99%
Variable rate payment from counterparty	Muni-CPI* rate + 0.99%	Muni-CPI* rate + 0.99%
Fixed rate payment to counterparty	3.88%	3.90%
Synthetic fixed rate on bonds	3.88	3.90

\* Muni-CPI rate is equal to (a) the quotient of (1) the Reference CPI-U for the current debt service payment date minus the prior Reference CPI-U divided by (2) the prior Reference CPI-U. Reference refers to 3 months preceding the debt service payment date.  
Prior Reference period refers to 15 months preceding the debt service payment date.

*Fair Value* – Because the Muni-CPI rate increased in excess of the synthetic fixed rate, the swaps had positive fair values as of June 30, 2011. This means that for the next debt service payment date of August 1, 2011, the Trust will receive a payment from its swap counterparty. The swaps had an aggregate negative fair value as of June 30, 2010, which means on the August 1, 2010 debt service payment date the Trust made a payment to the swap counterparty. Because the coupons on the Trust's variable rate bonds adjust to the changing Muni-CPI rates, the bonds do not have a corresponding fair value increase or decrease. At June 30, 2011, the fair value of these swaps is reflected as an asset from derivative instruments, a component of other assets, and deferred inflow from derivative instruments in the accompanying financial statements. At June 30, 2010, the fair values of these swaps are reflected as a liability for derivative instruments and deferred outflows in the accompanying financial statements. The fair value of the derivative was estimated using the zero-coupon method. This method calculates the future net settlement payments/receipts required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement of the swap.

Notes to Financial Statements

June 30, 2011 and 2010

*Credit Risk* – As of June 30, 2011, the Trust is exposed to credit risk equal to the amount of the derivative's fair value. As of June 30, 2010, the Trust was not exposed to credit risk because the swaps had a negative fair value. Prior to January 5, 2009, the swap counterparty was Bear Stearns Capital Markets, Inc. As of January 5, 2009, the counterparty is JP Morgan Chase & Co. JP Morgan Chase Bank, N.A. is rated AA-/Aa1/AA- by Standard & Poor's, Moody's Investors Service, and Fitch Ratings, respectively. To mitigate credit risk, the Trust has the right to terminate the swap upon a ratings downgrade by the counterparty's credit support provider below BBB-/Baa3 by Standard & Poor's, and Moody's Investors Service, respectively.

*Termination Risk* – The swap contract uses the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay and bankruptcy. In addition, the Trust may terminate upon a ratings downgrade by the counterparty, as described above. The Trust and the counterparty may terminate if either party fails to perform under the terms of the Contract. If at the time of termination, the swap has a negative fair value, the Trust would be liable to the counterparty for a payment equal to the swap's fair value. The source of funds for this payment is from "legally available funds." Legally available funds is defined as, "funds held in the Trust's Federal Clean Water State Revolving Fund or Drinking Water State Revolving Fund...only to the extent that Congress passes a law or EPA adopts a regulation or issues an opinion or other notice...making such amounts legally available to pay settlement amounts."

Notes to Financial Statements

June 30, 2011 and 2010

*Swap Payments and Hedged Debt* – In accordance with the swap agreement, the variable rate is calculated using the preceding 3 months' Muni-CPI rate with settlement payments made on the debt service payment dates of February 1 and August 1. As of June 30, 2011, the variable rate was calculated using the May 31, 2011 Muni-CPI rate. Assuming this rate remains the same, the debt service requirements of the variable rate debt and the net swap payments are presented in the table below. As the Muni-CPI rate varies, the variable rate payments on the bonds and the variable rate receipts from the swap are equal, the net debt service will remain fixed.

	<b>Variable rate bonds<sup>1</sup></b>		<b>Net swap payments<sup>2</sup></b>	<b>Total debt service</b>
	<b>Principal</b>	<b>Interest</b>		
Fiscal year ending June 30:				
2012	\$ —	3,493,107	(486,292)	3,006,815
2013	—	3,493,107	(486,292)	3,006,815
2014	—	3,493,107	(486,292)	3,006,815
2015	—	3,493,107	(486,292)	3,006,815
2016	—	3,493,107	(486,292)	3,006,815
2017	—	3,493,107	(486,292)	3,006,815
2018	—	3,493,107	(486,292)	3,006,815
2019	—	3,493,107	(486,292)	3,006,815
2020	—	3,493,107	(486,292)	3,006,815
2021	—	3,493,107	(486,292)	3,006,815
2022	—	3,493,107	(486,292)	3,006,815
2023	30,650,000	2,800,183	(387,978)	33,062,205
2024	46,605,000	1,053,629	(144,832)	47,513,797

<sup>1</sup> Calculated rate uses May 31, 2011 Muni-CPI rate to reflect debt service payment for August 1, 2011.

<sup>2</sup> A negative net swap payment requires a payment from the counterparty to the Trust.
