A. INTRODUCTION

The Healey-Driscoll Administration is pleased to announce the opening of the FY2026 round of the Regional Economic Development Organization (REDO) Grant Program. The program is administered by the Executive Office of Economic Development (EOED), in consultation with the Massachusetts Office of Business Development (MOBD) and is now accepting applications for Fiscal Year 2026.

EOED is seeking proposals from eligible organizations as defined in M.G.L. Chapter 23A, Section 3K, to partner with EOED and MOBD in supporting business development throughout the state. In alignment with the goals of the state’s Economic Development Plan, a REDO shall support regionally based efforts to nurture and facilitate economic growth and prosperity in all parts of the Commonwealth. Applicants will also be expected to demonstrate how their organization improves equity, affordability, and competitiveness in their respective regions.

B. WHAT’S NEW IN FY2026

In FY2026, EOED will continue awarding grants to support the work of the various organizations throughout the Commonwealth that are implementing the goals of the REDO Program. Applications will be accepted via the Submittable platform and in a similar format to last year. However, given the shorter timeframe for this procurement and for the organizations to carry out their projects, EOED has updated the review process. The goal is to expedite the application review, grant allocation and disbursements, contracting, and year-end reporting. Notable updates/changes include:

1. Each applicant organization will be required to demonstrate their eligibility as a REDO and identify their regional coverage area made up of no less than 11 contiguous municipalities. While applicants may identify all municipalities it serves, it must include more than 10 that are contiguous, per the statute. Applicants will be required to elaborate on the common characteristics and economic independence of the municipalities in the identified region.

2. Each applicant organization will be required to identify at least five (5) of the statutory deliverables that will be included in their workplan. Applicants will need to elaborate on their work on the selected deliverables. Additional deliverables may be included. However, the year-end report will require grantee to primarily outline their progress on achieving the statutory deliverables.
3. The Performance Period for all grants will be January 1, 2026, through June 30, 2026. Grants may be used to cover any and all expenses incurred by the REDO to complete the necessary work related to identified deliverables during this timeframe.

C. PROGRAM PURPOSE

Per M.G.L. Chapter 23A, Section 3J, the purpose of the program is "...to support regionally based efforts to stimulate, encourage, facilitate and nurture economic growth and prosperity in the commonwealth including, but not limited to, the identification of regional competitive strengths, challenges and opportunities, regional cluster development strategies, long-range regional workforce skills, pipeline, transportation and land use planning and other systems-based activities related to the growth and retention of existing businesses and the attraction of new businesses into the commonwealth.

D. ELIGIBILITY

To be considered for funding, the applicant organization must meet the following requirements:

- Be a corporation, foundation, organization or institution that is exempt from federal taxation under section 501(c) of the Internal Revenue Code and have a primary focus on economic development and perform the services required by M.G.L. Chapter 23A, Sections 3J and 3K.
- Operate regionally with a service area that includes **more than 10 contiguous cities or towns**. The organization shall describe the economic interdependency of its contiguous member municipalities and articulate a comprehensive vision for recognition of those municipalities as a self-identified region with interrelated economic assets such as industrial base, public infrastructure, research, educational and financial institutions and environmental characteristics.
- Engage primarily in activities intended to promote jobs and business retention, creation and attraction across all industry sectors within its identified region.
- Have a history of collaboration with the area business community, local officials, other economic development organizations, higher education institutions and public and private organizations within the identified region. The applicant must describe a plan for a formal program encouraging participation in activities by a wide variety of organizations, governments and businesses operating in the identified region.
- Has received, or has commitments to receive, substantial financial and/or in-kind support from private resources or member municipalities.
- Is capable of and agrees to provide services to the entire region identified in the application.
